## 2. SETUP

### 2.1. Battery Installation

The Micro Touch MAX Hair Trimmer operates on one (1) AA battery (included). Follow these steps to install or replace the battery:

1. Grip the lower grey section of the trimmer and twist counter-clockwise to unlock and remove the battery

compartment cover.

2. Insert one fresh AA battery, ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
3. Replace the battery compartment cover by aligning the arrow on the green grip with the line on the grey section, then twist clockwise to lock it securely.

## 2.2. Attaching Comb Guides

The trimmer comes with various comb attachments to achieve different trimming lengths. To attach a comb guide:

1. Ensure the trimmer is turned off.
2. Align the desired comb guide with the trimmer head.
3. Gently slide the comb guide onto the trimmer head until it clicks into place.
4. To remove, gently slide the comb guide off the trimmer head.

---

## 3. OPERATING INSTRUCTIONS

The Micro Touch MAX is designed for precise trimming of unwanted hair on the face and body.

### 3.1. Powering On/Off

Press the power button located on the green rubberized grip to turn the trimmer on. The built-in light will illuminate. Press the button again to turn the trimmer off.

### 3.2. Trimming Hair

For best results, ensure the trimmer has fresh batteries. Choose the appropriate trimming length attachment if desired. Gently move the trimmer along the desired areas. The micro-precision blades and built-in light allow for accurate trimming of:

- Nose hair
- Ear hair
- Eyebrows
- Neckline
- Sideburns
- Hair around the ears (for touch-ups)

The trimmer is safe to the touch and designed to remove unwanted hair instantly and painlessly, getting as close as a blade without irritation.

## 4. MAINTENANCE

### 4.1. Cleaning the Trimmer

To ensure optimal performance and hygiene, clean the trimmer after each use:

1. Turn off the trimmer and remove any comb attachments.
2. Use the included cleaning brush (if applicable) to brush away any loose hairs from the trimmer head.
3. The trimmer head can be rinsed under running water. Ensure the main body of the trimmer, especially the battery compartment, does not get wet.
4. Allow the trimmer head to air dry completely before reattaching any accessories or storing.

### 4.2. Storage

Store the trimmer in a cool, dry place. If storing for an extended period, it is recommended to remove the AA battery to prevent leakage.

---

## 5. TROUBLESHOOTING

- **Trimmer not turning on or operating weakly:** Check if the AA battery is correctly installed and has sufficient charge. Replace with a fresh battery if necessary.
- **Trimmer pulling hair:** Ensure the trimmer head is clean and free of debris. If using a comb attachment, ensure it is securely in place. Consider replacing the battery if power is low.
- **Light not working:** The light is integrated with the power function. If the trimmer is on but the light is off,

check the battery. If the issue persists, contact customer support.
