Bridgestone TMPX

BRIDGESTONE TOURSTAGE Ball X01 MILD Super Pink User Manual

Model: TMPX

PRODUCT OVERVIEW

The BRIDGESTONE TOURSTAGE Ball X01 MILD Super Pink is a high-performance golf ball designed for various players, including men, women, and kids. This product comes in a pack of 12 balls, offering a vibrant super pink color. It is important to note that the super vivid color of these golf balls is achieved using a fluorescent coloring agent. Consequently, prolonged exposure to direct sunlight or fluorescent lights may cause the color to change. This color alteration does not, however, affect the ball's performance characteristics.

SETUP

The BRIDGESTONE TOURSTAGE Ball X01 MILD Super Pink golf balls are ready for immediate use upon removal from their packaging. No assembly or special setup procedures are required.

- **Unpacking:** Carefully open the outer packaging and remove the dozen golf balls.
- **Inspection:** Before first use, visually inspect each ball for any manufacturing defects or damage.

- **Storage:** Store golf balls in a cool, dry place away from direct sunlight to minimize potential color fading over time.

OPERATING INSTRUCTIONS

These golf balls are designed for standard golf play on courses, driving ranges, or for practice. Their performance characteristics are optimized for general play across various skill levels.

1. **Selection:** Choose a ball for your shot.
2. **Placement:** Place the ball on a tee for tee shots or directly on the ground for fairway and rough shots, according to golf rules.
3. **Striking:** Use appropriate golf clubs to strike the ball. The X01 MILD is designed to provide a balanced feel and distance.
4. **Retrieval:** After each shot, retrieve your ball.

Note: The performance of the golf ball is influenced by factors such as swing speed, club type, and environmental conditions. Consistent performance is maintained even if the color fades due to light exposure.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your golf balls.

- **Cleaning:** After each round or practice session, clean the golf balls to remove dirt, grass, and other debris. A damp cloth or a golf ball washer can be used.
- **Drying:** Ensure balls are completely dry before storing them to prevent mildew or residue buildup.
- **Storage:** Store golf balls in their original packaging or a dedicated golf ball container in a cool, dry environment. Avoid extreme temperatures and direct sunlight to preserve the ball's aesthetic quality.
- **Inspection:** Periodically inspect balls for cuts, scuffs, or deformities that could affect flight characteristics. Replace severely damaged balls.

TROUBLESHOOTING

This section addresses common observations and concerns regarding the BRIDGESTONE TOURSTAGE Ball X01 MILD Super Pink.

Problem	Possible Cause	Solution
Ball color appears faded or changed.	Prolonged exposure to direct sunlight or fluorescent lights.	This is a normal characteristic of the fluorescent coloring agent used. The color change does not impact the ball's performance. Store balls away from direct light when not in use.
Ball performance seems inconsistent.	Damage to the ball (cuts, scuffs), or external factors (swing, weather).	Inspect the ball for damage; replace if necessary. Ensure proper swing mechanics and consider environmental conditions.

SPECIFICATIONS

Detailed specifications for the BRIDGESTONE TOURSTAGE Ball X01 MILD Super Pink.
