

Blomberg KQD 1250 X A+

Blomberg KQD 1250 X A+ Refrigerator User Manual

Model: KQD 1250 X A+

INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Blomberg KQD 1250 X A+ refrigerator. Please read this manual thoroughly before using the appliance and keep it for future reference.

SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons. This appliance is intended for household use only.

- Ensure the appliance is properly grounded.
- Do not damage the refrigerant circuit.
- Keep ventilation openings clear of obstruction.
- Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.
- Unplug the appliance before cleaning or performing maintenance.

PRODUCT OVERVIEW

The Blomberg KQD 1250 X A+ is a four-door refrigerator and freezer combination unit, featuring a stainless steel, fingerprint-resistant finish. It offers advanced cooling technologies and flexible storage options.

Figure 1: Front view of the Blomberg KQD 1250 X A+ refrigerator with all four doors open, revealing the spacious interior. The upper section is the refrigerator compartment with multiple shelves and door bins, while the lower section consists of freezer and Flexizone compartments with drawers.

Key Features:

- **NoFrost Technology:** Prevents ice build-up in the freezer, eliminating the need for manual defrosting.
- **Fast Cooling Function:** Rapidly cools newly added items to preserve freshness.
- **Antibacterial Coating:** Helps maintain a hygienic interior environment.
- **Automatic Ice Maker:** Produces ice cubes automatically for convenience.
- **Touchscreen Display:** Intuitive control panel for temperature settings and functions.

- **Flexizone:** A versatile compartment with adjustable temperature from -24°C to +10°C, allowing it to function as a freezer, chiller, or refrigerator.
- **FloraBeam (Blue Light) Vegetable Drawers:** Special blue light technology designed to prolong the freshness of fruits and vegetables.

SETUP AND INSTALLATION

Unpacking:

- Carefully remove all packaging materials.
- Inspect the appliance for any shipping damage. Report any damage immediately to your retailer.
- Remove all tape and protective film from the surfaces.

Placement:

- Place the refrigerator on a firm, level floor.
- Ensure adequate ventilation around the appliance. Allow at least 5-10 cm of space at the back and sides for proper air circulation.
- Avoid placing the appliance in direct sunlight or near heat sources (e.g., ovens, radiators) to ensure optimal performance and energy efficiency.
- The appliance is designed for ambient temperatures within the SN-T climate class.

Electrical Connection:

- Connect the appliance to a grounded power outlet.
- Do not use extension cords or adapters.
- Allow the appliance to stand upright for at least 4 hours before plugging it in to allow the refrigerant to settle.

OPERATING INSTRUCTIONS

Initial Startup:

- Plug in the appliance. The internal lights will illuminate, and the display will activate.
- Set the desired temperatures for the refrigerator and freezer compartments using the touchscreen display.
- Allow the appliance to cool down for several hours (at least 6-8 hours) before loading it with food.

Temperature Control:

- The electronic temperature control allows precise adjustment of cooling and freezing levels.
- Refer to the touchscreen display for current temperature settings and adjustment options.

Flexizone Operation:

The Flexizone offers flexible temperature settings, making it adaptable to your storage needs.

- Access the Flexizone settings via the touchscreen display.
- Select the desired temperature range from -24°C (freezer) to +10°C (chiller/refrigerator).
- This zone is ideal for temporary storage of beverages, large party platters, or extra frozen goods.

Ice Maker:

The automatic ice maker produces ice cubes. Ensure the water reservoir (if applicable, check specific model details) is filled for continuous ice production.

Figure 2: Close-up view of the interior of the Blomberg KQD 1250 X A+ refrigerator, highlighting the vegetable drawers with their distinctive blue LED lighting (FloraBeam technology) designed to preserve freshness. Various food items are visible on the shelves.

MAINTENANCE AND CLEANING

General Cleaning:

- Always unplug the appliance before cleaning.
- Clean the interior and exterior surfaces with a soft cloth and a mild detergent solution.

- Do not use abrasive cleaners, solvents, or harsh chemicals.
- Wipe down door seals regularly to ensure a tight seal.

NoFrost System:

The NoFrost system automatically prevents ice build-up, so manual defrosting of the freezer compartment is not required.

Condenser Coils:

Periodically clean the condenser coils located at the back or bottom of the appliance to ensure efficient operation. Use a vacuum cleaner or a soft brush to remove dust and debris.

TROUBLESHOOTING

Before contacting service, please check the following common issues:

Problem	Possible Cause	Solution
Appliance does not operate.	No power supply; plug not inserted correctly; fuse blown.	Check power connection; check household fuse.
Appliance is too warm.	Door not closed properly; door opened too frequently; large amount of warm food placed inside; poor ventilation.	Ensure door is sealed; reduce door openings; allow hot food to cool before storing; ensure adequate space around appliance.
Unusual noises.	Appliance not level; objects vibrating against the appliance; normal operating sounds (e.g., refrigerant flow, compressor).	Adjust leveling feet; ensure no objects are touching the appliance; normal sounds are not a fault.
Water on the floor.	Drain hole blocked; excessive humidity.	Clear the drain hole; ensure proper ventilation and avoid storing uncovered liquids.

SPECIFICATIONS

Feature	Detail
Model Number	KQD 1250 X A+
Brand	Blomberg
Type	Refrigerator and Freezer (4-door)
Total Gross Capacity	610 Liters
Total Net Capacity	540 Liters
