Ariete AR407

Ariete 407 Spremì Electric Citrus Juicer

Brand: Ariete | **Model:** AR407

Product Overview

The Ariete Spremì Electric Citrus Juicer, model AR407, is designed for efficient and easy juicing of various citrus fruits. Its compact and elegant design, combined with a powerful 60-watt motor, ensures quick and thorough extraction of juice. This appliance features a double reamer to accommodate both small and large citrus fruits, a non-drip spout for clean operation, and a protective lid for hygiene.

Setup and Assembly

Before first use, ensure all packaging materials are removed. The juicer comes with several components that require simple assembly.

1. **Unpacking:** Carefully remove the juicer and all its accessories from the box. Verify that all parts are present: the main unit, large reamer, small reamer, and plastic dust cover.
2. **Placement:** Place the main juicer unit on a stable, flat, and dry surface, away from the edge of the countertop.
3. **Reamer Installation:** Select the appropriate reamer (large for oranges/grapefruits, small for lemons/limes) and place it securely onto the central shaft of the juicer. Ensure it clicks into place or sits firmly.
4. **Dust Cover:** The plastic dust cover can be placed over the reamer when the juicer is not in use to maintain hygiene.
5. **Power Connection:** Plug the power cord into a suitable electrical outlet (230 Volts).

Operating Instructions

Follow these steps to effectively juice citrus fruits with your Ariete Spremì:

1. **Prepare Fruit:** Cut the citrus fruit (oranges, lemons, grapefruits, limes) in half.
2. **Place Container:** Position a glass or container directly under the non-drip spout to collect the juice.
3. **Juicing:** Place one half of the cut fruit onto the reamer. Apply gentle downward pressure. The juicer will automatically start rotating. The alternating rotary movement ensures maximum juice extraction.
4. **Pulp Control:** The integrated pulp-pressing tabs help to separate pulp from the juice.
5. **Stop Juicing:** Release the downward pressure on the fruit to stop the motor.

6. **Non-Drip Spout:** Once juicing is complete, ensure the non-drip spout is in the closed position to prevent any residual drips.

Maintenance and Cleaning

Regular cleaning ensures the longevity and hygienic operation of your juicer. The removable parts are dishwasher safe for convenience.

1. **Disconnect Power:** Always unplug the juicer from the electrical outlet before cleaning.

2. **Disassembly:** Remove the reamer(s) and any other removable parts from the main unit.
3. **Washing:** Wash the removable parts (reamers, pulp filter, spout) with warm, soapy water or place them in the dishwasher. Rinse thoroughly.
4. **Main Unit Cleaning:** Wipe the main motor unit with a damp cloth. *Do not immerse the main unit in water or any other liquid.*
5. **Drying:** Ensure all parts are completely dry before reassembling or storing the juicer.
6. **Storage:** Store the juicer with the dust cover in place to protect it from dust and debris.

Troubleshooting

If you encounter issues with your Ariete Spremì Electric Citrus Juicer, refer to the following common solutions:

- **Juicer does not turn on:**
  - Ensure the power cord is securely plugged into a working electrical outlet.
  - Verify that there is sufficient downward pressure on the reamer when juicing. The motor activates upon pressure.
- **Poor juice extraction:**
  - Ensure the fruit is cut in half and placed correctly on the reamer.
  - Apply consistent, firm pressure.
  - Check if the reamer is properly installed.
- **Juicer is noisy or vibrates excessively:**
  - Ensure the juicer is placed on a stable, flat surface.
  - Check that all removable parts are correctly assembled.

If the problem persists, please contact customer support or refer to the full instruction manual included with your product.

Specifications

Feature	Detail
Brand	Ariete
Model Number	AR407
Color	Silver
Product Dimensions (L x W x H)	23 x 28 x 36 cm
Capacity	3.5 Liters
Power / Wattage	60 Watts
Voltage	230 Volts
Material	Stainless Steel
Noise Level	10 dB
