1. INTRODUCTION

This manual provides instructions for the assembly, operation, and maintenance of your Mega Bloks Ironman 2 Stark Expo Playset. This building set allows you to recreate scenes from the Ironman 2 movie, featuring the iconic Stark Expo. Please read these instructions carefully before beginning assembly to ensure proper setup and safe use.

2. SAFETY INFORMATION

Please observe the following safety guidelines:

- **Choking Hazard:** This product contains small parts and is not suitable for children under 3 years of age. Adult supervision is recommended during assembly and play.
- **Assembly:** Ensure all pieces are securely connected to prevent accidental detachment during play.
- **Disposal:** Dispose of packaging materials responsibly.

3. SETUP AND ASSEMBLY

The Mega Bloks Ironman 2 Stark Expo Playset includes approximately 300 pieces. Follow the steps below for assembly:

1. **Unpack Components:** Carefully remove all building blocks, figures, and accessories from the packaging. Sort pieces by color or type to facilitate assembly.
2. **Assemble the Stark Expo Structure:** Begin by constructing the main Stark Expo stage and globe mechanism. Refer to the included visual guide (if available) for specific block placement. Pay close attention to the connection points to ensure stability.
3. **Integrate Globe Crash Mechanism:** The playset features a mechanism designed to simulate Iron Man crashing through the globe. This may involve string components. Attach any strings as indicated in the visual guide to allow for the intended action. Ensure strings are not tangled.
4. **Construct Vehicles:** Assemble the ATV and the red ship. These vehicles are designed to be part of the play scenario. Ensure all parts, including the tank's gun, are firmly attached.
5. **Assemble Iron Man Figures:** Put together the Iron Man mini-figures.

6. **Final Placement:** Position the assembled structures and vehicles as desired for play.

Note: Some pieces may require firm pressure to connect securely. If pieces feel loose, re-examine the connection points.

4. OPERATING INSTRUCTIONS

Once assembled, the Stark Expo Playset offers various interactive play features:

- **Stark Expo Globe Crash:** Activate the globe crash mechanism to simulate Iron Man's dramatic entrance. This typically involves a lever or trigger that releases the globe structure.
- **Tank Firing Mechanism:** The small tank included in the set features a gun that can shoot a projectile (arrow). Load the projectile and press the trigger to fire.
- **Vehicle Play:** Use the ATV and red ship with the Iron Man figures to create various action scenarios within the Stark Expo environment.

5. MAINTENANCE

To ensure the longevity of your playset:

- **Cleaning:** Wipe the blocks and figures with a damp cloth. Do not submerge in water or use harsh chemicals.
- **Storage:** Store the playset in a cool, dry place away from direct sunlight to prevent material degradation.
- **Disassembly:** For storage, the playset can be partially or fully disassembled. Store smaller pieces in a container to prevent loss.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Pieces do not stay together.	Incorrect alignment or insufficient pressure during assembly.	Ensure pieces are correctly aligned and apply firm, even pressure until they click into place. Refer to the visual guide for correct connections.
Globe crash mechanism not working.	Strings tangled or improperly attached.	Check string connections and ensure they are free from tangles. Re-attach according to the visual guide.
Tank gun not firing projectile.	Projectile improperly loaded or mechanism jammed.	Ensure the projectile is fully inserted. Check for any obstructions in the firing mechanism.
