Jeffrey Alexander Z290-12SN

Jeffrey Alexander Z290-12SN Durham Appliance Pull Instruction Manual

Model: Z290-12SN | Brand: Jeffrey Alexander

1. PRODUCT OVERVIEW

The Jeffrey Alexander Z290-12SN Durham Appliance Pull is a robust and elegantly designed hardware component. Crafted from durable zinc, this pull features a traditional style with a Nickel finish, making it suitable for a variety of kitchen and home decor styles. It is specifically designed for use on larger cabinet doors or appliances, providing a secure and comfortable grip.

2. PRODUCT FEATURES

- **Length:** 13 inches overall.
- **Center-to-Center:** 12 inches (distance between mounting holes).
- **Material:** Durable Zinc Die Cast construction.

- **Finish:** Nickel.
- **Style:** Traditional arch design.
- **Application:** Suitable for appliance doors and large cabinet doors.
- **Installation:** Designed for easy installation.

3. INSTALLATION GUIDE

Follow these steps for proper installation of your appliance pull. Ensure you have the necessary tools before beginning.

3.1 Tools Required

- Measuring Tape or Ruler
- Pencil or Marker
- Drill with appropriate drill bit (typically 3/16" or 5mm for cabinet hardware screws)
- Screwdriver (Phillips or flathead, depending on screw type)
- Punch or Awl (optional, for marking drill points)

3.2 Installation Steps

1. **Measure and Mark:** Determine the desired location for your pull on the cabinet or appliance door. Using a measuring tape, mark the two drilling points precisely 12 inches apart (center-to-center). Ensure the marks are level and centered as desired.
2. **Drill Holes:** Carefully drill pilot holes at the marked points. Use a drill bit appropriate for your mounting screws and the material of your door. Drill straight through the door to avoid splintering.
3. **Attach Pull:** Align the pull with the drilled holes. Insert the mounting screws from the inside of the door through the holes and into the threaded receivers on the pull.
4. **Tighten Screws:** Using a screwdriver, tighten the screws until the pull is secure. **Do not overtighten**, as this can strip the threads or damage the door material.

Image 3.2: Example of the appliance pulls installed on wooden cabinet drawers.

4. OPERATION

To operate the appliance pull, simply grasp the handle firmly and apply gentle, even pressure to open or close the appliance or cabinet door. The ergonomic design ensures a comfortable and secure grip.

5. MAINTENANCE AND CARE

To maintain the appearance and longevity of your Jeffrey Alexander appliance pull, follow these simple care instructions:

- **Cleaning:** Wipe the pull regularly with a soft, damp cloth. For stubborn marks, a mild soap solution can be used, followed by drying with a clean, soft cloth.
- **Avoid Chemicals:** Do not use abrasive cleaners, harsh chemicals, or solvents, as these can damage the finish.
- **Inspection:** Periodically check the mounting screws for tightness. If they become loose, gently tighten them to prevent wobbling.

6. TROUBLESHOOTING

- **Pull is Loose:** If the appliance pull feels loose, gently tighten the mounting screws from the inside of the door. Ensure not to overtighten.
- **Difficulty Opening/Closing:** If the pull itself is not functioning correctly (e.g., binding), inspect the installation for proper alignment. If the issue is with the appliance or cabinet door mechanism, consult the manufacturer's instructions for that specific item.

7. SPECIFICATIONS

Model Number	Z290-12SN
Brand	Jeffrey Alexander
Material	Zinc
Finish	Nickel
Overall Length	13 inches
Center-to-Center	12 inches
Item Weight	0.5 Pounds (approx. 8 ounces)
UPC	785577265532, 843512005848

8. WARRANTY AND SUPPORT

For specific warranty information or technical support regarding your Jeffrey Alexander Z290-12SN Durham Appliance Pull, please refer to the manufacturer's official website or contact their customer service directly. Keep your purchase receipt for warranty claims.
