

## STP STP 65148 15 Oz Oil Treatment

# STP 65148 15 Oz Oil Treatment

## USER MANUAL

Brand: STP

### Product Overview

STP 65148 15 Oz Oil Treatment is an automotive fluid designed to enhance engine performance and longevity. This treatment works to reduce engine wear, minimize engine deposits, and decrease oil consumption, contributing to a healthier engine.

Key features of this oil treatment include:

- **Helps Protect Against Engine Wear:** Formulated to provide a protective layer for engine components.
- **Contains Zinc Anti-Wear Agent ZDDP:** An active ingredient known for its anti-wear properties.
- **Reduces Oil Burning:** Helps to maintain oil levels and reduce the frequency of top-offs.
- **Lubricates Moving Engine Parts:** Ensures smooth operation of internal engine components.

## Setup and Application

This oil treatment is scientifically engineered for use with both conventional and synthetic oils, making it suitable for all seasons and a wide range of vehicles.

EZ FLOW™ BOTTLE

## Suitable for All Seasons

**Scientifically Engineered for Conventional or Synthetic Oils**

**High Quality Base Stock**

- Carrier of active ingredients to help protect internal engine parts

**Viscosity Index Improver (VII)**

- Cushions engine parts to help reduce metal-to-metal contact
- Helps reduce oil consumption

**Zinc Dialkyl Dithiophosphate (ZDDP)**

- Anti-wear agent that helps provide a layer of protection for engine parts

**100% Satisfaction Guaranteed or Your Money Back.**

**DIRECTIONS:** Add 1 bottle to 4-5 quarts of oil at or between oil changes.

**CAUTION: EYE IRRITANT.**

Avoid eye contact and prolonged skin contact.

**FIRST AID: EYES** – Rinse with water for 15 minutes. Contact a physician if irritation persists.

**SKIN** – Wash with soap and water.

**KEEP OUT OF REACH OF CHILDREN.**

Contains zinc dialkylthiophosphate.

## Directions for Use:

1. Ensure your engine oil is at a safe operating temperature.
2. Add one (1) bottle of STP 65148 15 Oz Oil Treatment to 4 to 5 quarts of oil.
3. Apply the treatment either at the time of an oil change or between oil changes as needed.

*Caution: Eye irritant. Avoid eye contact and prolonged skin contact. First Aid: Eyes - Rinse with water for 15 minutes, contact a physician if irritation persists. Skin - Wash with soap and water. Keep out of reach of children. Contains zinc dialkyldithiophosphate.*

## Operating Principles

STP Oil Treatment works by providing a high-quality base stock and viscosity index improver (VII) to your engine oil. These components help to cushion engine parts, reducing metal-to-metal contact and improving overall lubrication. The anti-wear agent, Zinc Dialkyldithiophosphate (ZDDP), provides an additional layer of protection for critical engine parts, especially beneficial for older engines or those experiencing lower oil pressure.

## Maintenance

Regular use of STP 65148 15 Oz Oil Treatment as directed contributes to the ongoing maintenance of your engine. It helps to extend engine life by reducing wear and tear, controlling oil burning, and preventing the buildup of harmful deposits. Incorporating this treatment into your routine oil changes or as a top-off between changes can help maintain optimal engine health and performance.

## Troubleshooting

If your vehicle's engine is experiencing symptoms such as slightly low oil pressure or increased oil consumption, adding STP Oil Treatment may help. This product is often used to address these issues, particularly in older engines, by improving oil viscosity and lubrication properties. If symptoms persist after application, consult a qualified mechanic.
