4. Maintenance

Proper care of your DVD will ensure its longevity and optimal playback performance.

- **Handling:** Always hold the DVD by its outer edges or by placing a finger through the center hole. Avoid touching the shiny playback surface to prevent fingerprints and scratches.
- **Cleaning:** If the disc becomes dirty, gently wipe it with a soft, lint-free cloth (e.g., microfiber) from the center outwards in a straight line. Do not wipe in circular motions. For stubborn marks, use a

specialized DVD cleaning solution. Avoid abrasive materials or harsh chemicals.

- **Storage:** Store the DVD in its original case when not in use. Keep it away from direct sunlight, extreme temperatures, and high humidity, which can warp the disc or damage the data layer.
- **Protection:** Do not bend or flex the disc. Avoid placing heavy objects on top of the disc or its case.

5. Troubleshooting

If you encounter issues while playing your "Green Zone" DVD, consider the following common solutions:

- **Disc Not Playing/Loading:**
  - Ensure the disc is inserted correctly with the label side facing up.
  - Check if the disc is clean and free of smudges or scratches. Clean it if necessary (refer to Section 4. Maintenance).
  - Verify that your DVD player is functioning correctly by trying another known-good DVD.
  - Ensure your TV input is set to the correct source for your DVD player.
- **No Audio or Video:**
  - Check all audio and video cables connecting your DVD player to your TV. Ensure they are securely plugged in.
  - Verify that your TV's volume is not muted and is turned up.
  - Check the audio settings on your DVD player and TV.
- **Skipping or Freezing:**
  - This is often caused by dirt, dust, or scratches on the disc. Clean the disc thoroughly (refer to Section 4. Maintenance).
  - If the disc is heavily scratched, it may be permanently damaged.
  - Ensure your DVD player is on a stable surface and not subject to vibrations.
