4. MAINTENANCE

Cleaning:

LEGO bricks can be cleaned using a mild soap solution and lukewarm water. Avoid hot water as it may deform the plastic. Gently scrub with a soft brush or cloth, then rinse thoroughly with clean water. Air dry completely before storing.

Storage:

Store all LEGO elements in the provided sturdy, reusable container to prevent loss and keep them free from dust. Keep the container in a cool, dry place away from direct sunlight to preserve the plastic's integrity and color.

5. TROUBLESHOOTING

- **Difficulty connecting bricks:** Ensure the bricks are aligned correctly. Apply gentle, even pressure. If bricks are consistently difficult to connect, check for any debris or damage on the studs or tubes.
- **Missing pieces:** While rare, if you believe a piece is missing from a new set, please contact LEGO Customer Service.
- **Bricks not holding together:** Ensure all connections are firm. For larger or more complex models, consider reinforcing the structure with additional bricks or plates.
