IMPORTANT SAFETY INSTRUCTIONS

WARNING: To reduce the risk of fire, electric shock, or injury, read all instructions carefully before use.

- Always unplug the appliance from the electrical outlet when not in use and before cleaning.
- Do not operate the appliance with a damaged cord or plug, or if the appliance malfunctions or has been dropped or damaged.
- Do not use outdoors.
- Do not allow children to operate the steam cleaner. Close supervision is necessary when any appliance is used near children.
- Use only distilled water in the water tank to prevent mineral buildup and ensure optimal performance.
- Never direct steam at people, animals, or electrical appliances. Steam is hot and can cause burns.

- Do not open the water tank cap while the unit is pressurized or hot. Allow the unit to cool completely before refilling.
- Ensure the appliance is placed on a stable, level surface during operation.

CARE AND MAINTENANCE

- **Empty Water Tank:** After each use, allow the unit to cool completely, then carefully unscrew the water tank cap and empty any remaining water. This prevents mineral buildup.
- **Clean Exterior:** Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the steam cleaner in a cool, dry place, away from direct sunlight and out of reach of children.
- **Descaling:** If you notice a decrease in steam output or mineral residue, descaling may be necessary. Consult the manufacturer's website or customer support for specific descaling instructions.

TROUBLESHOOTING

PROBLEM	POSSIBLE CAUSE	SOLUTION
Unit does not turn on.	Not plugged in; power outlet not working.	Ensure power cord is securely plugged into a working outlet.
No steam or low steam output.	Water tank is empty; unit not heated sufficiently; mineral buildup.	Refill water tank with distilled water; wait for blue "Steam Ready" light; perform descaling procedure.
Water leaking from unit.	Water tank cap not securely tightened; overfilled water tank.	Ensure water tank cap is tightly closed; do not overfill the tank.
Jewelry not getting clean.	Not enough steam exposure; heavy grime.	Ensure jewelry is held close to the nozzle; apply steam for longer durations; pre-soak heavily soiled items.
