## SAFETY INSTRUCTIONS

---

To prevent injury or damage, always observe the following safety precautions:

- Read all instructions before operating the appliance.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Keep the appliance out of reach of children.
- Unplug the appliance from the outlet when not in use and before cleaning.
- Do not operate any appliance with a damaged cord or plug.
- Avoid contact with moving parts.
- Do not place the appliance on or near a hot gas or electric burner, or in a heated oven.
- Ensure adequate ventilation around the appliance during operation.
- The appliance housing is designed with cool-touch technology, but caution should still be exercised around the lid and viewing window during and immediately after baking.

## SETUP

---

1. **Unpacking:** Carefully remove the bread maker and all accessories from the packaging. Retain packaging for future transport or storage.
2. **Initial Cleaning:** Before first use, wash the detachable baking pan and kneading blade with warm, soapy water. Rinse thoroughly and dry completely. Wipe the exterior of the appliance with a damp cloth.
3. **Placement:** Place the bread maker on a stable, flat, heat-resistant surface, away from direct sunlight and heat sources. Ensure there is adequate space around the appliance for ventilation.
4. **Inserting the Baking Pan:** Place the kneading blade onto the shaft inside the baking pan. Insert the baking pan into the bread maker, ensuring it is securely locked in place.

## OPERATING INSTRUCTIONS

---

Follow these steps for baking bread with your Severin BM3990:

1. **Add Ingredients:** Add ingredients to the baking pan in the order specified by your recipe (typically

liquids first, then dry ingredients, with yeast last). Ensure the kneading blade is in place.

7. **Adding Ingredients:** An acoustic signal will sound during certain programs, indicating the time to add additional ingredients like fruits, nuts, or seeds.
8. **Keep Warm Function:** After baking is complete, the bread maker will automatically switch to a keep-warm function for up to one hour.
9. **Remove Bread:** Once the cycle is complete and the bread has cooled slightly, carefully remove the baking pan using oven mitts. Invert the pan to release the bread.

## MAINTENANCE AND CLEANING

---

Regular cleaning ensures the longevity and optimal performance of your bread maker.

- Always unplug the appliance and allow it to cool completely before cleaning.
- The detachable non-stick baking pan and kneading blade should be washed with warm, soapy water. Avoid abrasive cleaners or scouring pads that could damage the non-stick coating.
- Wipe the exterior of the bread maker with a dry cloth. Do not use harsh chemicals or immerse the main unit in water.
- The detachable lid can be wiped clean with a damp cloth.
- Ensure all parts are completely dry before reassembling or storing the appliance.

## TROUBLESHOOTING

---

If you encounter issues with your bread maker, refer to the following common solutions:

- **Appliance does not turn on:** Check if the power cord is securely plugged into a working outlet.
- **Bread does not rise:** Ensure yeast is fresh and active. Verify ingredient measurements are accurate. Check that the correct program was selected.
- **Bread is too dense or crumbly:** Adjust liquid-to-flour ratio. Ensure ingredients are at room temperature.
- **Kneading blade stuck in bread:** Allow bread to cool slightly before removal. If the blade remains, carefully extract it using a non-metallic utensil.
- **Uneven baking:** Ensure the bread maker is placed on a level surface.

For persistent issues, please contact customer support.
