2. Programming Your Remote Control

The RCA RCRN04GBE can be programmed using either direct code entry or auto code search. Refer to the included code list for your specific device brands.

Direct Code Entry:

1. Turn on the device you wish to control (e.g., TV, DVD player).
2. Press and hold the **SETUP** button until the red indicator light stays on.
3. Press the device button you want to program (e.g., **TV**, **DVD**). The indicator light will blink once and remain on.
4. Enter the 4-digit code for your device brand from the code list. The indicator light will turn off if the code is valid.
5. Test the remote by pressing the **POWER** button. If the device turns off, the remote is programmed. If not, repeat the steps with the next code for your brand.

Auto Code Search:

1. Turn on the device you wish to control.

2. Press and hold the **SETUP** button until the red indicator light stays on.

3. Press the device button you want to program. The indicator light will blink once and remain on.

4. Point the remote at the device and press the **POWER** button repeatedly (approximately every 2 seconds) until the device turns off.

5. Once the device turns off, press the **ENTER** button to save the code.

6. Test the remote's functions. If some functions do not work, repeat the auto code search to find a more compatible code.
