

Metaltech I-CISC

MetalTech I-CISC Bakers Scaffolding Platform User Manual

Model: I-CISC

1. SAFETY INFORMATION

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Always prioritize safety when using the MetalTech Bakers Scaffolding Platform. Failure to follow safety guidelines can result in serious injury or death. Read and understand all instructions before assembly and use.

- **Load Capacity:** Do not exceed the maximum load capacity of 1000 pounds (453 kg). This includes the weight of users, tools, and materials.
- **Stable Surface:** Always set up the scaffolding on a firm, level, and stable surface. Ensure all caster wheels are locked before use.
- **Inspection:** Before each use, inspect all components for damage, wear, or missing parts. Do not use if any part is compromised.
- **Guardrails:** For elevated work, especially when stacking units, consider using appropriate guardrails to prevent falls.
- **Overhead Hazards:** Be aware of overhead power lines, obstructions, and other hazards in the work area.
- **Weather Conditions:** Do not use scaffolding in high winds, storms, or other adverse weather conditions.
- **Proper Access:** Always use the integrated ladders for climbing onto and off the platform. Do not jump or slide.

2. PRODUCT OVERVIEW

The MetalTech I-CISC Bakers Scaffolding Platform is a versatile and portable work platform designed for various indoor and outdoor tasks. It features a sturdy alloy steel frame and a durable plywood platform with steel reinforcements.

Figure 2.1: The MetalTech I-CISC Bakers Scaffolding Platform, showcasing its yellow alloy steel frame and wooden platform.

Key Features:

- **Material:** Alloy Steel frame with 1/2" plywood platform and steel reinforcements.
- **Dimensions:** Approximately 74.75 inches (W) x 29.75 inches (D) x 75 inches (H).
- **Load Capacity:** 1000 pounds (453 kg).
- **Adjustable Height:** Platform height is adjustable in 2-inch increments from 27 inches to 73 inches.
- **Mobility:** Equipped with 5-inch double-locking non-marking caster wheels for easy movement.
- **Tool-Free Assembly:** Designed for quick and easy setup without the need for additional tools.
- **Stackable:** Can be stacked up to three units high for increased working height (requires additional safety measures and components).

