Craig CR8003

Craig Micro Cassette Voice Recorder CR8003 Instruction Manual

Model: CR8003

INTRODUCTION

This manual provides detailed instructions for the proper setup, operation, and maintenance of your Craig Micro Cassette Voice Recorder, model CR8003. Please read this manual thoroughly before using the device to ensure optimal performance and longevity.

PRODUCT OVERVIEW

The Craig CR8003 is a portable micro cassette voice recorder designed for convenient audio capture and playback. It features a Voice Activated System (VAS), two-speed control, and an LED recording indicator.

This image displays the Craig CR8003 Micro Cassette Voice Recorder. It is a black, rectangular device with a wrist strap attached to the top left. The front panel features the 'CRAIG' logo at the top, a clear window for viewing the cassette tape, and an orange 'VAS' (Voice Activated System) indicator. Below this, text indicates 'VOICE ACTIVATED SYSTEM 2 SPEED CONTROL'. Further down, a 'RECORD' indicator and a speaker grille are visible. The right side of the device shows a 'DIRECTION' arrow and control buttons.

SETUP

1. Battery Installation

1. Locate the battery compartment cover on the back of the unit.
2. Slide the cover open.

3. Insert two (2) AA batteries (not included), ensuring correct polarity (+/-) as indicated inside the compartment.

4. Close the battery compartment cover securely.

Note: The unit can also be powered by a DC3V AC/DC adapter (not included) via the DC jack.

OPERATING INSTRUCTIONS

1. Loading a Micro Cassette

1. Press the EJECT button to open the cassette compartment door.

2. Insert a micro cassette tape with the open side facing the playback head.

3. Gently close the cassette compartment door until it clicks into place.

2. Recording

- **Standard Recording:** Press the RECORD button. The LED recording indicator will illuminate. Speak clearly into the built-in microphone.

- **Voice Activated System (VAS):** To enable VAS, slide the VAS switch to the 'ON' position. The recorder will automatically start recording when sound is detected and pause when silence occurs. The LED indicator will show recording activity.

- To stop recording, press the STOP button.

3. Playback

- Press the PLAY button to begin playback. Audio will be heard through the built-in speaker.

- **Speed Control:** Use the 2-speed control switch to adjust the playback speed as desired.

- **Pause:** Press the PAUSE button to temporarily stop playback. Press it again to resume.

- **Fast Forward/Rewind:** Use the F.FWD (Fast Forward) and REW (Rewind) buttons to navigate through the tape.

- To stop playback, press the STOP button.

4. Using External Devices

- **Headphones:** Connect 3.5mm headphones to the headphone jack for private listening.

- **External Microphone:** Connect an external microphone to the microphone jack for alternative audio input.

MAINTENANCE

- Keep the unit clean by wiping it with a soft, dry cloth. Avoid using abrasive cleaners or solvents.

- Regularly clean the tape heads and pinch roller with a cotton swab lightly dampened with isopropyl alcohol to ensure optimal sound quality and prevent tape damage.

- Remove batteries if the unit will not be used for an extended period to prevent leakage.

- Store the recorder in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not power on.	Dead or incorrectly inserted batteries; no DC power.	Replace batteries, check polarity; ensure DC adapter is properly connected and functional.
Poor recording/playback quality.	Dirty tape heads; worn-out tape; low battery power.	Clean tape heads; try a new micro cassette; replace batteries.
Tape does not move or jams.	Tape is tangled or damaged; mechanism obstruction.	Check tape for damage; ensure tape is properly spooled; gently remove any visible obstructions.
VAS not activating.	VAS switch is off; ambient noise too low.	Ensure VAS switch is in the 'ON' position; increase volume of sound source.

SPECIFICATIONS

Model Number: CR8003

Brand: Craig

Product Dimensions: 1.1 x 2.75 x 5 inches

Item Weight: 8 ounces

Batteries: 2 AA batteries required (not included)

Power Input: DC3V (AC/DC adapter not included)

Hardware Interface: Headphone

Microphone Form Factor: Built-In

Headphones Jack: 3.5 millimeters

Features: Voice Activated System (VAS), High sensitivity recording, Two speeds play/record control, LED recording indicator, Pause, Forward & Rewind function, Built-in speaker

Date First Available: June 18, 2010
