

Mephisto Match

Mephisto Men's Match Walking Shoe User Manual

Model: Match

INTRODUCTION

The Mephisto Men's Match Walking Shoe is engineered for comfort, support, and durability, making it suitable for everyday wear and extended walking. Featuring a durable leather upper, Soft-Air Technology, and a Caoutchouc rubber sole, this shoe provides essential comfort and support. Mephisto products are handcrafted from natural materials including leather, latex, cork, and rubber, reflecting decades of innovation in walking shoe design.

SETUP AND SIZING

Proper sizing is crucial for optimal comfort and support. Follow these guidelines for fitting your Mephisto Match walking shoes:

- **Measure Both Feet:** Most individuals have one foot slightly larger than the other. Always measure both feet.
- **Measure at Day's End:** Feet tend to be slightly larger at the end of the day. Measuring at this time can help ensure a comfortable fit throughout the day.
- **Consider All Dimensions:** Footwear sizing is not solely based on length. Feet are three-dimensional, so also consider the width and thickness of your feet for the best fit.
- **Initial Fit:** The shoes may feel slightly stiff initially. They are designed to conform to your feet over a short period of wear.

The Soft-Air Technology integrated into the insole is designed to provide cushioning and reduce impact, contributing to overall foot

comfort during prolonged use.

OPERATING INSTRUCTIONS

The Mephisto Match walking shoe is designed for casual wear and walking activities. To ensure optimal performance and comfort:

- **Lacing:** Utilize the lace-up closure to secure the shoe firmly but comfortably around your foot. Adjust lacing to prevent excessive movement while avoiding undue pressure points.
- **Intended Use:** These shoes are ideal for daily walking and casual outings. While durable, they are not specifically designed for high-impact sports or activities requiring specialized athletic footwear.
- **Break-in Period:** Allow a short break-in period for the leather upper and sole to adapt to your foot shape, enhancing personalized comfort.

MAINTENANCE AND CARE

To prolong the life and maintain the appearance of your Mephisto Match walking shoes, follow these care instructions:

- **Cleaning Leather Upper:** Regularly wipe the leather upper with a soft, damp cloth to remove dirt and dust. For deeper cleaning, use a leather cleaner specifically designed for the type of leather on your shoes (e.g., smooth leather, nubuck).
- **Conditioning:** Apply a leather conditioner periodically to keep the leather supple and prevent drying or cracking.
- **Sole Care:** Clean the rubber sole with a brush and mild soap and water as needed. Ensure no debris is lodged in the sole's tread.
- **Drying:** If shoes become wet, allow them to air dry naturally at room temperature. Avoid direct heat sources like radiators or direct sunlight, which can damage the leather.
- **Storage:** Store shoes in a cool, dry place away from direct sunlight. Using shoe trees can help maintain their shape.
- **Lace Replacement:** Inspect shoelaces periodically for wear. Replace them if they show signs of fraying or breakage to ensure secure fastening.

TROUBLESHOOTING

This section addresses common concerns that may arise with your walking shoes:

- **Discomfort or Pressure Points:** Ensure proper sizing as described in the Setup section. Adjust lacing to relieve pressure. If discomfort persists, consider consulting a footwear specialist.
- **Squeaking Noise:** A new shoe may sometimes squeak due to friction between components. This often resolves with wear. If it persists, check if the insole is properly seated or if there is any foreign material.
- **Lace Breakage:** As noted in some user experiences, shoelaces can wear out. Replace worn laces promptly with durable, synthetic-reinforced laces of appropriate length (e.g., 30 inches) to prevent inconvenience.
- **Odor:** To prevent odor, allow shoes to air out between uses. Consider using shoe deodorizers or cedar shoe trees.

SPECIFICATIONS

Brand	Mephisto
Model Name	Match
Outer Material	Leather
Sole Material	Rubber (Caoutchouc)
Insole Material	Suede
Closure Type	Lace-Up
Heel Type	Flat
Toe Style	Round Toe
Water Resistance Level	Not Water Resistant
Item Weight	Approximately 3 Pounds
Origin	Imported