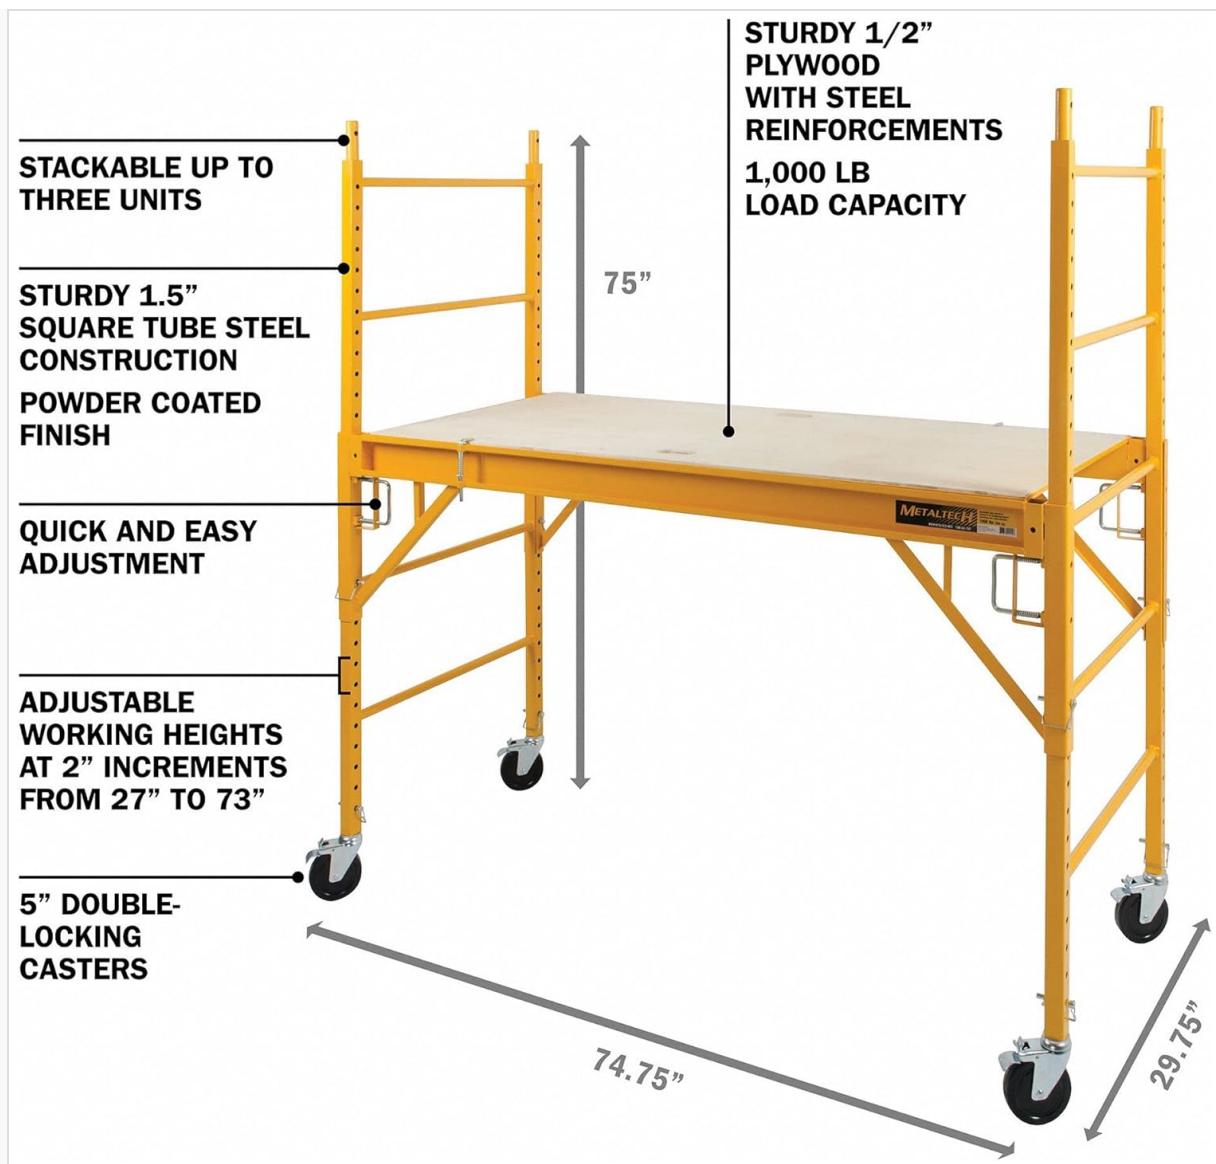

Figure 2.2: Detailed diagram illustrating the dimensions, load capacity, and adjustable features of the scaffolding platform.

3. SETUP AND ASSEMBLY

The MetalTech I-CISC scaffolding platform is designed for tool-free assembly. Follow these steps for safe and efficient setup.

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components are present according to the packing list.
2. **Attach Caster Wheels:** Insert the 5-inch double-locking caster wheels into the bottom of the vertical frames. Ensure they are securely seated.
3. **Assemble Base Frames:** Connect the two end frames using the horizontal support bars. Ensure all locking pins are engaged.
4. **Install Platform:** Place the plywood platform onto the desired height level on the horizontal support bars. The platform can be adjusted in 2-inch increments. Ensure the platform is securely seated and the locking mechanisms are engaged.
5. **Verify Stability:** Before use, gently shake the assembled scaffolding to ensure all connections are secure and the structure is stable. Lock all caster wheels.

Figure 3.1: Close-up view of the platform adjustment mechanism, highlighting the ease of height modification.

4. OPERATING INSTRUCTIONS

4.1 Adjusting Platform Height

The platform height can be adjusted from 27 inches to 73 inches in 2-inch increments. To adjust:

1. Ensure the scaffolding is unloaded and clear of personnel.
2. Unlock the platform's securing pins on both sides.
3. Carefully lift or lower the platform to the desired height, aligning it with the holes in the vertical frames.
4. Re-engage the securing pins on both sides, ensuring they are fully locked before use.

