Zagg SHA832SHS

InvisibleShield User Manual

Model: **SHA832SHS** | Brand: **Zagg**

1. PRODUCT OVERVIEW

The Zagg InvisibleShield is an exceptionally clear and virtually indestructible film designed to protect your Sharp 832SH - SoftBank - Screen from unsightly scratches, dust, dirt, and debris. Utilizing patented nano-memory technology, this precision pre-cut film covers and shields your device, helping to maintain its pristine condition.

This protective film is remarkably thin, measuring only 0.2 millimeters, ensuring no added bulk to your device while improving grip. It offers invisible protection, preserving the original look and feel of your screen.

2. INSTALLATION GUIDE

Proper installation is crucial for optimal performance and appearance of your InvisibleShield. Follow these steps carefully:

1. **Prepare Your Device:** Use the included cleaning wipe, microfiber cloth, and dust removal sticker to thoroughly clean your screen. Any dust or smudges left on the screen will be visible after the InvisibleShield is applied.
2. **Remove Protective Film:** Carefully remove the protective film marked with the ① icon from the InvisibleShield.
3. **Align the Shield:** Use the EZ Apply tabs to precisely align the InvisibleShield with the edges of your device's screen.
4. **Apply Pressure:** Once aligned, apply firm pressure by pressing down on the center of the InvisibleShield Glass.
5. **Peel Outer Layer:** Gently peel off the outer plastic layer from the applied shield.
6. **Remove Bubbles:** Using a clean, soft cloth, firmly press and work outwards from the center to remove any air bubbles.

***Note:** If a bubble remains, press and hold it for five to ten seconds until it dissipates. Patience is key during this process.*

3. OPERATION AND PROTECTION

The InvisibleShield operates passively by providing a robust protective layer over your device's screen. Once applied, it works continuously to:

- **Prevent Scratches:** Its military-grade, patented film is highly resistant to scratches from everyday objects like keys, coins, and other abrasive materials.
- **Reduce Smudges:** While not entirely smudge-proof, the surface is designed to be easily cleaned, minimizing the appearance of fingerprints and oils.
- **Maintain Clarity:** The exceptionally clear film ensures that your screen's original display quality and touch sensitivity are unaffected.
- **Improve Grip:** The material provides a slight tactile improvement, making your device less prone to accidental slips.

The InvisibleShield is designed to be virtually unnoticeable, allowing you to enjoy your device without compromising its aesthetics or functionality.

4. CARE AND MAINTENANCE

To ensure the longevity and clarity of your InvisibleShield, follow these simple maintenance guidelines:

- **Regular Cleaning:** Wipe the screen protector regularly with a soft, lint-free cloth, such as the microfiber cloth provided in the original packaging.

- **Gentle Cleaning Agents:** For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals, abrasive cleaners, or alcohol-based solutions, as these can damage the film.
- **Avoid Sharp Objects:** While the InvisibleShield is highly durable, extreme pressure or direct contact with very sharp objects can still cause damage.
- **Removal:** If you ever need to remove the InvisibleShield, it comes off clean and leaves no sticky residue on your device. Gently peel it from one corner.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bubbles under the shield	Trapped air or dust particles during application.	• Use the squeegee or a soft cloth to gently push bubbles towards the edges. • For persistent bubbles, press and hold for 5-10 seconds. • Ensure the screen is completely clean before application to prevent dust-related bubbles.
Shield not adhering properly	Insufficient moisture during application (if applicable to specific InvisibleShield types) or improper cleaning.	• Ensure the screen is free of oils and debris. • Re-align and re-apply pressure, ensuring even contact.
Scratches on the InvisibleShield	Normal wear and tear or exposure to extremely abrasive materials.	• The InvisibleShield is designed to absorb damage to protect your device. • Refer to the Warranty section for replacement information.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Zagg
Model Number	SHA832SHS
Compatible Devices	Sharp 832SH (SoftBank), Cellphone
Product Dimensions	5 x 8.8 x 0.5 inches

Feature	Detail
Item Weight	0.01 ounces
Color	Clear
Special Features	Durable, Scratch-Proof, Invisible Protection, Improves Grip, Easy to Remove
