

## Logitech H555

# Logitech H555 Laptop Headset User Manual

Model: H555

## INTRODUCTION

This manual provides comprehensive instructions for the Logitech H555 Laptop Headset. It covers setup, operation, maintenance, and troubleshooting to ensure optimal performance and user experience. The H555 is designed for portable digital audio, offering clear sound and a comfortable fit for use with notebooks and PCs.

## SETUP

The Logitech H555 headset features a plug-and-play USB connection for easy setup on compatible devices.

### 1. Connecting the Headset

1. Locate an available USB port on your laptop or PC.

2. Insert the USB connector of the H555 headset into the USB port. The operating system should automatically detect and install the necessary drivers.

## 2. Adjusting for Comfort

- The H555 features a behind-the-head design. Gently place the earcups over your ears.
- Adjust the earcup positions along the frame to achieve a comfortable and secure fit.

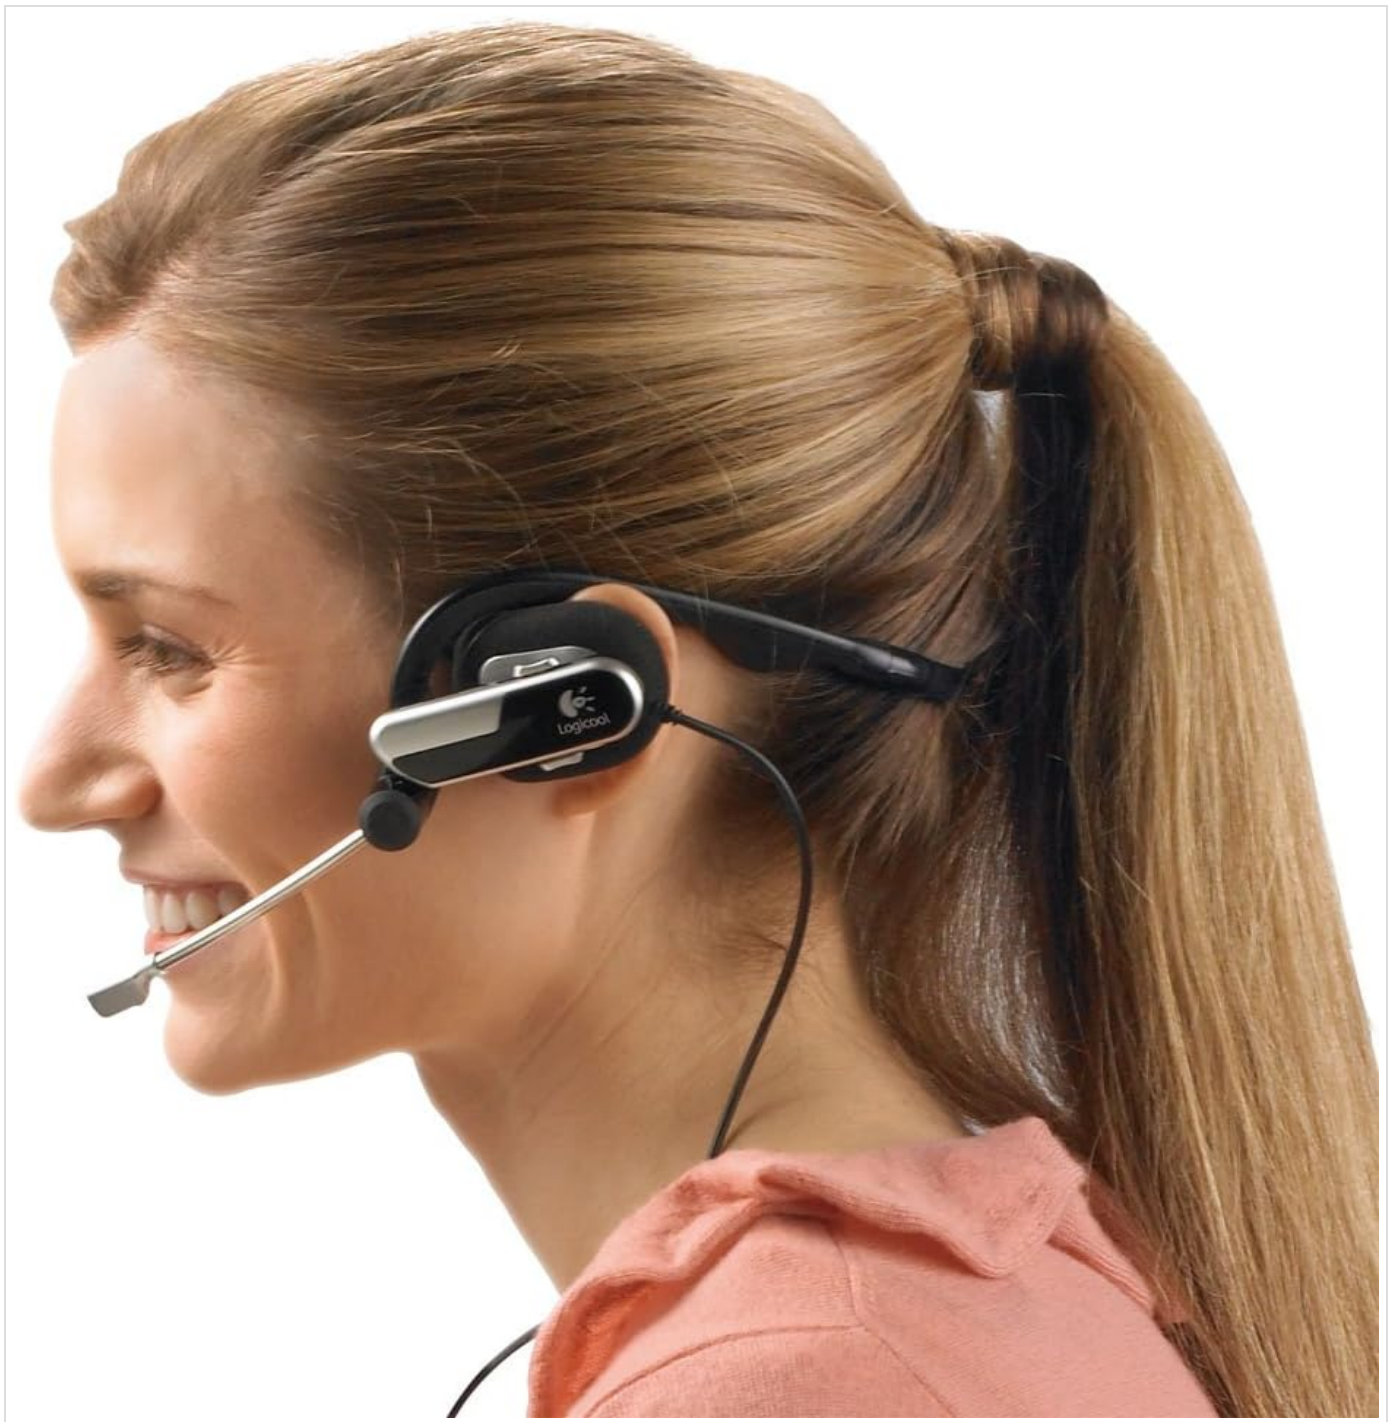

Image: A user wearing the Logitech H555 headset, demonstrating the behind-the-head fit and microphone positioning.

### 3. Microphone Positioning

- The microphone boom is flexible. Position the microphone approximately 2-3 centimeters (about 1 inch) from your mouth for optimal voice clarity.
- Ensure the microphone is not directly in front of your mouth to avoid breath noises.

## OPERATING INSTRUCTIONS

---

Once connected and adjusted, the Logitech H555 headset is ready for use with various audio applications.

### Volume Control and Mute Function

- The headset cable includes an inline control pod.
- **Volume Dial:** Rotate the dial to increase or decrease the listening volume.

- **Mute Button:** Press the button to mute or unmute the microphone. An indicator light (if present) may show the mute status.

## Using with Communication Software

For applications like Skype, Zoom, or other VoIP services, ensure the Logitech H555 is selected as the default audio input and output device in the software's settings.

Image: A user engaged in a video call using the Logitech H555 headset with a laptop, illustrating a typical usage scenario.

## MAINTENANCE

---

Proper care extends the life and performance of your headset.

- **Cleaning:** Use a soft, dry cloth to clean the earcups and headset frame. Avoid liquid cleaners directly on the components.
- **Storage:** The H555 headset is designed to fold flat for portability. Fold the earcups inward and the microphone boom alongside the frame before storing it in its protective pouch or a safe place.

