The KAWADA NanoBlock NBH-011 Kinkakuji Temple model requires careful assembly due to its micro-sized components. Follow the detailed step-by-step instructions provided in the included assembly booklet.

1. **Preparation:** Unpack all components and verify that all pieces are present by comparing them with the parts list in the instruction booklet. Organize pieces by color and size to facilitate assembly.
2. **Follow Booklet:** Refer to the dedicated assembly instructions booklet for precise, visual, and sequential steps. Each step illustrates which blocks to use and where to place them.

## TROUBLESHOOTING

### Missing Pieces

If you believe you are missing pieces, first carefully re-check your workspace and the packaging. Due to their small size, pieces can be

easily overlooked. If pieces are genuinely missing, contact KAWADA customer support for assistance.

### Difficulty Connecting Blocks

Ensure that the blocks are correctly oriented and aligned before applying pressure. Some blocks may require a firm, but gentle, push to snap into place. Avoid forcing blocks, as this can damage them.

### Model Instability

Review the assembly steps to confirm all connections are secure and blocks are placed according to the instructions. Loose connections can lead to instability.
