Hamilton Beach 04384

Hamilton Beach TrueAir Air Purifier (Model 04384) User Manual

Model: 04384 | Brand: Hamilton Beach

INTRODUCTION

This manual provides instructions for the Hamilton Beach TrueAir Air Purifier, Model 04384. This compact air purifier is designed to improve air quality in rooms up to 140 square feet by capturing allergens, dust, pollen, pet dander, and mold spores, and reducing odors.

Figure 1: Hamilton Beach TrueAir Air Purifier.

SETUP

1. **Unpack the Unit:** Carefully remove the air purifier and all packaging materials from the box.
2. **Filter Installation:** The unit comes with a permanent HEPA-grade filter and two carbon zeolite filters. Ensure all filters are properly seated inside the unit. Refer to the "Maintenance" section for filter access.
3. **Placement:** Place the air purifier on a flat, stable surface. The unit can be operated either vertically or horizontally for versatility. Ensure adequate space around the air intake and outlet for optimal airflow.
4. **Power Connection:** Plug the power cord into a standard wall outlet.

Versatile air care that fits anywhere

Great for your
bedroom, office,
or living room

Figure 2: The air purifier's versatile design allows for vertical placement.

Compact,
stylish design
Perfect in your office or
in rooms up to 140 sq. ft.

Figure 3: The compact design also supports horizontal placement.

OPERATING INSTRUCTIONS

The Hamilton Beach TrueAir Air Purifier features a simple control knob for power and speed settings.

3 versatile speed settings

Use quiet setting at night or quick setting for powerful air cleaning

Figure 4: Control knob for speed settings.

1. **Power On/Off:** Turn the control knob to any speed setting to power on the unit. Turn it to "OFF" to power off.

2. Speed Settings:

- **Whisper Clean (Low):** For extra quiet operation, ideal for nighttime use or when minimal noise is desired.
- **Med (Medium):** A balanced setting for general air cleaning.
- **Quick Clean (High):** For powerful and rapid air cleaning, suitable for quickly refreshing a room.

MAINTENANCE

Regular maintenance ensures optimal performance of your air purifier. The permanent HEPA-grade filter is designed for easy cleaning, and the carbon zeolite filters are replaceable.

Cleaning the Permanent HEPA-Grade Filter:

1. **Power Off and Unplug:** Always turn off and unplug the air purifier before performing any maintenance.
2. **Access Filters:** Press the release button on the top of the unit to open the front cover.
3. **Remove Filter:** Carefully pull out the permanent HEPA-grade filter.
4. **Vacuum Clean:** Use a vacuum cleaner with a brush attachment to clean the pleated surface of the HEPA-grade filter. Do not wash this filter with water.
5. **Reinstall:** Once clean, reinsert the filter into the unit, ensuring it is securely in place. Close the front cover until it clicks.

Easy to clean

Replacing Carbon Zeolite Filters:

- The two carbon zeolite odor-eliminating filters should be replaced approximately every 3 months.
- A timestrip cartridge on the unit serves as a convenient reminder for replacement.
- Replacement filters can be purchased from authorized retailers or the Hamilton Beach website.

High-performance HEPA-grade filter

Tackles pet dander, dust, dust mites,
pollen, and mold/mildew spores

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; power outlet not working; control knob in "OFF" position.	Ensure unit is securely plugged into a working outlet. Turn the control knob to a speed setting (Whisper Clean, Med, or Quick Clean).
Reduced airflow or poor odor reduction.	Clogged HEPA-grade filter; saturated carbon zeolite filters.	Clean the permanent HEPA-grade filter as described in the "Maintenance" section. Replace the carbon zeolite filters if they are due for replacement (every 3 months).

Problem	Possible Cause	Solution
Unit is unusually loud.	Operating on "Quick Clean" (High) setting; obstruction in fan.	Switch to a lower speed setting like "Whisper Clean" or "Med". Power off and unplug the unit, then check for any obstructions in the fan area.

SPECIFICATIONS

Brand: Hamilton Beach

Model Number: 04384

Product Dimensions (D x W x H): 8.5" x 6" x 13.54"

Item Weight: 6.3 Pounds

Power Source: Wall outlet

Control Method: Rotary Knob (Off, Whisper Clean, Med, Quick Clean)

Filter Type: Permanent HEPA-grade filter, 2 Replaceable Carbon Zeolite filters

Floor Area Coverage: Up to 140 Square Feet

Noise Level: 45 Decibels (on lowest setting)

Particle Retention Size: 3 Micron

Special Features: Permanent HEPA-grade filter vacuums clean

Color: White with Grey
