Logitech Wireless Mouse M215 User Manual

Model: M215 (910-001543)

INTRODUCTION

This manual provides essential information for setting up, operating, and maintaining your Logitech Wireless Mouse M215. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

PACKAGE CONTENTS

- Logitech Wireless Mouse M215
- USB Nano Receiver
- 1 AA Battery (pre-installed or included)
- User Documentation (this manual)

Image: The Logitech Wireless Mouse M215, a compact dark grey mouse with a scroll wheel and two main buttons, shown alongside its small USB Nano Receiver. The mouse features the Logitech logo on its palm rest.

SETUP

1. Install Battery

The Logitech Wireless Mouse M215 requires one AA battery. The battery compartment is located on the underside of the mouse. Open the compartment, insert the AA battery ensuring correct polarity (+/-), and close the compartment. A battery is included with the mouse.

2. Connect USB Nano Receiver

Locate an available USB port on your computer (desktop or laptop). Insert the USB Nano Receiver firmly into the USB port. Your operating system should automatically detect and install the necessary drivers. No additional software installation is typically required.

3. Power On Mouse

On the underside of the mouse, locate the On/Off switch. Slide the switch to the "On" position. The mouse is now ready for use.

OPERATING INSTRUCTIONS

The Logitech Wireless Mouse M215 provides intuitive control for your computer.

- **Left Click:** Press the left button to select items, open links, or activate functions.
- **Right Click:** Press the right button to open context menus or access additional options.
- **Scroll Wheel:** Roll the scroll wheel up or down to navigate through documents and web pages.
- **Middle Click (Scroll Wheel Button):** Press the scroll wheel down to activate middle-click functions, such as opening links in new tabs or auto-scrolling.
- **Movement:** Move the mouse across a flat surface to control the cursor on your screen. The optical sensor provides smooth and precise tracking.

The mouse is designed for comfortable use, allowing for easy text selection and effortless scrolling.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the mouse. For stubborn dirt, a slightly damp cloth can be used, but ensure no moisture enters the internal components. Avoid abrasive cleaners or solvents.
- **Battery Replacement:** When the battery indicator light (if present) glows red or mouse performance degrades, replace the AA battery. Ensure the mouse is turned off before replacing the battery.
- **Receiver Storage:** The USB Nano Receiver can be stored inside the mouse's battery compartment when not in use, which is convenient for travel and prevents loss.

TROUBLESHOOTING

Problem	Solution
Mouse not responding.	<ul style="list-style-type: none">◦ Ensure the mouse is turned On.◦ Check if the battery is correctly installed and has sufficient charge. Replace if necessary.◦ Ensure the USB Nano Receiver is securely plugged into a working USB port. Try a different USB port.◦ Move the mouse closer to the receiver to reduce interference.

Problem	Solution
Cursor movement is erratic or jumpy.	<ul style="list-style-type: none">◦ Clean the optical sensor on the underside of the mouse with a soft, dry cloth.◦ Use the mouse on a clean, non-reflective, and uniform surface. Avoid glass or highly reflective surfaces.◦ Check for strong wireless interference from other devices.
Mouse disconnects frequently.	<ul style="list-style-type: none">◦ Ensure the receiver is not obstructed and is within range (typically up to 10 meters).◦ Try plugging the receiver into a different USB port, preferably one directly on the computer rather than a hub.◦ Replace the battery.
