Braun 32B

Braun Series 3 Pro Skin Electric Shaver Replacement Head - 32B

Instruction Manual

INTRODUCTION

The Braun Series 3 32B replacement head is designed to restore your electric shaver to its peak performance. Regular replacement of the shaver head is crucial for maintaining a close, comfortable shave and preventing skin irritation. This manual provides comprehensive instructions for the proper installation, use, and maintenance of your new replacement head.

SETUP: REPLACING THE SHAVER HEAD

For optimal performance, Braun recommends changing your shaver's blades every 18 months. Replacing the head is a simple process:

1. **Remove the Old Head:** Gently press the release buttons (if present) on the sides of your shaver and pull the old foil and cutter block assembly upwards to remove it.
2. **Install the New Head:** Align the new 32B replacement head with the shaver body. Push it down until it clicks securely into place.
3. **Initial Run:** After replacing, run the shaver for approximately 5 seconds to ensure the new head is fully connected and seated properly.

**Replace every
18 months**
to maintain
your best shave

OPERATING INSTRUCTIONS

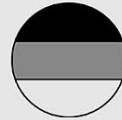

The Braun Series 3 Pro Skin replacement head is designed for efficient shaving of beard and facial hair. For best results:

- **Pre-shave Preparation:** It is recommended to trim down longer beard hair before using this foil shaver for optimal performance and comfort.
- **Wet & Dry Use:** This shaver head is suitable for both wet and dry shaving. You can use it in the shower with shaving foam or gel, or for a quick dry shave.
- **Shaving Technique:** The flexible foil and cutter block adapt to your facial contours, providing a close and comfortable shave. Move the shaver gently against the direction of hair growth.

A shave as efficient as day one

MAINTENANCE

Proper maintenance ensures the longevity and effectiveness of your shaver head:

- **Regular Cleaning:** The shaver head is fully washable. After each use, rinse the head under running water to remove hair clippings and debris. For a more thorough clean, you can use a cleaning brush (not included) to gently remove trapped hairs.
- **Optimal Performance:** For optimal performance and hygiene, it is recommended to replace your shaver head every 18 months.
- **Clean & Renew Cartridges:** For shavers compatible with a Clean & Renew station, replace the refill cartridges every two months to maintain optimal cleaning and lubrication.

**Fully
washable**
under running
water

TROUBLESHOOTING

If you experience issues with your shaver's performance after replacing the head, consider the following:

- **Poor Shave Quality:** If the shave is not as close or comfortable as expected, ensure the new head is securely attached. Also, verify that the shaver head is a genuine Braun replacement (Model 32B) and not a generic alternative.
- **Skin Irritation:** Dull blades can cause irritation. If you experience redness or discomfort, it may be an indication that the shaver head needs to be replaced, especially if it has been longer than 18 months since the last replacement.
- **Hair Pulling:** This can occur if the blades are dull or if hair is too long. Ensure you trim longer hair before shaving and consider replacing the shaver head if it's old.

SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Brand	Braun
Model Number	32B
Product Dimensions	0.98 x 4 x 4.37 inches
