GROHE 32185000

GROHE Veris 32185000 Single-Handle High-Spout Bathroom Faucet Instruction Manual

Model: 32185000

1. PRODUCT OVERVIEW

The GROHE Veris 32185000 is a single-handle high-spout bathroom faucet designed for lavatory centerset installations. This faucet incorporates the GROHE 'Joy lever' for precise control and features a sleek, contemporary design. It is constructed from solid brass and finished with GROHE StarLight chrome for durability and aesthetic appeal.

Key features include:

- **GROHE SilkMove Ceramic Cartridge:** Ensures smooth and precise control of water flow and temperature.
- **GROHE StarLight Finish:** Provides a durable, scratch-resistant chrome surface that is easy to clean.
- **GROHE EcoJoy:** Designed for reduced water consumption without compromising performance.
- **High-Spout Design:** Offers ample clearance for various basin types.
- **Quick Installation System:** Facilitates faster and easier setup.

2. INSTALLATION INSTRUCTIONS

This section provides general guidance for installing your GROHE Veris faucet. For detailed, step-by-step instructions, please refer to the included installation guide or consult a qualified plumber. The GROHE QuickFix system is designed to simplify the installation process.

2.1 Pre-Installation Checklist

- Ensure all necessary tools are available (e.g., adjustable wrench, screwdriver, sealant).

- Verify that water supply lines are shut off.
- Inspect the faucet and all components for any damage.

2.2 Installation Steps (Overview)

1. Insert the faucet body into the single-hole opening on your lavatory.
2. Secure the faucet from underneath the counter using the provided mounting hardware (washer and nut).
3. Connect the hot and cold water supply lines to the corresponding inlets on the faucet.
4. Connect the metal pop-up drain assembly (if included and applicable).
5. Test for leaks and proper operation.

3. OPERATING INSTRUCTIONS

The GROHE Veris faucet features a single lever handle for intuitive control of water flow and temperature.

- **Water Flow Control:** Lift the lever handle upwards to increase water flow. Push it downwards to decrease or shut off the flow.
- **Temperature Control:** Move the lever handle to the left for hot water and to the right for cold water. The GROHE SilkMove ceramic cartridge ensures smooth and precise adjustments.
- **Joy Lever Design:** The unique 'Joy lever' is designed for comfortable and effortless operation, allowing for fine-tuned adjustments with minimal effort.

4. MAINTENANCE AND CARE

To maintain the pristine appearance and optimal performance of your GROHE Veris faucet, follow these care guidelines:

- **Cleaning the Finish:** The GROHE StarLight chrome finish is highly durable. Clean regularly with a soft cloth and mild soap or a non-abrasive cleaner specifically designed for chrome fixtures. Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the finish.
- **Aerator Maintenance:** Periodically unscrew the aerator at the tip of the spout and clean any mineral deposits or debris. This helps maintain optimal water flow and spray pattern.
- **Leak Prevention:** If you notice any drips or leaks, ensure all connections are secure. If the issue persists, the ceramic cartridge may need inspection or replacement by a qualified professional.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your faucet. For more complex problems, contact GROHE customer support or a professional plumber.

Problem	Possible Cause	Solution
Low Water Flow	Clogged aerator; partially closed shut-off valves.	Clean the aerator; ensure shut-off valves are fully open.
Leaking from Spout	Worn ceramic cartridge; debris in cartridge.	Contact customer support for cartridge replacement or professional service.
Difficulty Adjusting Temperature	Cartridge issue; water heater settings.	Check water heater settings; contact customer support for cartridge inspection.
