Crosman BT725WNP

Benjamin Trail XL Magnum .25-Caliber NP Break Barrel Hunting Air Rifle

Instruction Manual

1. Safety Information

WARNING: You must be 18 years or older to buy any air gun or air rifle. Always treat every airgun as if it were loaded. Always point the muzzle in a safe direction. Always be sure of your target and what is beyond it. Always wear eye protection when handling or shooting an airgun. Read this entire manual carefully before using your air rifle.

Legal Disclaimer: We do NOT and can NOT ship airguns or bb guns to New York City and its boroughs (Manhattan, Brooklyn, Bronx, Queens, Staten Island, these zip codes are: 100xx-104xx, 110xx, 112xx-114xx, 116xx), the city of Philadelphia, PA and Washington DC. Residents of Chicago, IL cannot buy CO2 powered rifles, pistols or revolvers directly from us. Residents of New Jersey can buy bb guns through a designated local gun store after acquiring an Airgun Permit.

2. Product Overview

The Benjamin Trail XL Magnum is a high-performance break barrel air rifle designed for small to medium game hunting. It features a handsome, checkered, hardwood stock and is powered by the Benjamin Nitro Piston system, offering reduced noise and recoil.

Key Features:

- .25-CALIBER BREAK BARREL AIR RIFLE
- CHECKERED HARDWOOD STOCK AND RIFLED STEEL BARREL – Produces 70% less noise
- UP TO 900 FPS – Ideal for small game hunting
- SMOOTH COCKING, LESS RECOIL – For easy handling in the field
- CENTERPOINT OPTICS 3-9x40mm PRECISION SCOPE – Adjustable objective and range estimating reticle
- PICATINNY RAIL - For your accessories
- BENJAMIN - A True Original

Components:

The rifle comes equipped with a CenterPoint 3-9x40mm AO scope and mounts, and features sling mounts for easy carrying.

Figure 2.2: Detail of the rifle's ergonomic thumbhole hardwood stock and ventilated rubber buttpad for comfortable handling and recoil absorption.

3. Setup

3.1 Scope Mounting

The Benjamin Trail XL Magnum comes with a CenterPoint 3-9x40mm AO scope and appropriate mounts. Securely attach the scope to the Picatinny rail located on top of the receiver. Ensure all screws are tightened to the manufacturer's specifications to prevent movement during use.

Figure 3.1: The CenterPoint 3-9x40mm AO scope mounted on the rifle's Picatinny rail, providing enhanced aiming capabilities.

3.2 Initial Break-in Period

It is recommended to put approximately 100-1000 shots through the air rifle during an initial break-in period. During this time, accuracy may vary, and the cocking effort and noise level may gradually decrease as the Nitro Piston system settles.

4. Operating Instructions

4.1 Loading and Cocking

1. Ensure the safety is engaged (see Section 4.2).
2. Firmly tap the end of the barrel to break it open from the breech.
3. Swing the barrel downwards until it locks into the cocked position. This compresses the Nitro Piston.
4. Insert a single .25-caliber pellet into the breech. Ensure the pellet is seated correctly.
5. Swing the barrel back upwards until it securely latches into place.

4.2 Safety Mechanism

The air rifle features a lever safety located in front of the trigger. To disengage the safety and prepare for firing, push the lever forward. To engage the safety, pull the lever backward. Always engage the safety when the rifle is loaded and not ready to fire.

Figure 4.1: The trigger assembly and the safety lever, which must be pushed forward to disengage before firing.

4.3 Firing

Once the rifle is loaded and the safety is disengaged, aim at your target and gently squeeze the trigger to fire. The Nitro Piston system provides a smooth shot cycle with less vibration and noise compared to traditional spring-powered airguns.

4.4 Primary Use

This air rifle is ideal for small game hunting, including but not limited to squirrels, crows, and raccoons, as well as target practice. Its power and accuracy make it suitable for various outdoor applications.

5. Maintenance

Regular cleaning and maintenance are crucial for the longevity and performance of your air rifle. After each use, wipe down the exterior surfaces with a clean, dry cloth. Periodically clean the barrel using appropriate cleaning pellets or a cleaning rod and patches. Avoid using petroleum-based lubricants on the Nitro Piston system unless specifically recommended by Crosman.

6. Troubleshooting

6.1 Accuracy Issues

If you experience poor accuracy, consider the following:

- **Pellet Choice:** Experiment with different pellet brands, weights, and shapes. Air rifles can be particular about ammunition.
- **Break-in Period:** Ensure the rifle has completed its break-in period (100-1000 shots).

- **Scope Mounting:** Verify the scope is securely mounted and not loose. Check for any movement in the rings or rail.
- **Barrel Cleanliness:** A dirty barrel can affect accuracy. Clean the barrel as per maintenance instructions.

6.2 Picatinny Rail Detachment

In rare cases, the Picatinny rail may become loose or detach. If this occurs, it indicates a manufacturing defect or improper installation. Do not attempt to re-glue or repair it yourself as this may compromise safety and void the warranty. Contact Crosman customer support for assistance.

7. Specifications

Specification	Detail
Brand	Crosman
Model Name	Benjamin Trail XL Magnum .25-Caliber NP Break Barrel Hunting Air Rifle And Scope, Wood
Model Number	BT725WNP
Caliber	0.25
Air Gun Power Type	Gas-Piston (Nitro Piston)
Barrel Material Type	Steel
Item Weight	8.5 Pounds
Product Dimensions	52.25"L x 9.25"W x 3.25"H
Included Components	Benjamin Trail XL Magnum .25-Caliber NP Break Barrel Hunting Air Rifle And Scope, Wood

8. Warranty and Support

8.1 Warranty Information

The Benjamin Trail XL Magnum .25-Caliber NP Break Barrel Hunting Air Rifle comes with a**Limited 1 Year Warranty** from Crosman Corporation. Please retain your proof of purchase for warranty claims.