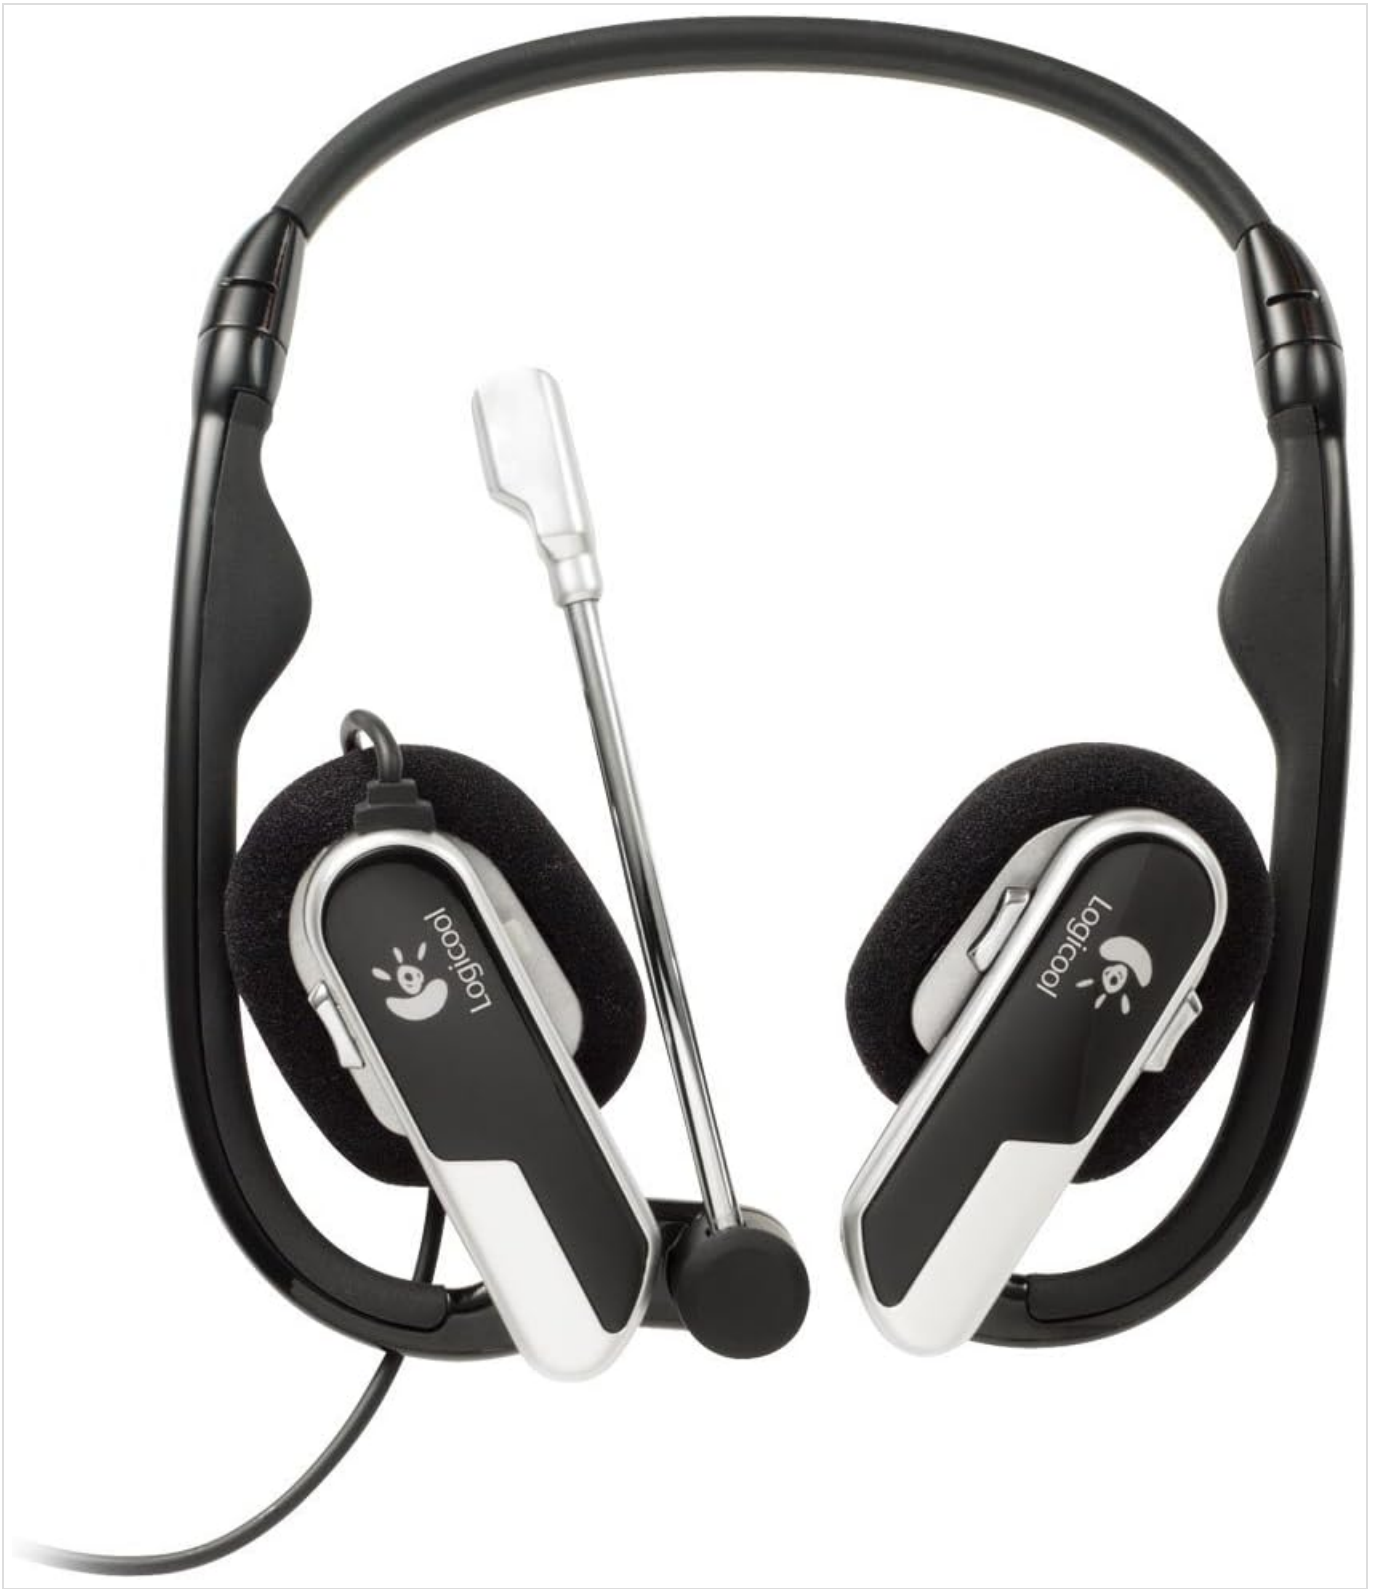

Image: The Logitech H555 headset in its folded configuration, demonstrating its compact design for travel and storage.

- **Cable Care:** Avoid sharp bends or excessive pulling on the USB cable to prevent damage.

## TROUBLESHOOTING

If you encounter issues with your Logitech H555 headset, refer to the following common solutions:

Problem	Solution
---------	----------

Problem	Solution
No sound from headset	<ul style="list-style-type: none"><li>• Ensure the USB connector is fully inserted into the port.</li><li>• Check the volume dial on the inline control and your computer's system volume.</li><li>• Verify that the Logitech H555 is selected as the default playback device in your operating system's sound settings.</li><li>• Try a different USB port.</li></ul>
Microphone not working	<ul style="list-style-type: none"><li>• Ensure the microphone mute button on the inline control is not activated.</li><li>• Verify that the Logitech H555 is selected as the default recording device in your operating system's sound settings and in your communication software.</li><li>• Check microphone privacy settings in your operating system.</li></ul>
Poor audio quality	<ul style="list-style-type: none"><li>• Ensure the USB connection is stable.</li><li>• Adjust the microphone position to optimize voice input.</li><li>• Close other applications that might be consuming system resources.</li></ul>

## SPECIFICATIONS

- Model:** H555
- Connectivity:** Wired USB 2.0
- Ear Placement:** On Ear
- Microphone:** Noise-cancelling, adjustable boom
- Controls:** Inline volume control and microphone mute button
- Design:** Foldable, behind-the-head
- Compatible Devices:** Laptops, Desktops (PC, Mac)
- Material:** Leather, Plastic
- Item Weight:** Approximately 8.8 ounces (0.55 lbs)
- Product Dimensions:** 7.76 x 3.31 x 8.82 inches (LxWxH)
