SETUP AND ASSEMBLY

2. **Attach Side Rails to Headboard:** Align the pre-drilled holes on the side rails with those on the headboard. Secure using the provided hardware (e.g., bolts and barrel nuts). Do not overtighten.
3. **Attach Side Rails to Footboard:** Repeat the process from step 2 to attach the other ends of the side rails to the footboard. Ensure all connections are secure.
4. **Install Mattress Support:** Place the plywood support slats across the bed frame, ensuring they are evenly spaced and securely seated within the designated grooves or supports.

OPERATING INSTRUCTIONS

This toddler bed is designed for sleeping and imaginative play. Once assembled, place a standard crib mattress (not included) onto the plywood support slats. The low height of the bed is intended to make it easy for toddlers to get in and out independently.

- **Mattress Placement:** Ensure the mattress fits snugly within the bed frame to prevent gaps where a child could become entrapped.
- **Supervision:** Always supervise young children, especially during initial use, to ensure they understand how to safely use the bed.
- **Imaginative Play:** The bed's design encourages imaginative play. Ensure the play environment around the bed is safe and free of hazards.

MAINTENANCE

Regular maintenance will help prolong the life of your toddler bed.

- **Cleaning:** Wipe surfaces with a dry cloth for easy maintenance and surface cleaning. Avoid abrasive cleaners or harsh chemicals that could damage the finish or decals.
- **Hardware Check:** Periodically check all screws, bolts, and fasteners to ensure they remain tight. Loose hardware can compromise the bed's stability and safety.
- **Damage Inspection:** Inspect the bed regularly for any signs of wear, damage, or loose parts. Discontinue use if any significant damage is found and contact customer support for replacement parts or repair advice.
