## CURT 11164

# CURT 11164 Class 1 Trailer Hitch User Manual

Model: 11164 | Brand: CURT

## PRODUCT OVERVIEW

The CURT 11164 Class 1 Trailer Hitch is a robust towing solution designed for select Audi A4, Quattro, S4, and Volkswagen Passat models. This hitch features a 1-1/4-inch receiver, making it highly versatile for various towing needs. It is engineered for dependable strength and long-lasting durability, ensuring reliable performance for light-duty towing applications.

Image: The CURT 11164 Class 1 Trailer Hitch, showcasing its main structure and receiver tube.

## Key Features:

- **Dependable Strength:** Constructed from strong, welded steel, rated for 2,000 lbs. gross trailer weight and 200 lbs. tongue weight. Note: Towing capacity is limited by the lowest-rated towing component.

- **Highly Versatile:** Equipped with a standard 1-1/4-inch receiver hitch. Please note, this hitch is not compatible with vertical hanging bike racks that require bikes to be hung or mounted vertically.
- **Dual-Coat Finish:** Features an industry-leading rust, chip, and UV-resistant finish. The hitch is submersed in a liquid A-coat and co-cured with a durable black powder coat for enhanced protection.
- **Easy Installation:** Designed for a factory fit on select model years of the Audi A4, A4 Quattro, S4, and Volkswagen Passat.
- **Tested for Safety:** Each CURT Class 1 trailer hitch design undergoes thorough testing using real vehicles in real-world conditions, meeting SAE J684 specifications for safety.

## FEATURES & BENEFITS

## PACKAGE CONTENTS

Upon opening your CURT 11164 Class 1 Trailer Hitch package, you should find the following components:

- 1 x CURT Class 1 Hitch (Model 11164)
- All necessary mounting hardware (bolts, washers, nuts, etc.)
- Installation Instructions

Please inspect all components for any damage or missing parts immediately upon receipt. If anything is missing or damaged, contact CURT customer support.

## INSTALLATION

Installation of the CURT 11164 Class 1 Trailer Hitch is designed for a factory fit on compatible vehicles. While the design aims for ease of installation, professional installation is highly recommended to ensure proper fitment, safety, and adherence to all local regulations.

## General Installation Guidelines:

- Preparation:** Park the vehicle on a level surface and engage the parking brake. Allow the exhaust system to cool if recently driven. Refer to your vehicle's owner's manual for any specific instructions regarding modifications.
- Access Mounting Points:** Depending on the vehicle model, it may be necessary to temporarily lower the exhaust or remove certain underbody panels to access the frame's mounting points.
- Position the Hitch:** Carefully lift the trailer hitch into position, aligning the mounting holes on the hitch with the pre-drilled holes in the vehicle's frame.
- Secure Hardware:** Insert the provided hardware (bolts, washers, nuts) through the aligned holes. Hand-tighten all fasteners to hold the hitch in place.
- Final Tightening:** Using a torque wrench, tighten all fasteners to the specifications provided in the detailed installation instructions included with your hitch. Ensure all connections are secure.
- Reassemble:** Reinstall any components that were removed or lowered during the installation process, such as the exhaust or underbody panels.

## Important Safety Note:

Always consult the specific installation instructions provided with your CURT 11164 hitch for detailed, step-by-step procedures, torque specifications, and any vehicle-specific considerations. Incorrect installation can lead to serious safety hazards and may void your warranty.

## OPERATING THE TRAILER HITCH

Once installed, your CURT Class 1 Trailer Hitch is ready for use. Proper operation ensures safe and effective towing.

### Connecting a Trailer:

- 1. Insert Ball Mount:** Slide the appropriate ball mount (sold separately) into the 1-1/4-inch receiver tube. Secure it with a hitch pin and clip (not included).
- 2. Attach Trailer Coupler:** Lower the trailer coupler onto the hitch ball, ensuring it is fully seated and locked.
- 3. Connect Safety Chains:** Cross the trailer's safety chains beneath the coupler and attach them to the designated chain loops on the hitch. This provides a backup connection in case the primary coupling fails.
- 4. Connect Trailer Wiring:** If your trailer has lights or electric brakes, connect the trailer's wiring harness to your vehicle's wiring system.

vehicle's towing electrical connector. Test all lights and brakes before driving.

## Towing Considerations:

- Always adhere to the maximum towing capacity of your vehicle and the hitch (2,000 lbs. GTW / 200 lbs. TW), whichever is lower.
- Ensure proper tongue weight distribution for stable towing.
- Drive cautiously, allowing for increased braking distances and wider turns.
- Regularly check all connections and trailer components during long trips.

## MAINTENANCE

Regular maintenance will extend the life and ensure the safe operation of your CURT trailer hitch.

- **Inspect Regularly:** Before each towing trip, visually inspect the hitch for any signs of damage, cracks, excessive rust, or loose fasteners.
- **Clean:** Keep the hitch clean from dirt, salt, and road debris. Wash with mild soap and water, then dry thoroughly.
- **Lubricate:** Apply a light coat of grease to the hitch ball and inside the receiver tube to prevent rust and ensure smooth operation.
- **Check Fasteners:** Periodically re-torque all mounting bolts to the specified values, especially after the first few uses and after long trips.
- **Protect Finish:** The dual-coat finish provides excellent protection, but avoid harsh chemicals or abrasive cleaners that could damage it. Touch up any deep scratches to prevent rust.

# FEATURES & BENEFITS

Industry-leading, dual-coat finish

Image: Components of the CURT hitch being treated with the dual-coat finish, illustrating the rust and chip resistance process.

## TROUBLESHOOTING

Here are some common issues and their potential solutions:

- **Hitch Does Not Fit:**

- Double-check the model number (11164) against your vehicle's make, model, and year. This hitch is specifically designed for select Audi A4, Quattro, S4, and Volkswagen Passat models.
- Ensure no vehicle components (e.g., exhaust, bumper fascia) are obstructing the mounting points. Some vehicle trims or aftermarket parts may require minor adjustments or professional modification.

- **Excessive Noise During Towing:**

- Verify that the hitch pin and clip are securely in place.
- Check that the ball mount is properly seated and not loose within the receiver.

- Ensure the trailer coupler is fully engaged and locked onto the hitch ball.
- Inspect safety chains for proper tension and connection.

- **Rust or Corrosion:**

- While the hitch has a dual-coat finish, prolonged exposure to harsh elements or road salt can still cause surface rust. Clean the hitch regularly and apply a rust-inhibiting paint to any affected areas.
- Ensure proper drainage around the hitch area on your vehicle.

If you encounter persistent issues or have concerns about the hitch's performance, contact CURT customer support or a certified automotive technician.

## SPECIFICATIONS

Attribute	Detail
Brand	CURT
Model Number	11164
Receiver Size	1-1/4-Inch
Gross Trailer Weight (GTW)	2,000 lbs.
Tongue Weight (TW)	200 lbs.
Material	Carbon Steel
Finish Type	GLOSS BLACK POWDER COAT (Dual-Coat)
Item Weight	15.2 Pounds
Product Dimensions	18 x 33 x 12 inches
Vehicle Service Type	Car (Select Audi A4, Quattro, S4, Volkswagen Passat)
UPC	612314009381
