## INSTALLATION AND SETUP

---

Follow these steps to correctly install your new BG2000 replacement head. Regular replacement ensures optimal shaving performance.

1. **Remove the old foil:** Gently pull the used foil out of its attachment head.
2. **Install the new foil:** Snap the new foil into place. You should hear a "click" indicating it is securely attached.

## IDENTIFYING YOUR SHAVER MODEL NUMBER

---

It is crucial to identify the correct model number of your Philips Norelco shaver to ensure compatibility when purchasing replacement parts. The model number is typically located on the back of the shaver in small print. In some cases, it might be found on the front, around the upper left gear inside the housing, or by flipping up the trimmer on the back.

Video: Guide on how to locate the model number on your Philips Norelco shaver. This video highlights various common locations for model numbers, including the back, front, and under the trimmer, to help users correctly identify their device for part compatibility.

## MAINTENANCE

---

For best results and to maintain optimal performance, it is recommended to change the shaving foil and cutter set every 12 months. Regular replacement helps ensure a close and comfortable trim and shave.

## TROUBLESHOOTING

---

If you experience issues after replacing the screen and cutter set, consider the following:

- **Poor Shaving Performance:** Ensure the new foil is correctly snapped into place. A loose foil may not provide an effective shave.
- **Irritation or Nicks:** Verify that the replacement part is genuine and compatible with your specific model. Inspect the foil for any damage or manufacturing defects.
- **Device Not Turning On:** This issue is typically unrelated to the replacement head. Check the device's battery charge and power connection.
