PRODUCT OVERVIEW

This manual provides essential information for the Hot Wheels 2010 New Models '10 Infiniti G37 die-cast collectible car. This 1:64 scale model, approximately 3 inches long, is part of the 2010 New Models series and features the iconic Infiniti G37 design.

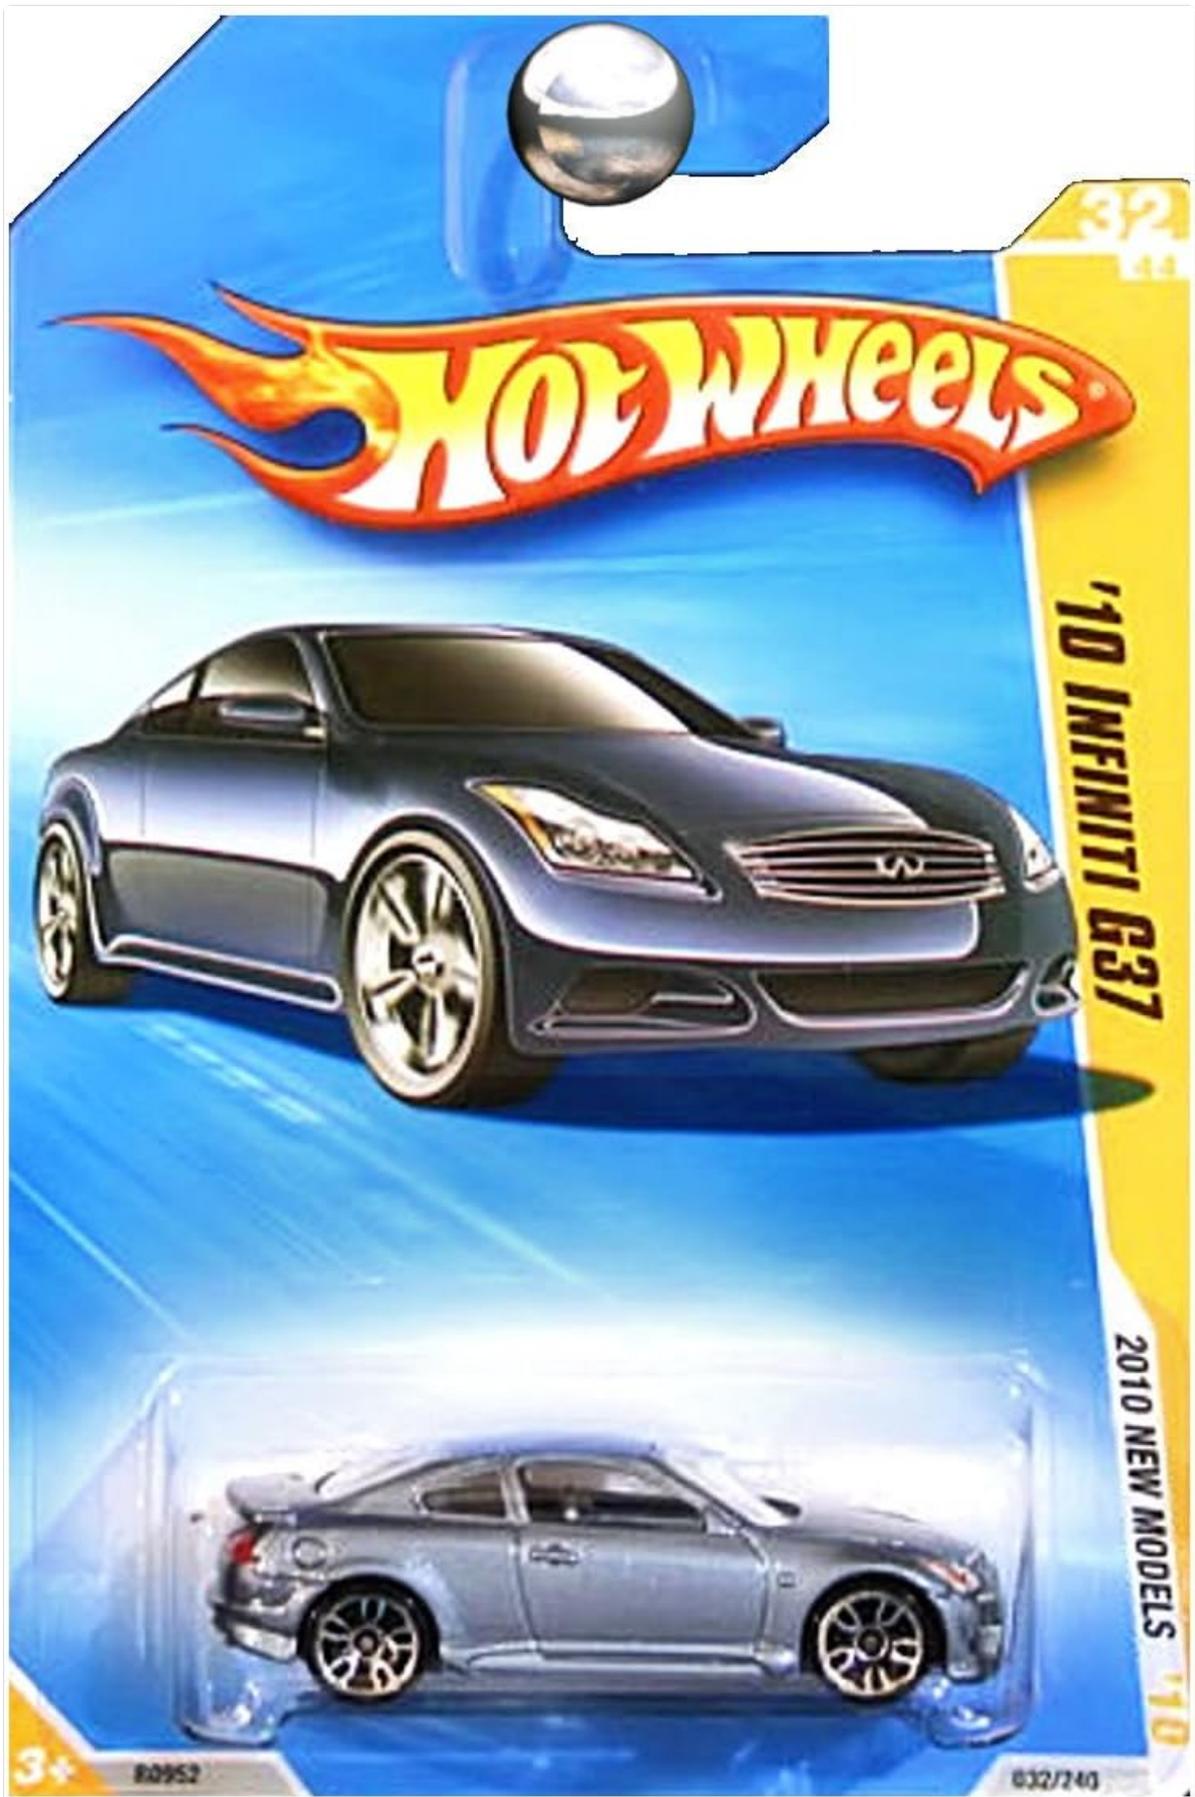

Image: The Hot Wheels 2010 New Models Infiniti G37 die-cast car, presented in its blister packaging. The packaging features a vibrant blue background with the Hot Wheels logo and a larger graphic of the Infiniti G37. The physical die-cast car, a silver Infiniti G37 coupe, is visible in the clear plastic blister at the bottom.

Designed for collectors and enthusiasts, this model accurately represents the Infiniti G37, offering a detailed miniature replica. It is suitable for display and light play.

SETUP

Unboxing

1. Carefully remove the Hot Wheels car from its packaging. The package typically contains one (1) Hot Wheels car.
2. Inspect the car for any visible damage or manufacturing defects.
3. Retain packaging for future reference or storage, if desired.

Initial Inspection

- Ensure all four wheels spin freely.
- Check for any loose parts or paint imperfections.

OPERATION

The Hot Wheels Infiniti G37 is a die-cast toy car designed for imaginative play and collection. Its operation is straightforward:

- Place the car on a flat, smooth surface.
- Push the car forward or backward to initiate movement.
- The car is compatible with most Hot Wheels tracks and playsets, allowing for extended play scenarios.

Recommended Age: This product is recommended for ages 3 years and up.

MAINTENANCE

Cleaning

- To clean the car, gently wipe it with a soft, dry cloth.
- For stubborn dirt, a slightly damp cloth can be used, followed immediately by a dry cloth.
- Avoid using harsh chemicals, abrasive cleaners, or excessive water, as these can damage the paint finish or decals.

Storage

- Store the car in a cool, dry place away from direct sunlight and extreme temperatures.
- For collectors, consider storing the car in its original packaging or a display case to preserve its condition.

TROUBLESHOOTING

Common Issues and Solutions

- **Wheels not spinning freely:** Check for any debris or foreign objects lodged in the axle or wheel well. Gently remove any obstructions.
- **Paint chipping or fading:** This can occur with extensive play or exposure to harsh conditions. While minor wear is normal, ensure proper storage and gentle handling to minimize this. This is generally not a defect but a result of use.
- **Loose parts:** Hot Wheels cars are generally robust. If a part becomes loose, inspect if it can be gently re-secured. For significant damage, consider if the item is still suitable for play, especially for younger children.
