

## Akro-Mils 30120

# Akro-Mils 30120 Plastic Shelf Bins User Manual

Model: 30120

## 1. INTRODUCTION

Thank you for choosing Akro-Mils 30120 Plastic Shelf Bins. These durable storage containers are designed to provide versatile and efficient organization solutions for various spaces, including garages, closets, offices, and more. Constructed from industrial-grade polymers, these bins offer a long-lasting alternative to traditional storage options. This manual provides essential information regarding the product's features, setup, usage, and maintenance to ensure optimal performance and longevity.

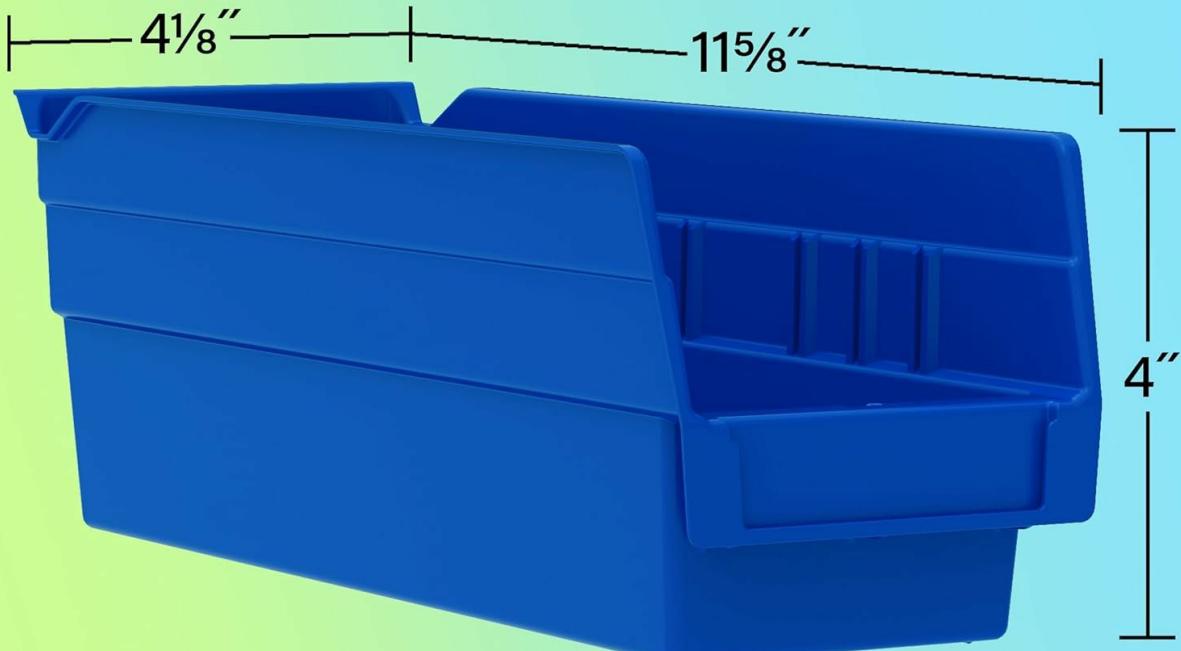

## 2. PRODUCT FEATURES

- Durable Construction:** Made from industrial-grade polymers for strength and longevity.
- Versatile Use:** Suitable for various environments such as garages, kitchens, offices, and closets.
- Waterproof and Easy-to-Clean:** Designed for both indoor and outdoor use, resistant to water, and simple to maintain.
- Spill-Free Retrieval:** Features a unique lip design that allows for effortless forward tilting on shelves, facilitating easy access to contents without spillage.
- Space-Saving Design:** Curved-bottom hopper front for easy retrieval of small parts. Bins can be nested when empty to save space.
- Compatibility:** Fits 12-inch, 18-inch, or 24-inch deep shelves and vertical storage units.
- Customizable:** Compatible with optional dividers, bin cups, and label holders (sold separately) for tailored organization.
- Dimensions:** Outside dimensions are 11-5/8" L x 4-1/8" W x 4" H. Inside dimensions are 10-1/4" L x 3" W x 4" H.
- Note:** These shelf bins are not stackable.

