

SEM 15163

SEM Presidio Interior Paint Aerosol (Model 15163) Instruction Manual

Brand: SEM | Model: 15163

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of the SEM Presidio Interior Paint Aerosol, Model 15163. This product is designed for coating interior surfaces such as metal, plastic, and vinyl, offering a matte finish. Please read all instructions carefully before use.

Image: SEM Presidio Interior Paint Aerosol can, 12 oz, with a black color swatch. The label indicates "COLOR COAT Flexible Coating" and model number 15163.

SAFETY INFORMATION

WARNING: This product is an extremely flammable aerosol. Contents under pressure. Vapors may cause flash fire. Harmful if swallowed. Vapors harmful. Causes serious eye irritation. Causes skin irritation. Read all cautions on the back panel of the can before use.

- Use in a well-ventilated area.
- Keep away from heat, sparks, open flames, and hot surfaces. No smoking.
- Do not puncture or incinerate container.

- Do not expose to temperatures exceeding 120°F (49°C).
- Wear appropriate personal protective equipment, including gloves and eye protection.
- Avoid breathing vapors or spray mist.
- Keep out of reach of children.
- Dispose of contents/container in accordance with local regulations.

Proposition 65 Warning: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

SETUP AND PREPARATION

1. **Surface Cleaning:** Thoroughly clean the surface to be painted with a suitable wax and grease remover. Ensure the surface is free of dirt, oil, wax, and other contaminants.
2. **Surface Preparation:** For optimal adhesion, lightly abrade smooth surfaces with fine-grit sandpaper (e.g., 400-600 grit wet/dry) or a scuff pad. Re-clean the abraded surface to remove any dust.
3. **Masking:** Mask off any areas not intended for painting using painter's tape and masking paper or plastic.
4. **Environmental Conditions:** Ensure the application area is well-ventilated. Apply paint in a temperature range of 50°F to 85°F (10°C to 29°C) and moderate humidity. Avoid direct sunlight or extremely humid conditions.
5. **Test Spray:** Always perform a test spray on an inconspicuous area or a test panel to verify color match and adhesion before applying to the main surface.

OPERATING INSTRUCTIONS (APPLICATION)

1. **Shake Can:** Shake the aerosol can vigorously for at least one minute after the mixing ball begins to rattle. Continue to shake occasionally during application.
2. **Application Technique:** Hold the can approximately 8-10 inches (20-25 cm) from the surface. Apply light, even coats using a steady, sweeping motion. Overlap each pass slightly for uniform coverage.
3. **Multiple Coats:** Apply 2-3 light coats to achieve desired color and coverage. Allow sufficient flash-off time between coats (typically 5-10 minutes, or until the surface is tacky but not wet).
4. **Drying Time:** The paint will be dry to the touch within an hour. For full cure and maximum durability, allow 24 hours. Avoid handling or exposing the painted surface to moisture during the curing process.

MAINTENANCE AND STORAGE

- **Can Clean-up:** After each use, invert the can and spray for a few seconds until only clear propellant comes out. This prevents the nozzle from clogging. Wipe the nozzle clean.
- **Storage:** Store the aerosol can in a cool, dry place between 50°F and 85°F (10°C and 29°C). Do not store in direct sunlight or where temperatures may exceed 120°F (49°C).
- **Disposal:** Dispose of empty cans or unused product according to local hazardous waste regulations.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Uneven Coverage / Streaks	Improper shaking, inconsistent spray distance, too thick coats.	Shake can thoroughly. Maintain consistent 8-10 inch distance. Apply multiple light coats.

Problem	Possible Cause	Solution
Poor Adhesion	Inadequate surface cleaning or preparation.	Ensure surface is clean and free of contaminants. Lightly abrade smooth surfaces.
Nozzle Clogging	Paint dried in nozzle.	Invert can and spray until clear propellant appears after each use. If clogged, try soaking nozzle in mineral spirits.
Drips or Runs	Applying too much paint in one coat, holding can too close.	Apply thinner coats. Increase spray distance to 8-10 inches.

PRODUCT SPECIFICATIONS

Brand: SEM

Model Name: Presidio

Part Number: 15163

Color: Black (Presidio)

Finish Type: Matte

Item Form: Aerosol

Item Volume: 12 Fluid Ounces (340g)

Specific Uses: Interior surfaces

Surface Recommendation: Metal, Plastic, Vinyl

Special Features: Fade Resistant, Low VOC

Coverage: High

Dry Time (Touch): Approximately 1 hour

Full Cure Time: 24 Hours

Water Resistance Level: Not Water Resistant

Item Weight: 1 pound

Package Dimensions: 8.11 x 2.56 x 2.56 inches

WARRANTY INFORMATION

No specific warranty information is provided in the product details. For details regarding product warranty, please contact SEM directly or refer to their official website.

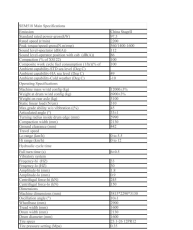

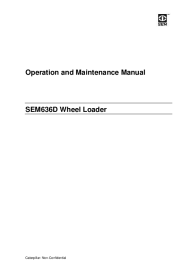

CUSTOMER SUPPORT

For technical assistance, product inquiries, or safety data sheets, please contact the manufacturer:

Manufacturer: SEM

Please visit the official SEM website for contact information and further resources.

	SEM Plastic Repair and Refinishing Procedures: A Comprehensive Guide This guide from SEM provides detailed procedures for repairing and refinishing automotive plastic parts, including fenders, bumpers, dashboards, and trim. It covers identifying plastic types (flexible, rigid, extra-rigid) and outlines step-by-step instructions using SEM's range of repair materials, primers, and coatings. Includes product lists and standard operating procedures.

COLOR COAT™ TECHNICAL DATA SHEET

© 2014 SEM
10000 Highway 101
Houston, TX 77060
713-661-1100

DESCRIPTION

Color Coat is a specialty flexible coating formulated to restore or change the color of most vinyl surfaces. Flexible and long-lasting, Color Coat is not a dye, but a high resistant, flexible, and permanent coating.

FEATURES

- EPA recommended
- Restores vehicle interiors and motorcycle seats
- Enhances automotive carpet and vinyl
- Superior adhesion, flexibility and healing
- Will not crack
- Quick drying and simple to use
- Ready to spray, pour and paint
- 30 popular vehicle colors
- Many options available for endless colors

SUITABLE SUBSTRATES

- Vinyl
- Plastic
- Carpet
- Interior
- Properly prepped and primed metal

COLOR COAT™ TECHNICAL DATA SHEET

DESCRIPTION

Color Coat is a specialty flexible coating formulated to restore or change the color of most vinyl surfaces. Flexible and light-pigmented, opaque and visible. Color Coat is not a dye, but a high-resistant, flexible, and permanent coating.

FEATURES

- EPA recommended
- Refreshes vehicle interiors and motorcycle seats
- Enhances automotive carpet and vinyl
- Superior adhesion, flexibility and healing
- Will not crack
- Quick drying and simple to use
- Ready to spray, pour and pattern
- 20 popular vehicle colors
- Many patterns available for endless colors

SUITABLE SUBSTRATES

- Vinyl
- Plastic
- Carpet
- Interior
- Prepare properly and prime as needed
