Cleaning

Clean the interior and exterior surfaces regularly with a mild detergent and warm water. Avoid abrasive cleaners or solvents.

Power Outage

In case of a power outage, keep the freezer lid closed to maintain the internal temperature for as long as possible.

TROUBLESHOOTING

Before contacting customer service, check the following common issues:

- **Freezer not operating:** Ensure the power cord is securely plugged in and the circuit breaker has not tripped.
- **Temperature too high:** Check if the lid is properly closed. Ensure the temperature setting is appropriate. Avoid overloading the freezer.
