LEGO 8404

LEGO Public Transport Station (8404) Instruction Manual

Model: 8404

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of the LEGO Public Transport Station (8404) building set. This set allows for the construction of a comprehensive public transport system, including a bus, a tram, a street sweeper, a sports car, and a station platform with various accessories and minifigures.

Please read all instructions carefully before beginning assembly. Keep this manual for future reference.

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years. Adult supervision is recommended during assembly and play for younger children (ages 4+).

Ensure all LEGO elements are handled carefully to prevent damage or loss.

SETUP AND ASSEMBLY

The LEGO Public Transport Station (8404) set includes multiple instruction booklets, each dedicated to a specific vehicle or section of the station. Follow the steps outlined in each booklet sequentially for proper assembly.

Step 1: Organize Components

Before starting, unpack all bags and sort the LEGO elements by color and type. Refer to the parts list in the instruction booklets to ensure all pieces are present. The set includes separate instruction booklets for different models:

- Booklet 1: Yellow Sports Car and Gas Station
- Booklet 2: Orange Street Sweeper
- Booklet 3: Blue Tram
- Booklet 4: Station Platform and Accessories
- Booklet 5: Green Public Transport Bus

Step 2: Follow Instruction Booklets

Proceed with assembly by following the step-by-step diagrams in each instruction booklet. Each step illustrates which pieces are needed and where they should be placed. Pay close attention to the orientation of bricks and plates.

Step 3: Final Assembly and Placement

Once all individual models are built, arrange them to create your complete Public Transport Station scene. The station platform can be connected to the tram tracks, and the vehicles can be positioned around the station area.

OPERATING THE SET

The LEGO Public Transport Station set is designed for imaginative play. Once assembled, the vehicles and station elements can be used to create various scenarios.

- **Vehicles:** The bus, tram, street sweeper, and sports car feature rolling wheels, allowing them to be moved manually across flat surfaces.
- **Minifigures:** Position the included minifigures in and around the vehicles and station to simulate passenger pick-up, drop-off, and daily city activities.
- **Station Platform:** Use the platform as a central hub for minifigures to wait for and board the tram or bus.

There are no electronic components or complex operating mechanisms in this set; all interaction is manual.

MAINTENANCE

Proper care ensures the longevity of your LEGO set.

- **Cleaning:** To clean LEGO elements, use a mild soap solution and lukewarm water (not exceeding 40°C or 104°F). Rinse thoroughly and air dry. Do not use hot water, harsh chemicals, or abrasive materials, as these can damage the plastic.
- **Storage:** Store assembled models or loose bricks in a clean, dry place away from direct sunlight and extreme temperatures to prevent discoloration and warping.
- **Disassembly:** If disassembling the set, use a brick separator (not included in this set, but available separately) to carefully separate stubborn bricks, preventing damage to your fingernails or the bricks themselves.

TROUBLESHOOTING

Most issues with LEGO sets relate to assembly or missing parts.

- **Missing Pieces:** If you discover a missing piece during assembly, first double-check all packaging and surrounding areas. Sometimes small pieces can be overlooked. If a piece is genuinely missing, contact LEGO Customer Service for assistance.
- **Assembly Errors:** If a section of your model does not look correct or pieces do not fit, carefully retrace your steps in the instruction booklet. Ensure all pieces are oriented correctly and that you are using the correct elements for each step.
- **Loose Connections:** Ensure bricks are firmly pressed together. LEGO connections are designed to be secure when fully engaged.

SPECIFICATIONS

Feature	Detail
Brand	LEGO
Model Number	8404
Product Dimensions	23 x 4 x 15 inches (assembled set, approximate)
Item Weight	4.05 pounds
Recommended Age	3 years and up (Manufacturer recommended)
Number of Instruction Booklets	5
Included Vehicles	Bus, Tram, Street Sweeper, Sports Car
