REVLON RVDR5034

REVLON Essentials Compact Hair Dryer

Model: RVDR5034

PRODUCT OVERVIEW

The REVLON Essentials Compact Hair Dryer is designed for efficient and flexible hair drying and styling. Its ultra-lightweight and compact design make it ideal for travel and everyday use. Featuring 1875 Watts of power, it delivers a strong airflow for fast drying. The dryer includes two heat and speed settings, along with protective anti-slip bumpers for enhanced grip and control. A convenient hanging ring is integrated for easy storage.

IMPORTANT SAFETY INFORMATION

WARNING: To reduce the risk of electric shock, burns, fire, or injury to persons:

- Always unplug this appliance immediately after using.
- Do not use while bathing.
- Do not place or store appliance where it can fall or be pulled into a tub or sink.
- Do not place in or drop into water or other liquid.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- This appliance is for 120 volts outlets only.

PRODUCT FEATURES

- **1875 Watts:** Provides powerful airflow for fast drying.
- **2 Heat/Speed Settings:** Offers flexibility for complete drying and styling control.
- **Ultra Lightweight Design:** Compact and easy to pack, perfect for travel.
- **Anti-Slip Bumpers:** Ensures extra grip and control during use.
- **Hanging Ring:** Convenient for storage in bathrooms, bedrooms, or vanities.

SETUP AND FIRST USE

1. **Unpacking:** Carefully remove the hair dryer and all packaging materials from the box.
2. **Inspect:** Check the appliance for any signs of damage. Do not use if damaged.
3. **Plug In:** Ensure your hands are dry. Plug the hair dryer into a standard 120-volt electrical outlet. The plug features a safety breaker; press the "RESET" button if the dryer does not turn on.
4. **Familiarize:** Locate the heat/speed settings switch on the handle.

OPERATING INSTRUCTIONS

The REVLON Essentials Compact Hair Dryer offers two heat and speed settings for versatile styling.

- **Power On/Off:** Slide the switch to the "LOW" or "HIGH" position to turn the dryer on. Slide to "OFF" to turn it off.
- **Heat Settings:**
 - **LOW:** Provides a gentle airflow and heat, suitable for delicate or fine hair, or for setting styles.
 - **HIGH:** Delivers maximum airflow and heat for fast drying of thick or coarse hair.
- **Cool Shot Button:** Press and hold the button located above the main switch for a burst of cool air. This helps to set your style and add shine. Release the button to return to the selected heat setting.

MAINTENANCE AND CARE

- **Cleaning:** Ensure the dryer is unplugged and completely cool before cleaning. Use a soft, damp cloth to wipe the exterior.
- **Air Intake Filter:** Regularly check the rear air intake filter for lint and dust buildup. To clean, gently remove any accumulated debris. A clogged filter can reduce efficiency and cause overheating.
- **Storage:** Store the dryer in a cool, dry place. Use the hanging ring for convenient storage. Do not wrap the cord around the dryer as this can damage the cord.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Dryer does not turn on.	Not plugged in correctly; safety breaker tripped.	Ensure plug is fully inserted. Press the "RESET" button on the plug.
Weak airflow or overheating.	Clogged air intake filter.	Unplug the dryer and clean the air intake filter at the back.
Unusual smell during first use.	Normal for new appliances.	The smell should dissipate after a few uses. Ensure good ventilation.
