# Sanitaire SC889A Commercial Quiet Upright Vacuum Cleaner User Manual

Model: SC889A

## 1. INTRODUCTION AND PRODUCT OVERVIEW

The Sanitaire SC889A Commercial Quiet Upright Vacuum Cleaner is engineered for robust performance in commercial environments, offering both powerful cleaning and quiet operation. This traditional upright model incorporates modern features such as fingertip controls and an ergonomic looped handle, designed for user comfort and efficiency. Its dual-speed functionality allows for versatile cleaning, adapting to various noise requirements without compromising cleaning effectiveness.

Key features include:

- 7 Amps of motor power for strong suction.
- Disposable dust bag system with easy shake-out access.
- 50-foot quick-change power cord for extended reach.
- Quiet Clean mode for noise-sensitive environments (69 dB per ASTM).
- 12-inch cleaning path for efficient coverage.
- Synthetic media filtration for effective dust containment.

## 2. SAFETY INFORMATION

Always read and understand all safety instructions before operating this appliance. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- **Electrical Safety:** Do not use with a damaged cord or plug. Do not pull or carry by cord, use cord as a handle, close a door on cord, or pull cord around sharp edges or corners. Keep cord away from heated surfaces.
- **General Operation:** Do not leave the vacuum cleaner unattended when plugged in. Unplug from outlet when not in use and before servicing. Do not use on wet surfaces.
- **Maintenance:** Always unplug the vacuum before performing any maintenance, cleaning, or changing accessories.
- **Storage:** Store the vacuum cleaner indoors in a dry place.

## 3. COMPONENTS AND ASSEMBLY

The Sanitaire SC889A vacuum cleaner requires minor assembly prior to first use. Please refer to the following image and instructions.

Figure 3.1: Front view of the Sanitaire SC889A Commercial Upright Vacuum Cleaner. This image shows the main body of the vacuum with its black dust bag, silver handle shaft, and red handle. The power cord is neatly wrapped around the cord hooks on the handle. The base of the vacuum is black and silver, indicating its robust commercial design.

## Assembly Instructions:

1. **Attach the Handle:** Carefully align the lower end of the handle assembly with the handle socket on the main vacuum body. Push firmly until it clicks into place. Ensure the handle is securely seated and does not wobble.
2. **Connect the Power Cord:** Uncoil the 50-foot power cord. Secure the cord to the cord hooks located on the handle for organized storage and to prevent tripping hazards during operation.
3. **Install the Dust Bag:** Open the zipper on the dust bag compartment. Insert a new disposable dust bag, ensuring it is properly seated and sealed around the intake opening. Close the zipper securely.
4. **Inspect Components:** Before first use, visually inspect all connections and ensure all parts are securely fastened.

## 4. OPERATING INSTRUCTIONS

---

### 4.1 Powering On/Off

- **To Turn On:** Plug the 50-foot power cord into a suitable electrical outlet. Press the power switch, typically located on the handle or base, to the "ON" position.
- **To Turn Off:** Press the power switch to the "OFF" position. Unplug the vacuum cleaner from the electrical outlet after use.

### 4.2 Speed Settings

The SC889A features two speed settings for versatile cleaning:

- **Normal Mode:** Provides full power for standard cleaning tasks and heavily soiled areas.
- **Quiet Clean Mode:** Reduces motor speed and noise level (to 69 dB) for use in noise-sensitive environments such as offices, hotels, or during quiet hours. This mode maintains effective cleaning performance.

Switch between modes using the fingertip controls on the handle.

### 4.3 Cleaning Path and Maneuverability

The vacuum features a 12-inch cleaning path, ideal for efficient coverage of large areas. The ergonomic looped handle and robust wheels facilitate easy maneuverability across various floor types.

## 5. MAINTENANCE

---

Regular maintenance ensures optimal performance and extends the life of your Sanitaire SC889A vacuum cleaner. Always unplug the unit before performing any maintenance.

### 5.1 Dust Bag Replacement

The SC889A uses disposable dust bags with a 6.1 dry quart capacity. Replace the dust bag when it is full or when suction power decreases significantly.

1. Unplug the vacuum cleaner from the power outlet.
2. Locate the dust bag compartment, typically accessed via a dual zipper on the main bag.
3. Carefully remove the full dust bag, ensuring dust does not escape. Dispose of the bag according to local regulations.
4. Insert a new genuine Sanitaire disposable dust bag, ensuring the cardboard collar is properly seated over the intake tube.
5. Close the zipper securely.

## 5.2 Filter Maintenance

The vacuum utilizes synthetic media filtration. While the primary filtration is handled by the disposable bag, periodic inspection of the filter system is recommended.

- Check for any visible blockages or excessive dust accumulation around the filter area.
- If the filter media appears heavily soiled or damaged, consult the full owner's guide for replacement instructions or contact authorized service personnel.

## 5.3 General Cleaning

- Wipe down the exterior of the vacuum with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Periodically check the brush roll for tangled hair, threads, or debris. Remove any obstructions to ensure effective cleaning.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter with your Sanitaire SC889A vacuum cleaner. For problems not listed here, please contact customer support.

Problem	Possible Cause	Solution
Vacuum does not turn on.	No power to the outlet; Power cord not fully plugged in; Tripped circuit breaker.	Check power outlet with another appliance; Ensure cord is fully plugged in; Reset circuit breaker.
Loss of suction.	Dust bag is full; Hose or nozzle is clogged; Filter is dirty.	Replace dust bag; Clear any blockages from hose or nozzle; Inspect and clean/replace filter as needed.
Unusual noise during operation.	Debris caught in brush roll; Damaged fan or motor (less common).	Unplug and inspect brush roll for obstructions; If noise persists, contact service.
Vacuum not picking up debris effectively.	Brush roll is worn or jammed; Height adjustment incorrect for carpet type.	Clean brush roll; Adjust height setting for optimal contact with floor surface.

## 7. SPECIFICATIONS
