Dream On Me 681-K

Dream On Me 2-In-1 Lightweight Folding Portable Stationary Side Crib (Model 681-K)

Instruction Manual

Product Overview

The Dream On Me 2-In-1 Lightweight Folding Portable Stationary Side Crib is designed for versatility and convenience. It functions as both a crib and a playpen, featuring a unique hinge system for flat folding and locking wheels for portability. Constructed from pine wood, this crib meets applicable ASTM/CPSC safety standards.

Safety Information

Always prioritize safety when using this product. Ensure all components are securely fastened before use. This crib features a stationary (non-drop side) rail system and dual hooded, locking wheels for enhanced safety. It is designed to meet applicable ASTM/CPSC standards.

- **Maximum Weight Limit:** 35 lbs (15.8 kg).
- **Mattress:** Use only the mattress provided or a mattress that meets the specified dimensions and thickness to prevent gaps that could entrap a child.
- **Assembly:** Follow all assembly instructions carefully. Do not use the crib if any parts are missing, damaged, or broken.
- **Placement:** Do not place the crib near windows where cords from blinds or drapes could strangle a child.

Setup and Assembly

The Dream On Me 2-In-1 Crib is designed for quick and straightforward assembly. Tools for assembly are included with your purchase. The instructions are typically located on the mattress support board.

1. **Unpack Components:** Carefully remove all parts from the packaging. Keep screws and small parts organized; they are labeled on their packaging. Avoid opening all parts bags simultaneously to prevent mixing.
2. **Review Instructions:** Locate the assembly instructions, often found glued to the mattress support board. Read them thoroughly before beginning.
3. **Assemble Frame:** Follow the step-by-step diagrams to connect the crib frame components. Ensure all bolts and screws are tightened securely, but do not overtighten to avoid damaging the wood.
4. **Install Mattress Support:** Place the mattress support board into the designated position. The crib features an adjustable mattress height for newborns and older infants.
5. **Check Stability:** Once assembled, gently shake the crib to ensure it is stable and all connections are firm.

Operating Instructions

Converting from Crib to Playpen

The crib's U.S. patented rail design allows for easy conversion to a playpen in seconds. Simply adjust the mattress support to the lowest position for playpen use.

Folding for Storage or Travel

The unique hinge system enables the crib to fold flat with one hand for compact storage or travel. This feature makes it highly portable.

1. Remove the mattress and any bedding.
2. Locate the folding mechanism (usually a latch or button) on the side rails.
3. Engage the mechanism and gently push the sides inward until the crib folds flat.

4. Ensure the crib is securely latched in its folded position before moving or storing.

Using the Locking Wheels

The crib is equipped with dual hooded, locking wheels for easy maneuverability and stability. To move the crib, unlock the wheels. To secure it in place, engage the wheel locks.

Image: A detailed view of the crib's 360-degree swivel and locking wheels, illustrating how they provide both mobility and stability.

Maintenance

Proper maintenance ensures the longevity and safety of your crib.

- **Cleaning:** Wipe the crib surfaces with a dry cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Inspections:** Regularly check all screws, bolts, and hardware to ensure they are tight and secure. Retighten as necessary.
- **Finish Care:** The pine wood finish is durable but can chip or scuff if subjected to impact. Handle with care during assembly and movement.
- **Storage:** When storing the crib, especially for extended periods, ensure it is clean and dry. Store in a climate-controlled environment to prevent warping or damage to the wood.

Troubleshooting

If you encounter issues during assembly or use, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Crib wobbles or feels unstable.	Loose hardware; uneven assembly.	Ensure all screws and bolts are tightened. Disassemble and reassemble carefully, ensuring parts are aligned correctly.
Difficulty folding the crib flat.	Latch mechanism obstructed or misaligned; parts not fully engaged.	Check for any obstructions. Ensure the latch system is not binding. Verify that all hinge points are free to move.
Wheels do not lock or roll smoothly.	Debris in wheel mechanism; bent castor.	Clean wheels of any debris. Inspect castors for damage; contact support if a castor is bent or broken.
Missing or damaged parts upon arrival.	Manufacturing defect or shipping damage.	Do not attempt to assemble. Contact Dream On Me customer support immediately for replacement parts.

Specifications

Feature	Detail
Model Number	681-K
Product Dimensions (L x W x H)	40" x 26" x 38" (101.6 cm x 66 cm x 96.5 cm)
Item Weight	30.5 lbs (13.8 kg)