## 3. SETUP AND INSTALLATION

Akro-Mils 30120 Plastic Shelf Bins are designed for straightforward use without complex assembly. Follow these guidelines for optimal setup:

- 1. Unpacking:** Remove all bins from their packaging. Inspect each bin for any signs of damage.
- 2. Placement:** Place the bins on shelves or within storage units. Ensure the shelf depth is compatible (12", 18", or 24" deep).
- 3. Loading:** Fill the bins with items, ensuring not to exceed the weight capacity of the shelf on which they are placed. The bins themselves are robust, but the supporting structure's capacity is the limiting factor.
- 4. Optional Accessories:** If using optional dividers, bin cups, or label holders (sold separately), install them according to their respective instructions. Dividers typically slide into the molded slots within the bin.

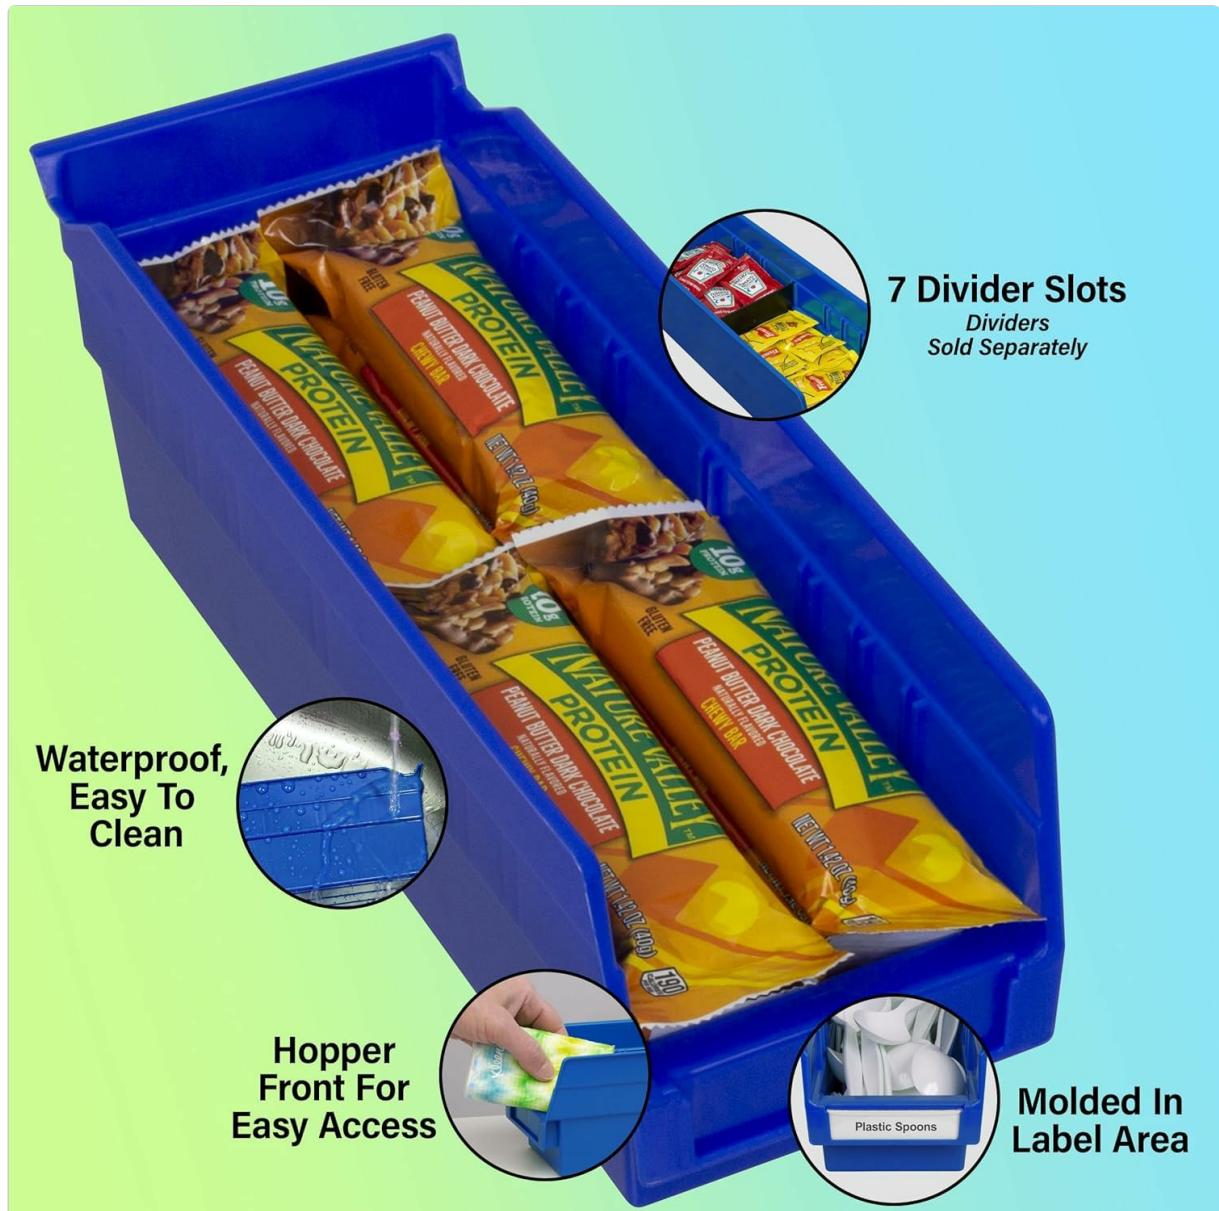

Image: A blue Akro-Mils shelf bin containing protein bars, highlighting its waterproof nature, hopper front for easy access, and a molded area for labels. The image also indicates divider slots for optional dividers.

## 4. USAGE

These shelf bins are designed for efficient organization and easy access to stored items.

- **Item Storage:** Store various items such as hardware, craft supplies, office supplies, kitchen utensils, or small parts.
- **Accessing Contents:** The hopper front design allows for easy visibility and retrieval of items. When placed on a shelf, the unique lip enables the bin to be tilted forward slightly for better access without removing it entirely.
