Operating Instructions

Your FurReal Newborn Golden Retriever Pup is designed to respond to touch and interaction.

- **Petting its Back:** Gently pet the pup's back to activate various sounds and movements. The pup may bark, whimper, or make other puppy sounds.
- **Head Movement:** When activated, the pup may lift its head in response to your touch, mimicking a real puppy's interaction.
- **Feeding:** Use the included feeding bottle accessory. While the pup does not physically drink, holding the bottle near its mouth may trigger feeding sounds or reactions.

Maintenance

- **Cleaning:** To clean the pup, gently wipe the surface with a slightly damp cloth. Do not immerse the toy in water or use harsh cleaning agents.
- **Storage:** When not in use for extended periods, turn the pup OFF to conserve battery life. Store in a

clean, dry place away from direct sunlight and extreme temperatures.

- **Battery Care:** Always remove exhausted batteries promptly. Do not mix old and new batteries, or different types of batteries.
