FurReal Newborn Dalmation Puppy Instruction Manual

INTRODUCTION

Welcome to the world of FurReal Friends! This manual provides essential information for the setup, operation, and care of your new FurReal Newborn Dalmation Puppy. Designed for children aged 4 and up, this interactive electronic pet offers engaging play with realistic sounds and movements.

Your Newborn Dalmation Puppy is an electronic toy that comes to life with your touch, making barking sounds and wagging its tail. Please read these instructions carefully to ensure proper use and enjoyment of your product.

SETUP

Battery Installation

Your FurReal Newborn Dalmation Puppy requires 2 AA batteries for operation. These batteries are typically included with the product. Follow these steps to install or replace the batteries:

1. Locate the battery compartment on the underside of the puppy.
2. Using a Phillips head screwdriver (not included), carefully loosen the screw on the battery compartment cover.
3. Remove the cover.
4. Insert 2 new AA batteries, ensuring the correct polarity (+/-) as indicated inside the compartment.
5. Replace the battery compartment cover and tighten the screw securely.

Note: Always use fresh batteries of the same type. Do not mix old and new batteries, or different types of batteries. Remove batteries if the toy will not be used for an extended period.

Image: The FurReal Newborn Dalmation Puppy in its original packaging. The puppy is white with black spots, and the packaging highlights its features: "I bark & wag my tail!" and "Pet my back!". A small bone accessory is visible near its paws. The packaging also indicates "AGES 4+" and "x3 BATTERIES INCLUDED".

OPERATING INSTRUCTIONS

Your FurReal Newborn Dalmation Puppy is designed for simple, interactive play. Once batteries are installed, the puppy is ready to respond to your touch.

Activating Your Puppy

To activate your puppy's sounds and movements, gently pet its back. The puppy will respond by making realistic barking sounds and wagging its tail. Continue to pet its back for ongoing interaction.

- **Barking Sounds:** The puppy emits various barking sounds to mimic a real puppy.
- **Tail Wagging:** The puppy's tail will wag in response to petting, indicating happiness and playfulness.

Note: The puppy's responses are triggered by touch sensors located on its back. Ensure a gentle but firm touch for consistent interaction.

MAINTENANCE

Cleaning

To keep your FurReal Newborn Dalmation Puppy clean, follow these guidelines:

- **Surface Clean Only:** Use a soft, damp cloth to wipe the surface of the puppy.
- Do not immerse the toy in water or any other liquids, as this can damage the electronic components.
- Avoid using harsh chemicals or abrasive cleaners.

Storage

When not in use, store your puppy in a clean, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, remove the batteries to prevent leakage and potential damage to the toy.

TROUBLESHOOTING

If your FurReal Newborn Dalmation Puppy is not functioning as expected, please refer to the following common issues and solutions:

Problem	Solution
Puppy does not make sounds or move.	Check the batteries. Ensure they are inserted correctly with the proper polarity (+/-) and are not depleted. Replace with fresh AA batteries if necessary.
Sounds are weak or distorted.	This usually indicates low battery power. Replace the batteries with new AA batteries.
Puppy does not respond to petting.	Ensure you are petting the designated area on the puppy's back. Check if the batteries are properly installed and have sufficient power.

If the problem persists after trying these solutions, please contact customer support.

SPECIFICATIONS

- **Brand:** FurReal
- **Model Number:** 94362
- **Manufacturer Part Number:** 75022BE
- **Age Range:** 4 years and up
- **Batteries:** 2 AA batteries (included)
- **Material:** Plastic
- **Item Weight:** 12 ounces
- **Item Dimensions:** 5.24 x 7.24 x 7.52 inches
