Logitech M100 Corded Mouse User Manual

Model: M100 (910-001601)

INTRODUCTION

The Logitech M100 Corded Mouse is a reliable and straightforward peripheral designed for everyday computer use. Its ambidextrous shape ensures comfort for both right and left-handed users. This mouse offers precise cursor control and simple plug-and-play connectivity, making it an ideal choice for home or office environments.

SETUP

The Logitech M100 mouse features flexible wired connectivity, ensuring a quick and easy setup process. No complex software installation or batteries are required.

1. Locate an available USB port on your computer or laptop.
2. Insert the USB connector of the Logitech M100 mouse firmly into the USB port.
3. The mouse is plug-and-play and should be recognized automatically by your operating system (Windows, macOS, Linux) without the need for additional drivers.
4. Once recognized, the mouse is ready for immediate use.

LA SIMPLICIDAD DEL PLUG AND PLAY

This image shows the Logitech M100 mouse connected via its USB cable, highlighting its simple plug-and-play functionality. No complex software installation is required.

OPERATING YOUR LOGITECH M100 MOUSE

The Logitech M100 provides essential functions for efficient navigation and control.

- **Left-Click Button:** Used for selecting items, opening files, and activating functions.
- **Right-Click Button:** Used for accessing contextual menus and additional options.
- **Scroll Wheel:** Allows for vertical scrolling through documents and web pages. Pressing the scroll wheel acts as a middle-click button for specific functions.
- **Ambidextrous Design:** The symmetrical shape of the mouse is designed to fit comfortably in both the left and right hand, providing versatility for all users.

CONFORTABLE, TAMAÑO NORMAL, AMBIDIESTRO

This image demonstrates the comfortable, ambidextrous design of the Logitech M100 mouse, showing how it fits naturally in the hand for extended use.

MAINTENANCE

To ensure the longevity and optimal performance of your Logitech M100 mouse, follow these simple maintenance guidelines:

- **Cleaning:** Regularly wipe the mouse surface with a soft, damp cloth. For the optical sensor on the underside, use a dry cotton swab to gently remove any dust or debris.
- **Cable Care:** Avoid sharp bends or excessive pulling on the USB cable to prevent internal wire damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Logitech M100 mouse, try the following solutions:

Problem	Possible Cause	Solution
Mouse not responding	Loose USB connection	Ensure the USB cable is securely plugged into the computer's USB port. Try a different USB port.
Erratic cursor movement	Dirty optical sensor	Clean the optical sensor on the underside of the mouse with a dry cotton swab. Ensure the mouse is used on a clean, non-reflective surface.
Scroll wheel not working	Software or driver issue	Restart your computer. If the issue persists, check your operating system's mouse settings.
Mouse not detected by computer	USB port issue or system conflict	Try connecting the mouse to a different USB port. Restart your computer. Ensure your operating system is up to date.

SPECIFICATIONS

Feature	Detail
Brand	Logitech
Model Number	M100 (910-001601)
Connectivity Technology	Wired USB
