

FarPoint FLFR10012

FarPoint Rechargeable Flashlight FLFR10012 User Manual

Model: FLFR10012

1. INTRODUCTION

Thank you for purchasing the FarPoint Rechargeable Flashlight, Model FLFR10012. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new flashlight. Please read this manual thoroughly before use and retain it for future reference.

2. SAFETY INFORMATION

- **Eye Safety:** Do not look directly into the LED beam or shine it directly into the eyes of others. The high intensity light can cause temporary vision impairment or permanent eye damage.
- **Children:** Keep this flashlight out of reach of children.
- **Heat:** The flashlight head may become warm during prolonged use. This is normal.
- **Battery Care:** Use only the specified charging method. Do not attempt to disassemble the integrated lithium-ion battery. Do not expose the flashlight to extreme temperatures or fire.
- **Water Resistance:** The flashlight is IPX4 weatherproof rated, meaning it is resistant to splashing water from any direction. It is not designed for submersion.

3. PACKAGE CONTENTS

Please check the package for the following items:

- FarPoint Rechargeable Flashlight (Model FLFR10012)
- USB Charging Cable
- User Manual

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your FarPoint Rechargeable Flashlight.

Image 1: Angled view of the FarPoint FLFR10012 Rechargeable Flashlight. This image displays the overall design, including the textured grip, pocket clip, and the orange bezel around the lens.

Image 2: Side view of the FarPoint FLFR10012 Rechargeable Flashlight. This image highlights the USB charging port, which is typically

covered by a rubber flap for protection, and the power button.

The flashlight features a durable aluminum body, a power button, a USB charging port, and a slide-to-focus mechanism for beam adjustment.

5. SETUP

Your FarPoint Rechargeable Flashlight comes with an integrated battery. Before first use, it is recommended to fully charge the flashlight.

1. Locate the USB charging port on the flashlight body. It is usually protected by a rubber cover.
2. Gently lift the rubber cover to expose the USB port.
3. Connect the small end of the provided USB charging cable to the flashlight's USB port.
4. Connect the larger end of the USB charging cable to a standard USB power source (e.g., a computer USB port, a USB wall adapter, or a power bank).
5. Allow the flashlight to charge until the charging indicator (if present) signals a full charge. Refer to the 'Charging Instructions' section for more details.
6. Once charging is complete, disconnect the cable and securely close the rubber cover to maintain water resistance.

6. OPERATING INSTRUCTIONS

The FarPoint FLFR10012 flashlight offers multiple beam settings and a slide-to-focus feature.

Power On/Off and Mode Selection

1. **To Turn On:** Press the power button once. The flashlight will typically turn on in its last used mode or a default high mode.
2. **To Cycle Modes:** While the flashlight is on, press the power button repeatedly to cycle through the available beam settings (e.g., High, Medium, Low, Strobe, SOS). The flashlight features 3 beam settings.
3. **To Turn Off:** Press and hold the power button for approximately 1-2 seconds, or cycle through all modes until the flashlight turns off.

Slide-to-Focus Feature

To adjust the beam from a wide floodlight to a narrow spotlight, simply slide the head of the flashlight forward or backward. This allows for precise control over the light's spread and intensity over distance.

7. CHARGING INSTRUCTIONS

The flashlight is equipped with a rechargeable lithium-ion battery and a USB input for convenient charging.

1. Ensure the flashlight is turned off before charging.
2. Open the rubber cover protecting the USB charging port.
3. Connect the USB charging cable to the flashlight and a 5V USB power source.
4. A charging indicator light (location may vary, often near the port or power button) will illuminate, typically red, to indicate charging is in progress.
5. When fully charged, the indicator light will change color (e.g., to green or blue) or turn off.

6. Charging time may vary depending on the power source and battery depletion level.
7. Once charging is complete, disconnect the USB cable and firmly close the rubber cover to protect the port from dust and moisture.

8. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your flashlight.

- Cleaning:** Wipe the flashlight body with a soft, damp cloth. Do not use abrasive cleaners or solvents. Keep the lens clean for maximum light output.
- Storage:** Store the flashlight in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, ensure the battery is partially charged (around 50%) to preserve battery health. Recharge every 3-6 months if not in use.
- Water Resistance:** Always ensure the USB port cover is securely closed to maintain the IPX4 weatherproof rating.
- Drop Protection:** The flashlight is designed to be 2m drop tested, offering good durability. However, avoid unnecessary drops to prevent damage.

9. TROUBLESHOOTING

If you encounter issues with your flashlight, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is depleted.	Charge the flashlight fully using the provided USB cable.
Flashlight does not charge.	Faulty USB cable or power source. USB port not properly connected.	Try a different USB cable or power source. Ensure the cable is securely plugged into both the flashlight and the power source.
Light output is dim.	Low battery. Lens is dirty.	Recharge the flashlight. Clean the flashlight lens with a soft cloth.
Beam does not focus properly.	Mechanism obstructed.	Ensure the slide-to-focus mechanism is free of debris and moves smoothly.

If the problem persists after attempting these solutions, please contact customer support.

10. SPECIFICATIONS

Feature	Specification
Model Number	FLFR10012 (Part Number: 5240679)
Brightness	1000 Lumens

Feature	Specification
Light Source Type	LED
Power Source	Rechargeable Battery (Lithium Ion)
Voltage	5 Volts (DC)
Water Resistance Level	IPX4 Weatherproof
Drop Test Rating	2 meters
Item Weight	6.4 ounces
UPC	845181037007
