Baby Foot Original Exfoliation Foot Peel Instruction Manual

Model: 0025.878

INTRODUCTION

This manual provides comprehensive instructions for the safe and effective use of the Baby Foot Original Exfoliation Foot Peel. Designed to remove hardened, dead skin cells, this product aims to leave your feet feeling smooth and soft. Please read all instructions carefully before use.

SAFETY INFORMATION AND WARNINGS

- **Do not use this product if:**
 - You are pregnant or nursing.
 - You are diabetic (consult your physician before use).
 - You are allergic to any of the ingredients listed.
 - You have open sores or cuts on your feet.
 - You have sensitive skin.
- If you have active foot fungus, some stinging may occur.
- Keep the gel away from eyes. If contact occurs, rinse thoroughly with water.
- Do not expose the product to extreme high or low temperatures, or direct sunlight.
- Do not use this product after the expiration date.
- Keep out of reach of children.

SETUP AND PREPARATION

- Cleanse Feet:** Ensure your feet are clean and dry. For optimal results, it is recommended to soak your feet in warm water for 20 minutes prior to application.
- Open Booties:** Carefully remove the plastic booties from the foil packet. Cut along the indicated line at the top of each bootie.
- Insert Feet:** Slip one foot into each plastic bootie.
- Secure Booties:** Use the provided adhesive tape to secure the booties around your ankles, ensuring a snug fit. Wearing socks over the booties can help keep them in place and enhance contact with the skin.

Pedi-Perfect Feet

Elevate your foot care with the original cult-favorite.

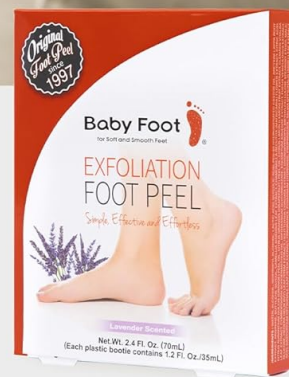

Figure 2: Preparing the Baby Foot booties by cutting along the top edge before use.

OPERATING INSTRUCTIONS (APPLICATION)

1. **Treatment Duration:** Leave the booties on your feet for **1 hour**. During this time, you may relax or move around gently.
2. **Removal and Rinsing:** After 1 hour, remove the plastic booties. Wash your feet gently with soap and cool to warm water to remove any remaining gel.

Effortless Foot Care

Step 1

Prep & Secure

Cut, slip foot into bootie, secure with tape.

Step 2

Leave & Relax

Leave booties on for 1 hour. Wear socks over booties for comfort.

Step 3

Remove & Rinse

After 1 hour, remove booties, wash feet. Peeling begins in 5-7 days.

Figure 3: Step-by-step guide for applying, wearing, and removing the Baby Foot peel.

POST-TREATMENT CARE AND EXPECTED RESULTS

- **Peeling Process:** Dead skin will begin peeling within 5-7 days after the treatment. The peeling process can last up to two weeks.
- **Do Not Force Peeling:** Allow the dead skin to slough off naturally. Do not forcibly peel or pick at the skin, as this can cause irritation or damage.
- **Daily Soaking:** Soaking your feet daily in warm water (e.g., during a shower or bath) can help accelerate the peeling process.
- **Moisturizing:** While peeling, you may apply a small amount of moisturizer if desired. Some users find body oil helpful for moisturizing new skin.
- **Protect New Skin:** After peeling, your feet will have a thinner layer of skin. Wear comfortable shoes that do not pinch or rub.

Baby Foot Experience

MAINTENANCE

For continued soft and smooth feet, it is recommended to use Baby Foot every one to two months, or as needed, after the initial peeling process is complete.
