Conair BE151TX

Conair Lighted Makeup Mirror Model BE151TX Instruction Manual

Your guide to setting up, operating, and maintaining your Conair Lighted Makeup Mirror.

Product Overview

The Conair Lighted Makeup Mirror (Model BE151TX) is a double-sided vanity mirror designed for detailed grooming and makeup application. It features energy-saving LED lighting, 1X and 7X magnification, and a polished chrome finish. The mirror rotates 360 degrees for adjustable viewing angles and operates via a line cord.

Important Safety Information

Please read all safety instructions before using this appliance. Failure to follow these instructions may result in electric shock, fire, or injury.

- Use only on a 120 volt, 60 hertz AC electric outlet (standard household current). Do not use with any other electrical outlet.
- To avoid distorted or inverted reflections, ensure your face is within 6 inches of the mirror surface, especially when using the magnified side.
- Always unplug the mirror when not in use or before cleaning.
- Do not operate if the cord or plug is damaged. If the cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons to avoid a hazard.
- Keep away from water. Do not immerse in water or other liquids.
- Close supervision is necessary when this appliance is used by or near children or individuals with certain disabilities.
- Do not block air openings or place on a soft surface where openings may be blocked.
- Never drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Ensure the mirror is placed on a stable, level surface to prevent tipping.

Setup Instructions

Follow these steps to set up your Conair Lighted Makeup Mirror:

1. Unpack the mirror carefully from its packaging, removing all protective materials.
2. Place the mirror on a stable, flat surface such as a vanity or countertop.
3. Ensure the mirror is positioned in a dry area, away from water sources or excessive humidity.
4. Plug the power cord into a standard 120 volt, 60 hertz AC electric outlet.

Operating Instructions

Powering On/Off and Lighting

The mirror features an on/off switch conveniently located on the 5-foot line cord.

1. To turn on the LED lighting, locate the switch on the power cord and slide it to the "ON" position.
2. To turn off the LED lighting, slide the switch to the "OFF" position.

Magnification and Rotation

This mirror is double-sided, offering two magnification levels, and can rotate 360 degrees.

1. For a standard, true-to-life reflection, use the 1X magnification side.
2. For detailed tasks such as tweezing or precise makeup application, gently rotate the mirror head to the 7X magnification side.

3. To adjust the viewing angle, gently rotate the mirror head 360 degrees on its stand to your desired position.

The mirror head can be rotated 360 degrees for optimal viewing.

Maintenance

Cleaning the Mirror

Proper cleaning ensures the longevity and clarity of your mirror:

1. Always unplug the mirror from the electrical outlet before cleaning.
2. Wipe the mirror surfaces and chrome finish with a soft, damp cloth.
3. Do not use abrasive cleaners, chemical solutions, or harsh detergents, as these may damage the finish or mirror surface.
4. Ensure the mirror is completely dry before plugging it back in.

Storage

Store the mirror in a cool, dry place when not in use. Avoid wrapping the cord tightly around the mirror, as this can cause damage over time.

Troubleshooting

Problem	Possible Cause	Solution
Mirror lights do not turn on.	Mirror is not plugged in.	Ensure the power cord is securely plugged into a functional 120V AC outlet.
Mirror lights do not turn on.	Power switch is off.	Slide the on/off switch on the power cord to the "ON" position.
Reflection appears distorted or inverted.	Face is too far from the mirror.	Move your face closer to the mirror, within 6 inches, especially when using the 7X magnification.
Mirror is unstable.	Placed on an uneven surface.	Ensure the mirror is placed on a flat, stable, and level surface.
