Stalwart 75-28814

Stalwart 75-28814 3D Gold Numbers and Symbols Instruction Manual

Model: 75-28814 | Brand: Stalwart

INTRODUCTION

This manual provides comprehensive instructions for the proper use and care of your Stalwart 75-28814 3D Gold Numbers and Symbols set. This product is designed for various decorative and labeling applications, offering a durable and visually appealing solution. Please read this manual thoroughly before beginning any application to ensure optimal results and product longevity.

PACKAGE CONTENTS

The Stalwart 75-28814 set includes the following components:

- Durable plastic construction for all numbers and symbols.
- Two complete sets of numbers from 0-9.
- Various symbols including \$, #, -, ., and ,.

Image: The Stalwart 75-28814 3D Gold Numbers and Symbols set, clearly showing the numbers 0-9 and various symbols, presented in its clear plastic retail packaging.

SETUP

Before applying the numbers and symbols, ensure the following steps are completed:

1. **Identify Desired Pieces:** Carefully select the specific numbers and symbols required for your project.
2. **Prepare Application Surface:** The surface where the numbers/symbols will be applied must be clean, dry, and free of dust, grease, or any other contaminants. A smooth, non-porous surface is recommended for best adhesion.
3. **Detach from Backing:** Gently remove each chosen number or symbol from its plastic backing. Handle the pieces by their edges to avoid touching the adhesive area (if pre-applied) or the surface where adhesive will be applied.

OPERATING INSTRUCTIONS (APPLICATION)

Follow these steps to apply the 3D Gold Numbers and Symbols:

1. **Apply Adhesive:** Since adhesive is *not included* with this set, you will need to apply a suitable

adhesive to the back of each number or symbol. We recommend using a strong, clear-drying adhesive appropriate for the material of your application surface. Apply a thin, even layer of adhesive to the entire back surface of the number/symbol.

2. **Position Number/Symbol:** Carefully place the number or symbol onto the prepared surface in the desired position. Take care to align it correctly, as repositioning may affect adhesion.
3. **Press Firmly:** Once positioned, press down firmly and evenly on the entire surface of the number or symbol for several seconds to ensure good contact with the adhesive and the application surface.
4. **Allow to Dry:** Allow the adhesive to cure completely according to the adhesive manufacturer's instructions. Avoid disturbing the applied numbers/symbols during the drying period.

MAINTENANCE

To maintain the appearance and integrity of your 3D Gold Numbers and Symbols:

- **Cleaning:** Clean the numbers and symbols with a soft, dry cloth. For light smudges, a slightly damp cloth can be used, followed immediately by a dry cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the gold finish and the plastic material.
- **Environmental Conditions:** While durable, prolonged exposure to extreme temperatures or direct sunlight may affect the adhesive bond and material over time.

TROUBLESHOOTING

Refer to the following common issues and their potential solutions:

- **Issue:** Numbers/symbols are not adhering properly.
Solution: Ensure the application surface was thoroughly cleaned and dry before application. Verify that the adhesive used is appropriate for both the numbers/symbols and the surface material. Apply sufficient pressure during application and allow adequate drying time.
- **Issue:** Gold finish appears to be peeling or damaged.
Solution: This can occur from improper handling or contact with abrasive materials/chemicals. Handle the numbers/symbols carefully and follow the maintenance guidelines to avoid damage.
- **Issue:** Numbers/symbols are crooked or misaligned after application.
Solution: Once adhesive has set, repositioning may be difficult or cause damage. Ensure careful alignment before pressing firmly. For future applications, consider using temporary guides or a ruler for precise placement.

SPECIFICATIONS

Feature	Detail
Model Number	75-28814
Brand	Stalwart
Material	Durable Plastic
Color	Gold
Dimensions (approx. per piece)	0.12 x 0.62 x 1.3 inches

Feature	Detail
Item Weight	2.08 ounces (total package)
Contents	Two sets of numbers (0-9) and symbols (\$, #, -, ., ,)
