

REED DM3MECH

REED DM3MECH Mechanical Hot Tapping Machine Instruction Manual

Model: DM3MECH

INTRODUCTION

The REED DM3MECH Mechanical Hot Tapping Machine is designed for creating branch connections in pressurized pipelines without interrupting service. This machine facilitates cutting or drilling into copper, steel, or plastic pipes for valve installations up to 4 inches. It is suitable for various applications, including water, gas, and steam systems.

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your DM3MECH machine. Please read it thoroughly before use.

SAFETY INFORMATION

Always prioritize safety when operating the DM3MECH Hot Tapping Machine. Failure to follow safety guidelines can result in serious injury or property damage.

- **Personal Protective Equipment (PPE):** Always wear appropriate PPE, including safety glasses, gloves, and protective clothing.
- **Pressure Ratings:** Do not exceed the specified pressure ratings: 300 psi for ambient temperatures and 125 psi for steam systems.
- **Pipe Material Compatibility:** Ensure the machine and hole saws are compatible with the pipe material (copper, steel, plastic).
- **Secure Setup:** Ensure the machine is securely clamped to the pipe and the valve is properly installed before beginning the tapping process.
- **Read Instructions:** Familiarize yourself with all operating procedures before attempting to use the machine.
- **Emergency Procedures:** Know how to shut down the system and relieve pressure in case of an emergency.

PACKAGE CONTENTS

The REED DM3MECH Mechanical Hot Tapping Machine package includes the following components:

- Base Tapping Machine Unit
- 7/16" Hex Arbor
- 1/4" Drill Bit
- Hole Saws: 5/8", 7/8", 1 1/8", 1 3/8", 1 3/4", 2 1/4", 3 1/4"
- Allen Wrenches (various sizes)
- Toolbox

Figure 1: All components of the REED DM3MECH Mechanical Hot Tapping Machine kit, including the main unit, various hole saws, arbor, drill bit, and Allen wrenches, displayed outside their black carrying case.

SETUP INSTRUCTIONS

1. **Prepare the Work Area:** Ensure the work area is clean, well-lit, and free from obstructions. Verify that the pipe section to be tapped is accessible and stable.
2. **Select Hole Saw:** Choose the appropriate hole saw size based on the valve or fitting to be installed.
3. **Assemble Arbor and Drill Bit:** Attach the selected hole saw to the 7/16" Hex Arbor. Insert the 1/4" drill bit into the arbor and secure it.
4. **Attach to Machine:** Securely fasten the assembled arbor with the hole saw and drill bit to the main tapping machine unit.
5. **Install Valve:** Install the appropriate valve onto the pipe at the desired tapping location. Ensure the valve is fully open.
6. **Mount Machine:** Mount the DM3MECH machine onto the open valve, ensuring a tight and secure connection. Use the machine's clamping mechanism to firmly attach it to the valve.

7. **Verify Seal:** Confirm that all connections are properly sealed to prevent leaks during the tapping process.

OPERATING INSTRUCTIONS

1. **Advance Cutter:** Slowly advance the cutter assembly until the pilot drill bit makes contact with the pipe wall.
2. **Begin Drilling:** Apply steady, even pressure and rotate the handle to begin drilling. The pilot drill will guide the hole saw.
3. **Continue Tapping:** Continue rotating and advancing the cutter until the hole saw has completely cut through the pipe wall. You will feel a change in resistance once the cut is complete.
4. **Retract Cutter:** Once the cut is complete, slowly retract the cutter assembly, bringing the cut pipe coupon back with it.
5. **Close Valve:** Fully close the valve to isolate the newly tapped connection from the pressurized pipeline.
6. **Remove Machine:** Carefully remove the DM3MECH machine from the valve. The pipe coupon will be retained within the machine.
7. **Inspect and Clean:** Inspect the newly tapped hole for any debris. Remove the pipe coupon from the machine and clean the hole saw.

MAINTENANCE

- **Cleaning:** After each use, clean all components of the DM3MECH machine, especially the hole saws and arbor, to remove pipe debris and cutting fluids.
- **Lubrication:** Periodically lubricate moving parts and threads with a suitable lubricant to ensure smooth operation and prevent corrosion.
- **Inspection:** Regularly inspect hole saws for wear or damage. Replace dull or damaged saws to maintain cutting efficiency and safety. Check the drill bit for sharpness.
- **Storage:** Store the machine and its components in the provided toolbox in a dry, clean environment to protect them from damage and corrosion.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Difficulty cutting	Dull hole saw or drill bit; insufficient pressure; incorrect speed.	Replace hole saw/drill bit; apply steady, even pressure; ensure proper rotation speed.
Leaking during operation	Improperly sealed connections; damaged O-rings/gaskets.	Check all connections for tightness; replace damaged seals. Immediately stop operation and relieve pressure if a leak occurs.
Cutter jams	Excessive force; debris accumulation; incorrect alignment.	Retract cutter, clear debris, check alignment, and re-attempt with controlled force.

SPECIFICATIONS

- **Model:** DM3MECH
- **Brand:** REED
- **Tapping Capacity:** Up to 4" valves
- **Compatible Pipe Materials:** Copper, Steel, Plastic
- **Pressure Rating (Ambient):** 300 psi
- **Pressure Rating (Steam):** 125 psi
- **Included Hole Saw Sizes:** 5/8", 7/8", 1 1/8", 1 3/8", 1 3/4", 2 1/4", 3 1/4"
- **Arbor:** 7/16" Hex
- **Drill Bit:** 1/4"
- **Item Weight:** 13.67 pounds (6.21 kg)
- **Product Dimensions:** 12.5 x 4 x 2.5 inches
- **Blade Material:** High Speed Steel
- **Handle Material:** Thermoplastic Elastomers

WARRANTY INFORMATION

The REED DM3MECH Mechanical Hot Tapping Machine comes with a Lifetime Warranty. This warranty covers defects in materials and workmanship under normal use. For specific terms and conditions, please refer to the official REED Tool warranty documentation or contact customer support.

CUSTOMER SUPPORT

For technical assistance, replacement parts, or warranty claims, please contact REED Tool customer support. Visit the official REED website for the most up-to-date contact information and resources:www.reedmfgco.com