4.2 Moving the Scaffolding

The integrated caster wheels allow for easy repositioning of the scaffolding.

1. Ensure the platform is clear of personnel and heavy loads before moving.
2. Unlock all four caster wheels.
3. Carefully push or pull the scaffolding to the new desired location.
4. Once in position, lock all four caster wheels to prevent accidental movement during use.

Figure 4.1: A user demonstrating painting from the stable MetalTech scaffolding platform.

Figure 4.2: The scaffolding platform being moved through a standard doorway, highlighting its portability.

4.3 Using on Stairs

The adjustable nature of the platform allows for safe use on staircases.

1. Position the scaffolding so that the legs are on different steps.
2. Adjust the height of each side of the platform independently to ensure the platform surface is level.
3. Ensure all caster wheels are locked and the platform is stable before use.

Figure 4.3: Scaffolding positioned on a staircase, demonstrating its adaptability for uneven surfaces.

5. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your MetalTech scaffolding platform.

- **Cleaning:** Clean the frame and platform regularly with a damp cloth to remove dirt, paint, or debris. Avoid harsh chemicals that may damage the finish.
- **Inspection:** Periodically inspect all welds, joints, and locking mechanisms for signs of wear, corrosion, or damage. Check caster wheels for smooth operation and ensure brakes are functional.
- **Storage:** Store the scaffolding in a dry, protected area when not in use to prevent rust and damage.
- **Component Replacement:** If any component is damaged or excessively worn, replace it immediately with genuine MetalTech parts. Do not attempt to repair damaged structural components.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your scaffolding platform.

- **Scaffolding feels unstable or wobbly:**
 - Ensure all caster wheels are fully locked.

- Verify that the scaffolding is on a level surface. Use shims if necessary for minor unevenness.
 - Check all frame connections and platform pins to ensure they are fully engaged and secure.
 - If stacking multiple units, ensure proper cross-bracing and outriggers are used as per safety guidelines for increased height.
- **Caster wheels are difficult to roll or lock:**
 - Clean any debris from the wheels and their axles.
 - Apply a light lubricant to the wheel bearings and locking mechanisms if necessary.
 - Inspect wheels for damage; replace if cracked or severely worn.
- **Platform does not sit level after adjustment:**
 - Ensure both sides of the platform are adjusted to the same height increment.
 - Verify that the securing pins are fully inserted into the corresponding holes on both sides.

7. SPECIFICATIONS

Specification	Detail
Brand	Metaltech
Model Number	I-CISC
Material	Alloy Steel (frame), 1/2" Plywood with Steel Reinforcements (platform)
Product Dimensions (W x D x H)	74.75" x 29.75" x 75"
Color	Yellow
Item Weight	126 Pounds
Load Capacity	1000 Pounds
Maximum Height (Platform)	73 Inches
Adjustable Increments	2-inch
Special Features	Portable, Wheels, Tool-Free Assembly
UPC	778300000074, 778300200108

8. WARRANTY AND SUPPORT

8.1 Warranty Information

The MetalTech I-CISC Bakers Scaffolding Platform comes with a **one-year warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use. It does not cover damage resulting from misuse, abuse, accidents, unauthorized repairs, or normal wear and tear. Please retain your proof of purchase for warranty claims.

8.2 Customer Support

For technical assistance, replacement parts, or warranty inquiries, please contact MetalTech customer support. Refer to the official MetalTech website for the most current contact information.

You can also download the free MetalTech app for iOS and Android devices for additional resources and support.

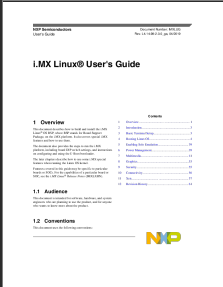

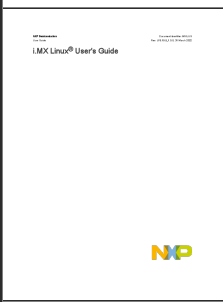

Figure 8.1: The MetalTech App, available for download on Google Play and the App Store, offering additional product information and support.
