# Best Choice Products Metal Hanging Hammock C-Stand Instruction Manual

Model: SKY330 | Brand: Best Choice Products

## 1. IMPORTANT SAFETY INFORMATION

**WARNING:** Failure to follow these safety instructions may result in injury or damage.

- Maximum weight capacity: **300 lbs (136 kg)**. Do not exceed this limit.
- Securely anchor the hammock stand to stable supports if there is any risk of tipping, especially on uneven ground or in windy conditions. The offset base is designed for stability, but additional anchoring may be necessary.
- Ensure all bolts and connections are tightened securely before each use. Regularly check for loose parts.
- Do not allow children to play unsupervised around or on the hammock stand.
- Keep hands and fingers clear of pinch points during assembly and adjustment.
- Inspect the stand for any signs of damage, rust, or wear before each use. Discontinue use if any damage is found.
- This stand is designed for single-person use with a compatible hammock chair or similar hanging seat.

## 2. PRODUCT OVERVIEW

The Best Choice Products Metal Hanging Hammock C-Stand is a durable and versatile solution for hanging various types of chairs, including hammock chairs, egg chairs, and even children's hanging tents. Constructed from weather-resistant, powder-coated steel, it features a wide, 4-legged offset base designed for stability and safety. The stand includes a 360-degree rotating carabiner for secure attachment of your chosen seat.

Offset feet are fitted with holes for ground stakes

Figure 2.2: Close-up view of the C-Stand's solid steel support and wide cross-base, designed for safe weight distribution. Note the offset feet with pre-drilled holes for optional ground stakes.

## 3. ASSEMBLY INSTRUCTIONS

The C-Stand features a simple 3-piece design for quick and easy assembly. No specialized tools are typically required, but a wrench may be helpful for tightening bolts.

# Easy Assembly

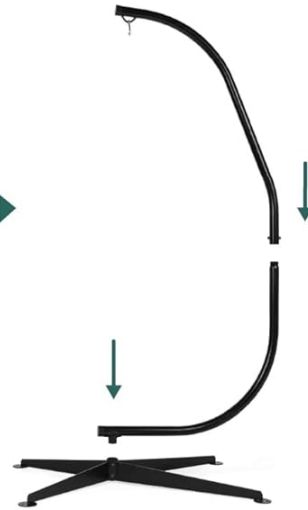

## Step 1

Assemble the base with two sets of bolts & washers

## Step 2

Assemble the frame with 2 screws and connect to the base

## Step 3

Attach the steel carabiner and choose your favorite hanging seat

Figure 3.1: Visual guide for the three-step assembly process.

1. **Step 1: Assemble the Base.** Lay out the four base legs. Connect them at the center using the provided bolts and washers. Ensure all connections are snug but do not overtighten until the entire base is assembled.
2. **Step 2: Assemble the Frame and Connect to Base.** The main frame consists of two curved pieces. Connect these two pieces together using the designated screws. Once the frame is assembled, carefully insert the bottom of the frame into the central opening of the assembled base. Secure it with the remaining bolts and washers.
3. **Step 3: Attach the Carabiner.** Locate the pre-installed 360-degree rotating carabiner at the top of the C-Stand. This is where you will attach your hammock chair or other hanging seat.

After assembly, double-check all bolts and connections to ensure they are fully tightened for stability and safety. If you encounter difficulty inserting bolts, ensure no paint or debris is obstructing the threads.

## 4. OPERATING INSTRUCTIONS

---

Using your Best Choice Products C-Stand is straightforward once assembled. The stand is designed to provide a stable and comfortable hanging point for various seating options.

- **Attaching Your Seat:** Use the reinforced steel carabiner at the top of the stand to securely attach your hammock chair, egg chair, or child's tent. Ensure the chair's hanging mechanism is compatible with the carabiner.
- **Weight Capacity:** Always adhere to the 300 lbs (136 kg) weight capacity. Exceeding this limit can compromise the stand's integrity and lead to injury.
- **Placement:** Position the stand on a flat, level surface to maximize stability. While the offset base provides excellent balance, uneven ground can reduce its effectiveness.
- **Versatility:** The C-Stand's design allows for a wide range of hanging seats, transforming any space into a comfortable lounging area.

## 5. MAINTENANCE

Regular maintenance will help prolong the life and ensure the safe operation of your C-Stand.

- **Cleaning:** Wipe down the steel frame with a damp cloth and mild soap as needed. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated finish.
- **Inspection:** Periodically inspect all bolts, connections, and the carabiner for tightness and signs of wear or corrosion. Tighten any loose bolts immediately.
- **Rust Prevention:** While the stand features a weather-resistant finish, prolonged exposure to extreme weather conditions can lead to rust. If storing outdoors, consider a protective cover. Address any minor rust spots

promptly with rust-inhibiting paint.

- **Storage:** When not in use for extended periods, especially during off-season, store the stand in a dry, sheltered location to protect it from the elements.

## 6. TROUBLESHOOTING

If you encounter any issues with your C-Stand, refer to the following common solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Stand feels wobbly or unstable.	Loose bolts; uneven ground; weight capacity exceeded.	Ensure all assembly bolts are fully tightened. Move the stand to a flat, level surface. Verify the total weight on the stand does not exceed 300 lbs.
Difficulty during assembly (e.g., bolts not fitting).	Paint or debris in threaded holes; misaligned parts.	Carefully check threaded holes for obstructions. Ensure parts are correctly oriented as per assembly diagrams. A rubber mallet can gently assist with alignment, but avoid excessive force.
Squeaking noise when in use.	Friction at connection points or carabiner.	Apply a small amount of silicone lubricant or WD-40 to the carabiner pivot point and any metal-on-metal connections.
Rust spots appearing on the frame.	Prolonged exposure to moisture; damage to powder coating.	Clean the affected area, gently sand away rust, and apply a rust-inhibiting outdoor paint. Consider using a protective cover when storing outdoors.

## 7. SPECIFICATIONS

**Model Number:** SKY330

**Brand:** Best Choice Products

**Color:** Black

**Material:** Powder-Coated Steel

**Overall Dimensions (L x W x H):** 42" x 27" x 84" (106.7 cm x 68.6 cm x 213.4 cm)

**Item Weight:** Approximately 47 lbs (21.3 kg)

**Weight Capacity:** 300 lbs (136 kg)

**Features:** Weather-resistant finish, offset base, 360-degree rotating carabiner
