Mighty Bright 53510

Mighty Bright 53510 9-LED Orchestra Light User Manual

Model: 53510

INTRODUCTION

This manual provides instructions for the Mighty Bright 53510 9-LED Orchestra Light. This light is designed to illuminate sheet music effectively, featuring nine energy-efficient LEDs and a flexible gooseneck for precise positioning. It can be powered by an AC adapter or batteries, offering versatility for various environments.

PACKAGE CONTENTS

- Mighty Bright 53510 9-LED Orchestra Light
- AC Power Adapter (US Adaptor)
- 3 AAA Batteries
- Travel Case

SETUP

Battery Installation

1. Locate the battery compartment on the underside of the clip base.

2. Open the battery compartment cover.

3. Insert three (3) AAA batteries, ensuring correct polarity (+/-).

4. Close the battery compartment cover securely.

AC Adapter Connection

1. Locate the power input jack on the side of the clip base.

2. Insert the small end of the AC power adapter into the power input jack.

3. Plug the larger end of the AC power adapter into a standard electrical outlet.

4. When using the AC adapter, batteries are not required for operation but can remain installed as a backup.

Mounting the Light

1. Identify a stable surface, such as a music stand, with a suitable edge for clipping.

2. Press the clip handles to open the broad, padded clip.

3. Position the clip firmly onto the edge of the music stand or desired surface.

4. Release the clip handles to secure the light in place. Ensure the light is stable before use.

5. Adjust the flexible gooseneck to direct the light beam onto your sheet music or workspace.

OPERATION

Power On/Off and Brightness Adjustment

1. Locate the sliding power button on the head of the light.

2. Slide the button to the first position for low brightness.

3. Slide the button to the second position for high brightness.

4. To turn off the light, slide the button back to the 'off' position.

MAINTENANCE

Cleaning

Wipe the light with a soft, dry cloth. Avoid using abrasive cleaners or solvents, as these may damage the finish or electronic components.

LED Lifespan

The integrated LEDs are designed for long-term use, with an estimated lifespan of 100,000 hours, and do not require replacement.

Battery Care

If the light will not be used for an extended period, remove the AAA batteries to prevent leakage and potential damage to the device.

TROUBLESHOOTING

Light Does Not Turn On

- Check if the AC adapter is securely plugged into both the light and the power outlet.
- If using batteries, ensure they are inserted with correct polarity and are not depleted. Replace batteries if necessary.
- Verify the sliding power button is moved fully to one of the 'on' positions.

Light is Dim

- If using batteries, they may be low. Replace with fresh AAA batteries.
- Ensure the sliding power button is set to the high brightness position if maximum illumination is desired.

SPECIFICATIONS

Feature	Detail
Model Number	53510
Light Source	9 LEDs
Power Source	3 AAA Batteries (included) or AC Adapter (included)
Battery Life	Approximately 14 hours (on low setting)
Material	Plastic
Color	Black
Product Dimensions	1"D x 1"W x 1"H (approximate, light head)
Item Weight	8 ounces
Switch Type	Slide
Special Feature	Energy Efficient, Adjustable Brightness
Installation Type	Clip
