Keuco Elegance New 11615010000 Towel Hook Instruction Manual

Model: 11615010000 | Brand: Keuco

1. PRODUCT OVERVIEW

The Keuco Elegance New 11615010000 Towel Hook is a chrome-plated, wall-mounted accessory designed for hanging towels or robes. It features a contemporary style with a 2.2 cm diameter and a 5.9 cm length, providing a functional and elegant solution for your bathroom or kitchen. This hook is suitable for installation on drywall, plaster, or tile surfaces.

2. INSTALLATION INSTRUCTIONS

Follow these steps for proper installation of your Keuco Elegance New Towel Hook. Ensure you have the necessary tools, such as a drill, screwdriver, and appropriate wall anchors for your surface type.

- 1. Prepare the Hook:** The towel hook consists of two main parts: the base and the hook extension. To install, the hook extension must be unscrewed from the base. *Note: Some units may be tightly screwed together. If you encounter difficulty, apply gentle, steady pressure. Avoid using excessive force or tools that could damage the chrome finish. If the parts are extremely tight, a small amount of penetrating oil (e.g., WD-40) applied to the thread may assist, but ensure it does not contact the visible chrome surfaces.*
- 2. Mark Mounting Position:** Choose a suitable location on your wall. Use a pencil to mark the desired position for the base.
- 3. Drill Pilot Holes:** Drill pilot holes according to the size of your wall anchors and the mounting holes on the hook's base. Ensure the holes are level.
- 4. Insert Wall Anchors:** Insert appropriate wall anchors into the drilled holes.
- 5. Attach Base:** Position the hook's base over the wall anchors and secure it with the provided screws. Ensure it is firmly attached to the wall.
- 6. Assemble Hook:** Once the base is secure, screw the hook extension back onto the mounted base. Hand-tighten until snug.

3. USAGE

The Keuco Elegance New Towel Hook is designed for hanging towels, bathrobes, or other lightweight items. Simply place the item over the hook. Avoid hanging excessively heavy objects to prevent damage to the hook or the mounting surface.

4. CARE AND MAINTENANCE

To maintain the chrome finish and ensure the longevity of your towel hook, follow these care instructions:

- Clean regularly with a soft, damp cloth.
- For stubborn spots, use a mild soap solution. Rinse thoroughly with clean water and dry immediately with a soft

cloth to prevent water spots.

- Avoid abrasive cleaners, scouring pads, or harsh chemicals (e.g., ammonia-based cleaners, bleach) as these can damage the chrome finish.
- Do not use polishes containing abrasive agents.

5. TROUBLESHOOTING

If you encounter issues with your towel hook, refer to the following common problems and solutions:

- **Difficulty Unscrewing Hook from Base:** As noted in installation, the hook extension may be very tight. Apply firm, steady counter-clockwise pressure. If necessary, use a rubber grip or cloth to enhance grip. Avoid using pliers directly on the chrome to prevent damage. If the parts remain stuck, contact customer support.
- **Hook Feels Loose After Installation:** Ensure the mounting screws are tightened securely into the wall anchors. If the wall anchors are loose, they may need to be replaced with larger ones or repositioned.
- **Chrome Finish Appears Dull:** Refer to the 'Care and Maintenance' section. Ensure you are cleaning with appropriate materials and avoiding harsh chemicals.