- **Organization:** Utilize optional dividers to separate different types of items within a single bin, enhancing organization. Label holders (sold separately) can be used to clearly identify contents.
- **Nesting:** When empty, bins can be nested together to minimize storage space.

# HEAVY DUTY BINS

- Bins tilt out without spilling
- Bin weight capacity and use should not exceed shelf's capacity

Image: Blue Akro-Mils shelf bins arranged on a metal shelving unit. One bin is tilted forward, demonstrating the spill-free retrieval feature, with small metal parts visible inside.

# MADE IN THE USA

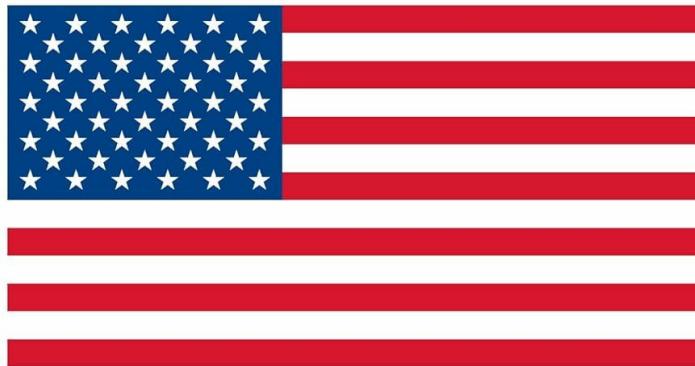

Image: Three Akro-Mils shelf bins in red, green, and yellow, demonstrating their use for organizing office supplies such as paper clips and small bottles, highlighting their versatility and potential for color-coding.

## 5. MAINTENANCE

Maintaining your Akro-Mils shelf bins is simple due to their durable and easy-to-clean material.

- **Cleaning:** Wipe down the bins with a damp cloth and mild soap as needed. Rinse thoroughly and allow to air dry. Avoid abrasive cleaners or harsh chemicals that could damage the plastic.
- **Inspection:** Periodically inspect bins for any signs of wear or damage. While highly durable, extreme impact or prolonged exposure to harsh conditions could affect their integrity.
- **Storage:** When not in use, empty bins can be nested to save space. Store in a cool, dry place away from direct sunlight if possible, to prolong material life.

## 6. SPECIFICATIONS

Attribute	Detail
Model Number	30120
