3. OPERATING INSTRUCTIONS

3.1 Game Objective

The objective of Boggle is to find as many words as possible from a grid of randomly generated letters within a set time limit. Words are formed by connecting adjacent letters horizontally, vertically, or diagonally.

3.2 How to Play

1. **Start a New Game:** Press the designated 'New Game' or 'Start' button to generate a new letter grid.
2. **Find Words:** Observe the letters displayed on the screen. Identify words by tracing a path of adjacent letters. Letters can be connected in any direction (up, down, left, right, or diagonally). Each letter cube can only be used once per word.
3. **Enter Words:** Use the directional buttons or specific letter input buttons (if available on your model) to enter the words you find. Confirm each word entry with an 'Enter' or 'OK' button.
4. **Time Limit:** The game typically has a built-in timer. Find and enter as many words as you can before the time runs out.
5. **Scoring:** After the time expires, the game will display your score. Points are usually awarded based on the length and uniqueness of the words found. Longer words generally yield higher scores.

3.3 Game Modes and Difficulty

Your Boggle Electronic Handheld Game may feature different game modes or difficulty settings. Consult the on-screen prompts or dedicated buttons (e.g., 'Mode', 'Difficulty') to select your preferred challenge level or game variation.

4. MAINTENANCE

4.1 Cleaning

- Wipe the unit with a soft, dry cloth.
- Do not use abrasive cleaners or solvents, as these may damage the surface.

4.2 Storage

- Store the game in a cool, dry place away from direct sunlight and extreme temperatures.
- Remove batteries if the unit will not be used for an extended period to prevent leakage.

5. TROUBLESHOOTING

5.1 Unit Does Not Turn On

- Check if the batteries are inserted correctly with the proper polarity.
- Replace old batteries with new ones.
- Ensure the Power button is pressed and held for a sufficient duration.
