## Fisher-Price ViewMaster

# View-Master Red Classic 3D Viewer Instruction Manual

Model: ViewMaster | Brand: Fisher-Price

## INTRODUCTION

---

This manual provides essential information for the proper setup, operation, and maintenance of your View-Master Red Classic 3D Viewer. Please read these instructions carefully before use to ensure a safe and enjoyable experience. The View-Master viewer offers a unique 3D viewing experience, bringing images to life with depth and realism.

## PRODUCT OVERVIEW

---

**Image:** The View-Master Red Classic 3D Viewer, presented in its original packaging. The packaging highlights that it includes one reel with 7 animal pictures. The viewer itself is red, with two eyepieces and a lever on the side for advancing images. Text on the packaging indicates "3D Viewer" and "AGES 3+".

## SETUP

---

Follow these steps to prepare your View-Master for use:

1. **Unboxing:** Carefully remove the View-Master viewer and any included reels from its packaging.
2. **Reel Insertion:** Locate the slot at the top of the viewer. Hold the reel with the images facing forward and slide it into the slot until it clicks into place. Ensure the reel is fully seated.
3. **First View:** Hold the viewer up to your eyes. You should see the first image in 3D.

## OPERATING INSTRUCTIONS

---

Using your View-Master is simple and intuitive:

- **Viewing Images:** Place the eyepieces firmly against your eyes. Adjust the viewer slightly until the image appears clear and in full 3D.

- **Advancing Images:** To view the next image on the reel, gently press down the lever located on the right side of the viewer. Release the lever to allow it to return to its original position. Each press will advance to the next stereoscopic image.
- **Removing Reels:** To remove a reel, pull it straight out from the top slot. Do not force the reel if it feels stuck; ensure the advancing lever is not depressed.

## MAINTENANCE

---

Proper care will extend the life of your View-Master viewer:

- **Cleaning the Lenses:** Use a soft, lint-free cloth to gently wipe the lenses. Do not use abrasive cleaners or solvents, as these can damage the optical surfaces.
- **Cleaning the Viewer Body:** Wipe the exterior of the viewer with a slightly damp cloth. Dry thoroughly.
- **Storage:** Store the View-Master viewer and reels in a clean, dry place away from direct sunlight and extreme temperatures. Protect reels from dust and scratches.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Images are blurry or out of focus.	Lenses are dirty; viewer not held correctly.	Clean lenses with a soft cloth. Ensure eyepieces are flush with your eyes.
Reel does not advance.	Reel not inserted correctly; advancing lever stuck.	Ensure reel is fully seated. Gently operate the advancing lever. Do not force.
Images appear flat, not 3D.	Improper viewing angle; reel damaged.	Adjust viewer position. Inspect reel for damage; try a different reel.

## SPECIFICATIONS

---

**Product Dimensions:** 5.2 x 5.2 x 3.11 inches

**Item Weight:** 2.4 ounces

**Model Number:** ViewMaster

**Manufacturer:** Fisher-Price

**Recommended Age:** 3 years and up
