SAFETY INSTRUCTIONS

- Always follow assembly instructions carefully.
- Ensure all screws and fasteners are securely tightened before use.
- Do not exceed the recommended maximum weight of 200 kg.
- Keep small parts away from children during assembly.
- Use appropriate tools for assembly to prevent damage to the product or injury.

SETUP AND ASSEMBLY

The Inter Link Alpine Living Bed requires assembly. It typically arrives in multiple packages. While assembly is straightforward, it can be time-consuming and may require two people for optimal ease and safety.

Package Contents

Verify that all components listed in the assembly guide are present. The bed includes:

- Bed frame components (solid pine wood, white lacquered)
- Roll slatted base
- 4 small drawers
- 2 large drawers
- 8 open compartments
- 2 nightstands (integrated/movable)

- All necessary hardware (screws, dowels, etc.)

Recommended Tools

- Screwdriver (manual or power drill with appropriate bits)
- Hammer (for dowels, if applicable)
- Measuring tape (for verifying dimensions)

Assembly Steps

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify each part using the provided numbering or diagrams in the separate assembly manual.
3. Begin by assembling the main bed frame, connecting the side rails and end panels. Ensure all connections are firm.
4. Install the internal support structures for the drawers and open compartments.
5. Assemble the drawers and nightstands according to their specific instructions. Note that some nightstands may have wheels for easy movement.
6. Insert the assembled drawers and nightstands into their designated compartments within the bed frame.
7. Place the roll slatted base onto the bed frame supports. Ensure it is evenly distributed and secured if necessary.
8. Double-check all screws and fasteners to ensure they are fully tightened for stability and safety.

OPERATING AND USAGE

The Inter Link Alpine Living Bed is designed for daily use as a sleeping surface and a storage solution.

Storage Functionality

- The bed features four small drawers and two large drawers, ideal for storing clothing, linens, or other personal items.
- Eight open compartments provide easy access storage for books, decorative items, or frequently used essentials.
- The two integrated nightstands can be positioned as desired, offering convenient bedside surfaces. Some nightstands may be on wheels for mobility.

MAINTENANCE AND CARE

To ensure the longevity and appearance of your Inter Link Alpine Living Bed, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as they can damage the white lacquered finish.
- **Dusting:** Regularly dust the bed frame and storage compartments with a dry, soft cloth.
- **Tightening Fasteners:** Periodically check all screws and fasteners and tighten them if necessary. Loose connections can affect the bed's stability and durability.
- **Wood Care:** As the bed is made from solid pine wood, avoid placing it in direct sunlight or near heat sources to prevent warping or cracking. Maintain a stable room temperature and humidity.
- **Drawer Operation:** Ensure drawers slide smoothly. If they become stiff, check for obstructions or apply a small amount of silicone spray to the runners (if applicable and recommended by the manufacturer).

TROUBLESHOOTING

This section addresses common issues you might encounter with your Inter Link Alpine Living Bed.

Common Issues and Solutions

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose fasteners or incorrect assembly.	Check all screws and bolts and tighten them securely. Refer to the assembly manual to ensure all parts are correctly installed.
Drawers are difficult to open or close	Obstruction in the drawer runners, misaligned drawers, or dirty runners.	Remove the drawer and check for any objects blocking the runners. Clean the runners. Ensure the drawer is properly aligned on its tracks.

Problem	Possible Cause	Solution
Squeaking noises from the bed	Loose connections, friction between wood parts, or issues with the slatted base.	Tighten all fasteners. Apply a small amount of furniture wax or silicone spray to points of friction. Inspect the slatted base for any broken or misaligned slats.
Damage to the wood finish	Impact, scratches, or exposure to harsh chemicals.	For minor scratches, touch-up paint matching the white lacquer may be used. For significant damage, contact customer support.
