# Brillo Steel Wool Soap Pads Instruction Manual

Model: 2123318

## INTRODUCTION

---

Thank you for choosing Brillo Steel Wool Soap Pads. These pads are designed for effective cleaning of tough messes, featuring an original grease-fighting soap and an anti-rust formula for long-lasting performance. The iconic square shape and unique bonded edges help reach corners and maintain pad integrity during use.

## SETUP

Brillo Steel Wool Soap Pads are pre-loaded with soap, requiring minimal preparation for use.

1. **Prepare the Pad:** Wet the Brillo pad with water.
2. **Prepare the Surface:** Ensure the surface to be cleaned is also wet.

## OPERATING INSTRUCTIONS

---

Follow these steps for effective cleaning with Brillo Steel Wool Soap Pads:

1. **General Cleaning:** With the wet pad and wet surface, scrub the area to be cleaned. The integrated soap will activate to cut through grease and grime.
2. **Tough Jobs:** For really tough, baked-on messes, apply firm pressure and scrub across the grain of the mess. The steel wool texture combined with the grease-fighting soap will help lift stubborn residues.
3. **Delicate Surfaces:** For delicate or highly polished surfaces, always test the Brillo pad on an inconspicuous area first to ensure no scratching or damage occurs.
4. **Rinsing:** After scrubbing, rinse the cleaned surface thoroughly with water.

### Recommended Applications:

- **Cookware:** Silverware, Dishes & Bowls, Bakeware, Glassware, Utensils, Pots & Pans.
- **Indoor Surfaces:** Stovetops & Ovens, Burners, Tile Floors, Countertops, Stainless-steel Sinks, Glass Shower Doors.
- **Outdoor Items:** Barbecue Grills, Tire/Wheels, Machinery & Tools, Outdoor Patio Furniture, Golf Clubs.

## **MAINTENANCE**

---

Brillo Steel Wool Soap Pads are designed for single or limited multiple uses depending on the intensity of the cleaning task. The anti-rust formula helps prolong the pad's life, but it is a disposable product.

- After use, rinse the pad to remove loose debris.
- Store in a dry place to maximize its lifespan.
- Dispose of the pad once it no longer produces sufficient suds or becomes excessively worn.

## TROUBLESHOOTING

---

- **Ineffective Cleaning:** Ensure both the pad and the surface are adequately wet. Apply more pressure for tougher stains.
- **Surface Damage:** If scratching occurs on delicate surfaces, discontinue use immediately. Always perform a spot test on an inconspicuous area before widespread application.
- **Pad Deterioration:** If the pad is rusting prematurely or losing its scrubbing ability, it may be time to replace it with a new one.
