

Step2 801200

Step2 Clubhouse Climber Instruction Manual

Model: 801200

INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your Step2 Clubhouse Climber. Please read all instructions carefully before beginning assembly and retain this manual for future reference. The Step2 Clubhouse Climber is designed to provide an engaging outdoor play experience for children aged 2 to 6 years, promoting physical activity and imaginative play.

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Sharp points. Adult assembly required.

- Always supervise children during play.
- Ensure the playset is assembled correctly and all fasteners are securely tightened before use.
- Place the playset on a level surface, at least 6 feet (1.8 meters) away from any structures or obstructions such as fences, garages, houses, overhead branches, laundry lines, or electrical wires.
- Maintain a clear safe zone of at least 480 square feet around the playset.
- Regularly inspect the playset for any loose parts, damage, or wear. Replace or repair components as needed.
- Maximum weight capacity: 240 pounds (108 kg).

SAFE ZONE:

REQUIRES 480 SQUARE FEET

Image: The Step2 Clubhouse Climber illustrating the recommended 480 square feet safe zone for placement.

SETUP AND ASSEMBLY

Adult assembly is required for the Step2 Clubhouse Climber. Assembly typically takes 2-5 hours with two adults. Follow the manufacturer's instructions provided with your product packaging carefully. The following tools are generally required:

- Screwdriver
- Screwgun (optional, for faster assembly)
- Ratchet with a 1/2-inch socket and extender
- Allen key (usually included)

Assembly Tips:

- Ensure all parts are accounted for before starting.
- Do not fully tighten all bolts until components are properly aligned, especially for the bridge section, to allow for minor adjustments.
- Pay close attention to the orientation of parts as indicated in the assembly diagrams.

OPERATING INSTRUCTIONS

The Step2 Clubhouse Climber offers multiple play features designed for active engagement:

- **Climbing Wall:** Provides a challenging ascent to the elevated play areas.
- **Slides:** Two slides offer different descent options from the elevated platforms.
- **Elevated Playhouse:** A raised structure with windows and a skylight for imaginative play.
- **Bridge:** Connects different sections of the playset, encouraging movement and exploration.
- **Crawl-Through Tunnels:** Spaces underneath the structure for crawling and hide-and-seek.
- **Steering Wheels:** Interactive elements for pretend play, promoting hand-eye coordination.

Children should use the playset features as intended. Ensure children are within the recommended age range of 2-6 years and do not exceed the maximum weight capacity of 240 pounds.

**SIGNATURE EVERTOUGH PLASTIC
IS FADE, WEATHER AND
TEMPERATURE RESISTANT**

MAINTENANCE

The Step2 Clubhouse Climber is constructed from durable, double-walled plastic designed for longevity and minimal maintenance. To ensure continued safe and enjoyable use:

- **Cleaning:** The playset can be easily cleaned with water and a mild soap solution. For general cleaning, hosing down the unit is effective to remove dirt, pollen, and debris.
- **Durability:** The plastic material is designed to be chip-proof, fade-proof, fracture-proof, and peel-proof, ensuring colors remain vibrant over time.
- **Regular Inspection:** Periodically check all nuts, bolts, and other fasteners to ensure they are tight. Inspect plastic components for cracks or damage. Replace any worn or damaged parts immediately.
- **Winter Storage:** While designed for outdoor use, consider covering the playset or storing smaller components indoors during harsh winter conditions to extend its lifespan.

TROUBLESHOOTING

If you encounter issues during assembly or use, consider the following:

- **Assembly Difficulty:** If instructions seem unclear, refer to the product images for visual guidance. Ensure all parts are correctly oriented before tightening fasteners. If screws are difficult to insert, ensure proper alignment and apply firm, steady pressure.
- **Steering Wheel Not Turning:** Ensure the steering wheel cap is properly installed and the screws are securing the cap, not directly into the steering wheel itself. The steering wheel should rotate freely within its housing.
- **Bridge Gaps:** Some users have noted gaps in the bridge section. Ensure all connecting pieces are fully seated and secured. If concerns persist, contact Step2 customer support for guidance.
- **Missing or Damaged Parts:** If any parts are missing or damaged upon delivery, contact Step2 customer support immediately for replacement parts.

SPECIFICATIONS

Feature	Detail
Product Dimensions (L x W x H)	137 x 91.5 x 70 inches (348 x 232 x 178 cm)
Item Weight	197 pounds (89.3 kg)
Model Number	801200
Recommended Age	2-6 Years Old
Maximum Weight Capacity	240 pounds (108 kg)
Material	Double-walled plastic
Required Safe Zone	480 square feet

HOLDS UP TO 240LBS
